Course Description

SJSU Catalog: Introduction to systems concepts and approach as a way to investigate the global impacts of industrial technology on political, economic, social and moral/psychological structures of humankind.

Supplement: This course examines the emerging global culture of the early twenty-first century. Those aspects of human culture which merge human societies-communications, popular cultures, population shifts, political movements, economic and environmental interdependencies-will be explored. In addition, the creation of "local" culture and identity will provide a complementary perspective.

The central questions of the course are:

- What are the systemic principles that extend to culture and how does the systemic point of view illuminate the processes of change?
- How have cultures changed in the twentieth century and how has our understanding of that process changed?
- Is there an emerging global culture and if so, what is it? What forces-such as political economics, tourism, social movements, and popular culture-limit and nurture it?
- How can we anticipate future manifestations in global cultures?

- How does the experience of living in a "global culture" affect both individuals and cultures?

This course is taught from a multidisciplinary perspective, introducing the systems approach to social science issues. The course is based in the discipline of anthropology, however it will integrate sociological, cybernetic and historic perspectives. It satisfies requirements for the Culture and Civilization Advanced General Education, as well as departmental and program requirements in anthropology and behavioral science.

Course Goals and Learning Objectives

The content of this course is intended to meet the goals of SJSU studies Area V, Culture, Civilization, & Global Understanding

"It is University policy that courses to meet Area R, S, and V of SJSU Studies must be taken from three different departments or distinct academic units. This policy has been suspended beginning fall 2012 until further notice and students are permitted to take two or three R, S, or V courses from the same department. However, we encourage you to continue taking R, S, and V courses from different departments in order to broaden your education."

Courses in Culture, Civilization, and Global Understanding should give students an appreciation for human expression in cultures outside the U.S. and an understanding of how that expression has developed over time. These courses should also increase students' understanding of how traditions of cultures outside the U.S. have influenced American culture and society, as well as how cultures in general both develop distinctive features and interact with other cultures.

GE Learning Outcomes (GELO)

Upon successful completion of this program, students will be able to:

1. compare systematically the ideas, values, images, cultural artifacts, economic structures, technological developments, and/or attitudes of people from more than one culture outside the U.S.;
2. identify the historical context of ideas and cultural traditions outside the U.S. and how they have influenced American culture; and
3. explain how a culture outside the U.S. has changed in response to internal and external pressures.

Course Content Learning Outcomes (CLO's)

1. The student will learn how to understand events within a broad worldwide framework.
2. The student will practice comparing and contrasting today's global issues with those of other historical periods.
3. The student will learn to critique different assumptions and reviewing a range of perspectives on global issues.
4. Students will discuss competing definitions of "globalization."
5. Students will analyze the impacts of trade, technology, migration, and conflict on cultural change.
6. Students will develop the skills needed to anticipate and shape future scenarios.

7. Students will learn to work cooperatively with other students on a class project.

Required Texts/Readings

Textbook

Steger, Manfred B. *Globalization: A Very Short Introduction*. Oxford, United Kingdom. 2013
ISBN 978-0-966266-1

Merry White. *Coffee Life in Japan*. Berkeley, University of California Press. 2012. ISBN 978-0-520-27115-9 (This book is available for free as an e-book through the King Library.) Other Readings will be made available through Canvas.

Course Requirements and Assignments

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

Global Flows Exercise (30 points, 6% of class total)

You will do a fieldwork assignment which is an ethnographic interview conducted with a family member or friend outlining the context of family arrival in the United States. The exercise will integrate themes and ideas outlined in the course (**Assignment 1**, 30 points for submission of final interview with a family member and the authorization form). This assignment must have passed through Grammarly. Upload a screenshot of your Grammarly submission to the assignment.

Global Alternative Project (260 points total, 52% of class total)

This will consist of (1) a series of group and individual activities focused around a global alternatives project (see below) and (2) an individual 1500 word paper based on your analysis of a commodity chain. (See Canvas for due dates).

