Instructor: Lorna C. Pierce, PhD
Office Location: Washington Square Hall 2
Telephone: 408-249-7719, 408-246-6462 FAX
Email: lcpierce@flash.net, lorna.pierce@sjsu.edu
Office Hours: Wednesday 1400-1500 or by appointment
Class Days/Time: Wednesday 1500-1745
Classroom: Washington Square Hall 4

Course Description
This introduction to the recovery and interpretation of human skeletal remains within the context of scientific death investigation will emphasize the multidisciplinary approach which draws upon the fields of physical anthropology, forensic pathology, archaeology, forensic odontology, criminalistics, and other forensic disciplines. An introductory laboratory class in human osteology will include the recognition of human vs. non-human material, the assessment of age, sex, race, and the recognition of gross trauma and pathological lesions. This segment will be interdigitated with the lecture sessions.

Course Goals
1. A basic understanding of human osteology and its use in forensic anthropology
2. An understanding of how anthropology fits into the forensic sciences
3. Development of a questioning nature when reading scientific or purported scientific material.

Course Content Learning Outcomes
Upon successful completion of the course, students will be able to:
1. Explain the medicolegal context into which forensic anthropology falls
2. Describe the different disciplines involved in death investigation, such as the fields of physical anthropology, forensic pathology, archaeology, forensic odontology, criminalistics and other forensic disciplines
3. Identify and side all major bones of the body
4. Provide a simple biological profile from complete skeletal remains
CLO Competency Assessment Competency measures

Explain the medicolegal context into which forensic anthropology lies Examination questions Correct exam answers. 80% or higher reflects competency

Describe the different disciplines involved in death investigation Examination questions Correct exam answers. 80% or higher reflects competency

Identify and side all major bones of the body. Hands on examination of human skeletal remains Correct identification. 90% or higher reflects competency

Provide a simple biological profile from complete skeletal remains. Hands on examination of human skeletal remains. Correct identification. 90% or higher reflects competency

Required Text and Readings

Text:

Other required readings are listed in the weekly schedule.

PURELY FOR PLEASURE
There are several DVDs available which may assist you in the identification of skeletal material. The Anatomical Chart web site [http://www.anatomical.com](http://www.anatomical.com) lists some of these materials. There are also apps available.

**Course Requirements and Assignments**

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week) including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in University Policy S12-3 at [http://www.sjsu.senate/docs/S12-3.pdf](http://www.sjsu.senate/docs/S12-3.pdf).

A research paper is required in this class. The topic may be any aspect of forensic anthropology or a related subject; it may be a brief history of a technique, a biography and professional lineage of a pioneer in the field, or an exploration into a topic of current interest. Please discuss the topic with me ahead of time. This assignment may be presented as an oral presentation (approximately 10 minutes) or as a 5 to 10 page printed paper. If you choose to write a paper, it must utilize the format explained in Journal of Forensic Sciences. A minimum of ten different citations from such professional journals as Journal of Forensic Sciences, American Journal of Physical Anthropology, etc., shall be used. Material from comparable professional texts such as Morse *et al*, Ubelaker (1984, 1989) may be used. Do not use Wikipedia. Late papers are subject to severe grade reductions. Plagiarism or the utilization of papers from Internet providers will result in an F in the class.

**Grading Policy**

Grading:

<table>

</table>

90 and above   A  
80-89           B  
70-79           C  
60-69           D  
59 and below    F

**Classroom Protocol**

Neither attendance nor class participation during lecture periods will be used as a criterion for grading. Historically, class participation during the laboratory portions has had a direct correlation with grades on the osteology quizzes.
If you miss a quiz or a required laboratory exercise due to illness or a family emergency, please notify the instructor ahead of time. If you simply fail to show up you may not make it up.

Thanks to the Forensic Science Program, the Journal of Forensic Sciences is available on the computer in the laboratory.

Due to the sensitive nature of some of the material presented in this course, no photography will be allowed; this includes the use of camera phones, etc. during the class. No recording of any kind is allowed. Human skeletal material will be used in this course; respect for these materials will be maintained at all times. Unprofessional handling of the specimens will result in disciplinary action.

Be Polite. All phones must be turned off.

The following schedule is only a guideline and may be changed depending on the availability of the guest speakers. Additional reading assignments may be given.

ANTH 157 / Introduction to Forensic Anthropology, Spring 2016, Wednesday 1500-1745

Goals  http://www.sjsu.edu/anthropology/departmentinfo/goals/index.html

University Policies

Here are some of the basic university policies that students must follow.

General Expectations, Rights and Responsibilities of the Student

As members of the academic community, students accept both the rights and responsibilities incumbent upon all members of the institution. Students are encouraged to familiarize themselves with SJSU’s policies and practices pertaining to the procedures to follow if and when questions or concerns about a class arises. To learn important campus information, view University Policy S90–5 at http://www.sjsu.edu/senate/docs/S90-5.pdf and SJSU current semester’s Policies and Procedures, at http://info.sjsu.edu/static/catalog/policies.html. In general, it is recommended that students begin by seeking clarification or discussing concerns with their instructor. If such conversation is not possible, or if it does not address the issue, it is recommended that the student contact the Department Chair as the next step.

Dropping and Adding

Find the procedures and deadlines for adding and dropping classes.
Catalog Policies  http://info.sjsu.edu/static/catalog/policies.html.
Add/drop deadlines  http://www.sjsu.edu/provost/services/academic_calendars/
Late Drop Policy  http://www.sjsu.edu/aars/policies/latedrops/policy/

Consent for Recording of Class and Public Sharing of Instructor Material

All students must obtain the instructor’s permission if they wish to record lectures or distribute materials from the class. University Policy S12-7  http://www.sjsu.edu/senate/docs/S12-7.pdf

Academic integrity

Learn about the importance of academic honesty and the consequences if it is violated.
University Academic Integrity Policy S07-2  http://www.sjsu.edu/senate/docs/S07-2.pdf
Student Conduct and Ethical Development website  http://www.sjsu.edu/studentconduct/

Campus Policy in Compliance with the American Disabilities Act

Here are guidelines to request any course adaptations or accommodations you might need.
