Course Description  
The objectives of this course are to expand and refine upon the foundation skills introduced and developed in beginning drawing as they pertain to representational drawing. The foundation of the course will focus on the human figure, utilizing both male and female models as our continual motif and point of exploration into topics such as: line, value, form, composition, perspective, structure, and light.

Using the human figure as our motif, we will explore and discuss the concepts and strategies of representational drawing and the materiality of our drawing tools, in order to deepen our understanding of how all aspects of the drawing process relate to and inform one another. We will research the structures and components of human anatomy and how the physical mechanics of the body inform our understanding of the observed human figure.

Through careful observation and the continual development of the fundamental skills and concepts of drawing students will realize the ability to see what it is that they are looking at with sophistication, and know how to best utilize their materials in the actualization of finished and complete works.
Course Goals and Student Learning Objectives
Upon successful completion of this course, students will be able to:

1: Implement and improve the objectives and goals introduced in Drawing 1.

2: Demonstrate a greater skill in articulating the illusion of 3D on a 2D surface by recognizing the importance and function of the picture plane, linear perspective, and overall importance of composition and design of pictorial space.

3: Employ skills and knowledge in using the beauty of line and mark making; in judging weight and application; and in describing form in volume, weight, and space.

4: Challenge their perception and develop new ways of seeing by: showing their awareness of value and light theory; rendering form through value gradation and erasure; and developing a tonal vocabulary.

5: Develop a singular vocabulary and self-examination in the medium of drawing by investigating the possibilities of narrative, figurative, or conceptual frameworks.

6: Discern the scope and beauty of drawing as a process in its many applications and will more strongly be able to communicate experience through the act of drawing and practice.

Classroom Protocol
Objectives for each class will be outlined at the start of each day. It is imperative that you arrive to class on time and with all materials necessary, ready to work.

The structure of the course is one that encourages students to participate and take responsibility for their own learning experience. Think of our time in class as a laboratory, where you are encouraged to explore the concepts and topics set forth.

Cell phone use during class time is restricted to educational and musical uses when appropriate. We will take a 15 minute break at the half way point of each class, please use this time appropriately so that our work time can be focused on work.

Throughout the course we will conduct critiques and discussions. These may focus on in class work, homework, or other topics. Participation from all students is required. Students are also required to maintain a portfolio of all work throughout the semester. Portfolios will be collected periodically for both evaluation and for discussion with students.

Due to the nature of the course it is imperative that you attend all classes. In class work and participation makes up a large portion of your course grade. In the event that you must miss a class it is always better to notify me ahead of time so that appropriate alternatives can be made. Due to the nature of the course and the requirements of
working with a live model it is extremely detrimental to your educational experience to miss class time.

(Note: According to University policy F69-24, “Students attend all meetings of their classes, not only because they are responsible for material discussed therein, but because active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading.”)

**Assignments and Grading Policy**

Grading will be based upon a combination of in class work, homework, participation, and midterms/finals as assigned.

In class work consists of all work made over the course of the semester. I expect all students to keep everything that they produce and maintain all work in their portfolios.

Homework assignments will be assigned weekly and will vary in scope and concept, but will coincide and aid the in class work. Homework will include drawings, readings, writing assignments, research and any midterms/finals and is to be maintained as a portion of each student’s portfolio. It is your responsibility to know what has been assigned and when homework is due.

Participation includes each student’s engagement with their work and the work of their peers both in and out of class. It includes class discussions and critiques as well as the day-to-day class environment.

| Class Work | 50% |
| Home Work  | 25% |
| Participation | 25% |

Portfolios will be collected throughout the semester for assessment and feedback.

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

Dropping and Adding

Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Refer to the current semester’s Catalog Policies section at http://info.sjsu.edu/static/catalog/policies.html. Add/drop deadlines can be found on the current academic year calendars document on the Academic Calendars webpage at http://www.sjsu.edu/provost/services/academic_calendars/. The Late Drop Policy is available at http://www.sjsu.edu/aars/policies/latedrops/policy/. Students should be aware of the current deadlines and penalties for dropping classes.

Consent for Recording of Class and Public Sharing of Instructor Material

University Policy S12-7, http://www.sjsu.edu/senate/docs/S12-7.pdf, requires students to obtain instructor’s permission to record the course.

• “Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor’s permission to make audio or video recordings in this class. Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material.”

  o It is suggested that the greensheet include the instructor’s process for granting permission, whether in writing or orally and whether for the whole semester or on a class by class basis.

  o In classes where active participation of students or guests may be on the recording, permission of those students or guests should be obtained as well.

• “Course material developed by the instructor is the intellectual property of the instructor and cannot be shared publicly without his/her approval. You may not publicly share or upload instructor generated material for this course such
as exam questions, lecture notes, or homework solutions without instructor consent.”

Academic integrity

Your commitment as a student to learning is evidenced by your enrollment at San Jose State University. Instances of academic dishonesty will not be tolerated. Cheating on exams or plagiarism (presenting the work of another as your own, or the use of another person’s ideas without giving proper credit) will result in a failing grade and sanctions by the University. For this class, all assignments are to be completed by the individual student unless otherwise specified. If you would like to include your assignment or any material you have submitted, or plan to submit for another class, please note that SJSU’s Academic Integrity Policy S07-2 requires approval of instructors.