The global alternatives project is a series of group activities designed to sharpen your awareness of the processes by which commodities are produced, distributed, and consumed. Project groups of 5-8 members will work together to analyze a global commodity from production point to its final destination, with particular focus on how people, environments, cultures, and other systems are affected. Your group will choose a commodity from a suggested list which will include items like coffee, chocolate, diamonds, athletic shoes, jeans, plastic toys, strawberries, roses, rice, etc. Each group should choose one of these products. Group projects will culminate in the "Global Alternatives Fair" and an in-class presentation of the PowerPoint your group has prepared for the Fair. Global alternatives projects will be conducted in seven phases:

- | | |
|---|-------------|
| 2. Members Researching Organizations | (10 points) |
| 3. Individual Research on Three Organizations | (20 points) |
| 4. Research Topic Selection | (10 points) |

| 9. Group PowerPoint | (20 points.) |
| 10. Global Alternatives Fair (Preparation and Attendance) | (30 points.) |
| 11. In-Class Presentation of PowerPoints | (10 points.) |

Assignments:

(Assignment 2, 10 Group points) List of Members Researching Organizations

For your group, create an annotated list of at least three organizations per person (non-profit organizations, non-governmental organizations, co-operatives, corporations, or business enterprises) related to your commodity. For example, if your group is examining coffee, your list might include Global Exchange, Thanksgiving Coffee, Starbucks, Jazzland Café, and Peet's Coffee. Include global as well as local resources. **Do not use corporate sites exclusively.** Each person should choose different organizations. Submit this list to the instructor. Each person who participated in this group exercise will get a maximum of ten points.

(Assignment 3, 20 Individual points) Individual Research on Three Organizations

Your individual annotations for each organization should include a summary of its activities, the range of products or services that they provide, their source of funding, their mission, etc. Group Members should do different organizations. Do not cut and paste any material. This assignment must be submitted through Turnitin.com. This assignment should be typed, spell-checked, and proof-read. List URLs for organization web sites. You will get 20 points maximum for this individually graded project.

Research Topic Selection

(Assignment 4, 10 group points) Your group should divide up the responsibility to assemble materials regarding the process that goes into the production of your commodity. This might include statistics, journal articles, visual materials, etc. You might include such information such as: (a) primary countries in which the commodity is produced; (b) labor conditions under which the commodity is produced; (c) environmental consequences of the production process; (d) effects of the production process on people in relevant regions; (e) health effects associated with the consumption of the product; (f) environmental effects associated with the consumption of the product. (Assign one person to each of these topics. In small groups, members may have to cover more than one topic. This assignment will be submitted by the group. Each person who participated may get a maximum of ten points.

Annotated List of Research Materials

(Assignment 5, 35 Individual points) You should individually make an annotated list of the materials you have found and include the sources from which your information was collected. List them under the topic letter you were assigned in the previous exercise. Each group member must submit material on at least one topic as indicated by the letters above. This list should include a short description of each resource. Each individual must list at least seven resources.

Do not cut and paste. This exercise will be submitted to Turnitin. You can earn a maximum of 35 points for your individual submission. (700 word minimum excluding the URL for the source)

Global Alternatives Project Proposal

(Assignment 6, 15 Individual points) Each individual is responsible for preparing a 500 word project proposal in preparation for the Global Alternatives Fair. Elements of the proposal should include (a) concise, specific statements of the proposed project and its goals; (b) description of methodology—describe the plan, strategy, and timeline for developing and completing the project; (c) use of community organizations or representatives; (d) proposed audience for the project; and (e) an action plan that might include one or more of the following: a petition (for example, urging Spartan Shops to sell only fair trade items made with sweatshop-free labor); alternative products on display (such as a hybrid Toyota Prius or Honda Civic); a letter-writing campaign (perhaps to a jewelry store chain urging them to adopt a policy rejecting "blood diamonds"). This is an individual assignment. **You will only receive the ten points if this assignment is turned in on the day it is due.**

(Assignment 7, 10 group points) Once each member of the group prepares a proposal, you will meet with your groups in class to arrive at a consensus regarding the project, which you will prepare for display at the Global Alternatives Fair. The instructor will ask you to fill out a group project proposal in preparation for the Global Alternatives Fair and submit it to Canvas. It should include the following questions:

1. In 3-5 sentences, describe the group's projects and goals.
2. For each member of the group, give the member's name and job description.
3. What is the timeline for completing this project?
4. What concrete steps for resolving your issue will your group suggest to Global Alternatives Fair visitors? Your suggestions should be feasible, culturally-sensitive, and take economic and political realities into account.

