Server Information – Assignments, Readings, Handouts

Assignments, readings, handouts and other information will be in your required reader. Due to our efforts to make the Department of Art and Art History “paperless,” additional hard copies will be handed out at a minimum. I will be using CANVAS to upload all additional materials and to send out pertinent email notifications. To access CANVAS, go to: https://sjsu.instructure.com

I would suggest you make copies and bring them to class to have the materials ready when needed.

Course Description

Catalog Description: Concepts and principles of lighting using both daylight and incandescent light sources and the use of standard studio lighting equipment.

Introduction to Studio Lighting is a beginning studio course. The emphasis of this course will be to learn to see and utilize light in an effective manner that can be applied to all applications of photography. Professional equipment will include - digital cameras, digital capture software, hand-held meters, and a variety of studio hot (continuous) lights and their accessories. This class will expose students to professional studio practices, advanced color theory, color management, and engage them in creative problem solving while learning effective aesthetic and technical concerns of visual perception and communication.
Course Learning Outcomes (CLO)

The course will be taught through invigorating (!) lectures, lively demonstrations, studio-shooting assignments, and informative critiques in which all are expected to participate. You will learn to effectively see how light and shadow, shape and inform. As you proceed into this semester, take the time to thoroughly observe light in intimate spaces and public environments, at all times of the day and night and under all weather conditions. Notice how the mood of the person, place, or object change as the light changes. In the studio you will learn to recreate ‘natural’ light and manipulate light and shadow to express your ideas.

Upon successful completion of this course, students will be able to:

1. **CLO1** Effectively see how light and shadow, shape and inform.
2. **CLO2** To recreate ‘natural’ light by successfully learning the qualities of studio lighting equipment and to manipulate light and shadow to express emotion, content, and ideas.
3. **CLO3** Use a variety of software including remote capture.
4. **CLO4** Establish an effective workflow and master color management.
5. **CLO5** Use Lightroom to capture, edit, organize, and enhance images.
6. **CLO6** Use retouching techniques specific to each assignment and to go beyond traditional lighting by using layers of multiple images to create one image.
7. **CLO7** Use Photoshop more effectively to create a final professional image in post-production.
8. **CLO8** Effectively describe, discuss, and write about what constitutes a strong commercial image.
9. **CLO9** Create layouts for publications.
10. **CLO10** Work as a team player as most assignments are accomplished with the assistance of a partner.
11. **CLO11** Recognize leaders in the field of commercial photography and there ‘style’.

Classroom Protocol

This course is taught as a professional practices course and professional attitudes toward the work ethic and courtesy toward all is expected. All work will be due at the BEGINNING of class on critique days. Do not be late for class, three late days and your grade will be reduced by one letter grade. Do not miss a deadline or fail to professionally present your assignments or your grade will be reduced by one letter grade. Each day your assignment is late it will drop a letter grade.

Laptop use will be abundant for taking notes and for working in post process on your photographs. It will NOT BE USED for FB, email, or other non-relevant, to this course, use. This includes cell phones, as well. I am asking and expecting professional courtesy in this regard.

And BTW, we instructors know when you are on these sites, we see you, we just do not always address it in class because it will break the tempo of the classroom lecture.

Professional courtesy is expected!

Course Requirements and Assignments

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in University Policy S12-3 at http://www.sjsu.edu senate/docs/S12-3.pdf.

NOTE that University policy F69-24 at http://www.sjsu.edu senate/docs/F69-24.pdf states that “Students should attend all meetings of their classes, not only because they are responsible for material discussed therein, but because active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading.”
Grading Policy
The work created in class will be evaluated based on the following criteria.

A: Outstanding: thoughtful and intelligent ideas presented in a clear, organized, and engaging manner; among the very best.

B: Above Average - Good: the ideas are interesting and successfully presented; shows potential, but not necessarily distinctive; roughly equal in quality to the majority of work completed by other students.

C: Average - mediocre: achieves minimum requirements of the assignment, but not particularly clear, nor ambitious. Quality of work is below that of most other projects submitted. May be above average idea presented in incomplete state.

D: Unsatisfactory: does not satisfy the minimum requirements of the assignment; generally unsatisfactory in terms of quality and clarity.

F: You didn't submit an assignment.

*With communication before a deadline, late work may be accepted, otherwise for every day that the work is late one letter grade will be deducted.

Grading: Criteria per studio assignments
Lighting 40 points
Design/ Visual impact 30 points
Concept 30 points

Poor presentation on final portfolio = one letter grade less
Missed Critique = no grade for assignment
Missed Deadline for Critique = one letter grade less, per day late
More than one concept explored = plus 1/2 letter grade

Final Grades
Studio Assignments #1-5  9 points each = 45 points
Studio Assignments #6-8 10 points each = 30 points

Gaffers Kit, Writings, and Reader 5 points
Final Presentation of Portfolio 20 points

100 Points

Asking questions, taking risks, seeking out answers, sharing your thoughts, and taking your work seriously will lead to a higher understanding of the medium and will result in amazing work. Your uniqueness is an asset in this class.
