Course Description

This course examines the emerging global cultures of the 21st century through processes at both the macro and micro levels – that is, how globalizing processes have changed and are changing the everyday lives of individuals and communities and vice versa. In addition to examining the structures of global capitalism, we will also consider art, popular culture, food, health, the environment and political protests.

This course is taught from a multidisciplinary perspective, introducing the systems approach to social science issues. The course is based in the discipline of anthropology, however, it also integrates sociological, economic, and historical perspectives.

Course Assignments and Grading Policy

Reading Quizzes

Please note that you will take weekly quizzes on Canvas on the readings, to better prepare you for the class discussions. These quizzes are 5 questions each, are pretty easy if you have done the reading, are timed at 20 minutes each, and must be completed by the beginning of class.

To take a quiz, click on the Canvas link for that day's quiz. You will take 13 quizzes, but only 12 will count towards your final grade.

Movie Response

Each student will write a 2-page response to one of the movies (selection to be announced), which will count for 10 points of the Midterm Exam.

Global Issues Project

The Global Issues Project examines a social problem or issue in a variety of cultural settings. The goal of the project is to develop appreciation of the simultaneous processes of globalization and local responses, as well as the links between cultures, economies, values and technologies. Each team will work on a single topic; each student will write a 6-page research "brief" on that topic in one specific country. Working with these multiple cultural perspectives, your team will present a 15-minute analysis of their findings to the class, in Powerpoint or Prezi form (50 points).

GIP team activities include the following meetings (each team day worth 10 points, with advance notice, you may miss one team day for ½ credit)

1. Select a topic, form teams
2. Identify key issues and team approach
3. Share research materials, analyze relations between issues, develop timeline
4. Plan presentation to class
5. Peer Edit individual papers, work on presentations

GIP individual activities include:

- Annotated bibliography of peer-reviewed sources for your research paper (2-3 pages, 20 points)
- GIP research paper (6 pages, not including bibliography; 1800 words, peer evaluated, 100 points)
- Evaluation of own team's efforts

Classroom Protocol

I understand that multi-tasking may be essential to getting through life. BUT NOT THROUGH THIS CLASS. You need to be FULLY PRESENT to be successful. Therefore, please do not text, do not surf the web, do not go on Facebook, e-mail or anywhere else during class. If you are distracting me or others, I will call you out by name, you will have to put your computer away, and/or I will confiscate your cellphone. No computer note-taking during videos, of which there are many.

Please do not leave the class unless you have a REAL emergency. It's rude.

Class Participation

Class participation means active participation in the teamwork for the Global Issues Project. Attendance counts for 10 points each team day; you may receive ½ credit once, if you let me know in advance you will be missing a meeting.