Everyone who participates in this group assignment will receive a maximum of ten points. You must be in class the day this assignment is discussed to get the ten points. One group member should write up the proposal and submit it to the instructor.

Commodity Chain Analysis Paper **(Assignment 8, 100 points for paper)**

You should individually prepare a commodity chain analysis paper that follows these criteria:

1. Try to trace out all of the factors which pertain to your product's production, distribution, and consumption—what resources are necessary for this product to reach you? What institutions or types of companies are involved? Does national or international law affect the production, transportation, or disposal of your product? What are the environmental consequences of using this product from its initial production to its disposal as waste?
2. Try to locate information about those who work in the companies producing, distributing, and selling this product—at every step of the commodity chain. Summarize in a paragraph or two some of the issues faced by the people associated with this product at each stage of the commodity chain. For example, you may investigate labor and health issues related to the primary producers, effects of the environment of transporting the product, health consequences for consumers, and the effect on the environment produced by this product's waste. You may not

be able to treat all aspects of the commodity chain in equal depth because of a lack of information on certain aspects of your commodity chain. Try to cover everything, but you may have to write about some aspects of the commodity chain in greater depth than others.

3. What conclusions can you reach about your connections to the global economy through this exercise?

Your paper should be at least 1500 words, typed and double-spaced. Your paper must include in-text citations and a reference list prepared in [Chicago Author-Date format](#). No more than 300 words in the paper may be directly quoted. The paper will automatically be submitted to Turnitin.com and you must come up with a score in the blue or green. I will not record your grade until you have a successful (blue or green area) Turnitin submission. Do not cut and paste any material prepared by another group member.

Global Alternatives Fair -- **Assignment 9, Group PowerPoint**, 20 points for active participation in preparation of PowerPoint; **Assignment 10 Global Alternative Fair Preparation and Attendance**, 30 points for active participation in preparing your group presentation before the Fair, for participation at the Fair/ **Assignment 11, In-class Presentation of Group PowerPoint**, 10 points).

Your group should execute a well-organized project on the day of the Global Alternative Fair, which should include at minimum a well-prepared table and representatives from each group on hand to provide information to each passersby. The presentation should include a PowerPoint. Someone in the group must take responsibility for bringing their laptop to the Global Alternatives Fair and displaying the PowerPoint. The instructor will assign each group member the same grade based on the following criteria: (a) accuracy, clarity, and presentation of the materials on display; (b) creativity of the presentation; (c) preparedness of the group's representatives; (d) viability of the action plan. Ideally the group should present global alternatives and/or an action plan related to the products under consideration. Your group will give a fifteen minute in class presentation of your Powerpoint in one of two class days after the fair (15 group points). Your PowerPoint should be edited down to not more than ten slides for this purpose (excluding the title page and reference list slides).

Assessment Assignment (Assignment 12, 10 points, 2% of total)

Students will be asked to fill out a paper which includes their reaction to a selected learning objective.

Midterm Exam (100 points, 20% of class total)

Students will be provided with a study guide in each Canvas Module to prepare for short essay exams..

Final Exam (100 points, 20% of class total)

Students should use the study guide in the Canvas Modules to prepare for a final essay exam.

Final Examination or Evaluation

There will be a written final examination in this class on **Thursday, May 18 between 2:45 P.M. and 5:00 P.M in our classroom.**

[University Policy S06-4](http://www.sjsu.edu/senate/docs/S06-4.pdf) (<http://www.sjsu.edu/senate/docs/S06-4.pdf>) states that “There shall be an appropriate final examination or evaluation at the scheduled time in every course, unless the course is on the official List of Courses in which a final is optional.”

