COURSE DESCRIPTION

This will be an introduction to both traditional and contemporary approaches to watercolor media. We will attempt to master many skills, beginning with terminology and equipment, color index names, learning the different characteristics of transparent, opaque and staining pigments, and how to organize a palette. Unlike oils or acrylic paints, watercolors are never fully controllable or predictable, and the artist must allow for unexpected movement, blending and mixing effects.

Basic techniques and materials will be presented to achieve controlled representations of what one sees. Equal time will be devoted to taking an experimental stance towards the media. Students will also be encouraged to develop a "notational" painting skill (painterly realism) apropos to Asian traditions, and one that we see in the work of the artists John Singer Sargent, J.M.W. Turner, John Constable, Winslow Homer, Paul Cezanne, Emil Nolde, John Marin, Edward Hopper, Giorgio Morandi, the 60's Photorealists, to name a few.

STUDENT LEARNING OUTCOMES

By the end of the semester, students will be able to:

- LO1 Develop basic Watercolor skills by completing a series of technical classroom still-life exercises and homework assignments.
- LO2 Learn the basics of brushwork, and Western techniques: layering, flat and gradated washes, wet on wet technique
- LO3 Develop skills in traditional Eastern approach (notational style).
- LO4 Learn to control and understand color mixing with both transparent and opaque applications.
- LO5 Research and examine the work of selected artists known for their practiced and accomplished use of watercolor.
- LO6 Stretch watercolor paper using either staples or traditional paper tapes.
- LO7 Develop the ability to evaluate critically one's own artwork and the work of others.
- LO8 Further develop skills in composition, value, color and space.
- LO9 Gain a working knowledge of historical and contemporary watercolor painting.
