**Course Description**

**Catalog:** Capstone workshop for behavioral science majors. Students assess methods and knowledge of anthropology, psychology and sociology, and synthesize them by reflecting upon case studies of individual, organizational, community, and global issues. Emphasis is on cooperative learning, reflection and synthesis of skills and knowledge.

**Prerequisite:** Prerequisite: Senior standing, declared major in Behavioral Science or Behavioral Science double major.

**Supplement:** This course is designed as a workshop for Behavioral Science majors. The objective is to review theories, methods, and new developments in the three disciplines that make up the Behavioral Science major: anthropology, psychology, and sociology. Another objective of the course is to assist you in professional development. To accomplish this, you will participate in a number of activities with the goal of sharpening your analytic skills and your ability to clearly articulate your behavioral science expertise to potential

employers and graduate program committees. You will also prepare materials relevant to your future careers, namely resumes and curricula vitae.

This class will reflect on critical issues within behavioral science. This semester, we will focus upon the anthropological, psychological, and social impacts of new digital technologies using an interdisciplinary approach. In order to reflect this approach, you will prepare written analyses and participate in a presentation related to the topic. Assignments and presentations are designed to integrate and synthesize knowledge from anthropology, psychology, and sociology, and to apply that perspective to real world issues and problems.

### **Course Learning Outcomes (CLO's)**

Students who successfully complete this course will be able to:

1. To assess the major methodologies and contributions of anthropology, psychology, and sociology to a better understanding of human behavior;
2. To apply the disciplinary perspectives of the behavioral sciences to case studies at individual, organizational, community, and global levels;
3. To access important sources of information relevant about the behavioral sciences and data relevant to them;
4. To synthesize the disciplines of anthropology, psychology, and sociology in support of professional career development; and
5. To prepare a portfolio that will support the transition to a professional education or career.

### **Required Texts/Readings**

#### **Textbooks**

This semester we will be using the following text:

## **Grading Information**

### *Rubrics*

Rubrics are specific to particular assignments and are linked to those assignments through Canvas. Please check the rubric for each assignment before you submit it to Canvas to ensure that you receive maximum points.

### *Incompletes*

Incompletes will be granted only if the instructor has been notified and has approved the Incomplete Contract. Incomplete contracts must be agreed upon before the end of the semester. **NO WORK WILL BE ACCEPTED AFTER THE LAST DAY OF CLASS.**

### *Extra Credit*

I do not give extra credit.

### *Notification of grades*

Your final grade will appear in Canvas at the time it is calculated. *“This course must be passed with a C or better as a CSU graduation requirement.”*

## **Determination of Grades**

*Marking Criteria for Written Work* (Instructor reserves the right to take class participation into consideration in calculating the final grade)

A plus 98- A 94-97 A minus 90-93

An “A” demonstrates originality, addresses the tasks effectively, shows effective organization and logical argumentation, uses clear, appropriate and accurate examples and a high level of writing competence and knowledge. Completes the task and consistently does extra work.

B plus 88-89 B 84-87 B minus 80-83

A “B” may show a good level of competence, but uneven development of tasks. It may be generally well organized, uses appropriate examples, displays facility, with a few gaps, in argumentation, and demonstrates a good level of writing and knowledge. Completes the task and does some extra work.

C plus 78-79 C 74-77 C minus 70-73

A “C” may show a fair level of competence, but may be uneven. It will address the task adequately, but only with parts of the task. It is adequately organized and may occasionally use examples. Argumentation may be inconsistent and writing and knowledge competence may be unclear.

D plus 68-69 D 64-67 D minus 60-63 F<60

A “D” will demonstrate poor competence with inadequate organization, task and argumentation development and inappropriate examples. It will display difficulty in using adequate academic language and errors in knowledge will be in evidence. A failure will only occur if no effort is made to address the question or topic.

### **Classroom Protocol**

To Be Excused if you cannot make it to class to participate in an exercise, please leave an E-mail message THAT day or earlier, giving your name, class and reason for missing the activity. You will receive full credit (E) as long as the reason is significant and the privilege is not abused. Failure to participate might result in a significant loss of overall points.

### Late Papers

No late papers will be accepted unless a genuine emergency arrives and the student notifies the professor in advance.

### Cell phones

**Please turn off all cell phones at the beginning of the class and keep them off. If you have a family emergency that may require you to keep the cell phone on, inform me at the beginning of class. Text messaging in class will not be tolerated.**

Laptops – Students are permitted to use laptops in class for note-taking **only**. Students who abuse this policy by surfing the web or playing games during class will be asked not to use laptops in class. If you want to use a laptop, you must sit in the front row of class.