Grading Information

Rubrics

Rubrics are associated with each assignment in Canvas. Please read them carefully before you submit your work to ensure that you receive maximum credit for your effort.

Incompletes

Incompletes will be granted only if the instructor has been notified and has approved. The incomplete contract must be agreed upon during the semester, not after it ends. **NO WORK WILL BE ACCEPTED AFTER THE LAST DAY OF REGULAR CLASS.**

Notification of grades

Your final grade will appear in Canvas at the time it is calculated. I do round up. (Instructor reserves the right to take points off for students who do not contribute to group work.)

Marking Criteria for Written Work

A+ 98- A 94-97 A- 90-93

An “A” demonstrates originality, addresses the tasks effectively, shows effective organization and logical argumentation, uses clear, appropriate and accurate examples and a high level of writing competence and knowledge. Completes the task and consistently does extra work.

B+ 88-89 B 84-87 B- 80-83

A “B” may show a good level of competence, but uneven development of tasks. It may be generally well organized, uses appropriate examples, displays facility, with a few gaps, in argumentation, and demonstrates a good level of writing and knowledge. Completes the task and does some extra work.

C+ 78-79 C 74-77 C- 70-73

A “C” may show a fair level of competence, but may be uneven. It will address the task adequately, but only with parts of the task. It is adequately organized and may occasionally use examples. Argumentation may be inconsistent and writing and knowledge competence may be unclear.

D+ 68-69 D 64-67 D- 60-63 F < 60

A “D” will demonstrate poor competence with inadequate organization, task and argumentation development and inappropriate examples. It will display difficulty in using adequate academic language and errors in knowledge will be in evidence. A failure will only occur if no effort is made to address the question or topic.

Participation and Miscellaneous Activities

Attendance and participation in class discussions is required. “Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for

lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.” <http://www.sjsu.edu/senate/AS1475.pdf>

“Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), and completion of Core General Education are prerequisite to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended. A minimum aggregate GPA of 2.0 in GE Areas R, S, & V shall be required of all students.”

Classroom Protocol

To Be Excused if you cannot make it to class to participate in an exercise, please leave an E-mail message THAT day or earlier, giving your name, class and reason for missing the activity. You will receive full credit (E) as long as the reason is significant and the privilege is not abused. Failure to participate might result in a significant loss of overall points.

You may not collaborate on work in this class. Group study for the midterm and final are permitted, but anything you write on the midterm or final must be in your own words. If the text of answers on the midterm or final are found to be identical to that of another student or cut and pasted from another source, you will receive an “F” on the exam.

Late Papers

No late papers will be accepted unless a genuine emergency arrives and the student notifies the professor in advance.

Cell phones

Please turn off all cell phones at the beginning of the class and keep them off. If you have a family emergency that may require you to keep the cell phone on, inform me at the beginning of class. Text messaging in class will not be tolerated.

Laptops – Students are permitted to use laptops in class for note-taking **only**. Students who abuse this policy by surfing the web or playing games during class will be asked not to use laptops in class. If you want to use a laptop, you must sit in the front row of class.

Consent for Recording of Class and Public Sharing of Instructor Material

University Policy S12-7, <http://www.sjsu.edu/senate/docs/S12-7.pdf>, requires students to obtain instructor’s permission to record the course:

- “Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor’s permission to make audio or video recordings in this class. Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material.”
- In classes where active participation of students or guests may be on the recording, permission of those students or guests should be obtained as well.
- “Course material developed by the instructor is the intellectual property of the instructor and cannot be shared publicly without his/her approval. You may not publicly share

or upload instructor generated material for this course such as exam questions, lecture notes, or homework solutions without instructor consent.”

Evacuation Procedures

Information from the campus police on evacuating a classroom can be found at:

http://www.sjsu.edu/police/docs/ept/ept_procedures_flyer.pdf

Note that in case of an earthquake, you should get under a sturdy desk or table, or move against interior walls and away from windows. Do not run out of the building. In case of fire, use the stairs, not an elevator.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs’ [Syllabus Information web page](#) at

<http://www.sjsu.edu/gup/syllabusinfo/>”
