Course Description

Figure and portrait painting from the model
Repeatable for credit
3 units

ART 165 is a studio practice class in selected media. Specific content, materials, and subject matter may vary with instructor. This course is intended for students who have already taken Beginning and Intermediate Painting (Art 61 & 164) and are familiar with oil painting techniques. Prior life drawing experience (Art 55) is essential. The subjects for compositions in this course will be taken primarily from the human model. Students will work mostly from observation, although some projects will be based on the photograph. There will be lectures to illustrate various historical approaches associated with this tradition. Periodic group critiques will be held during the semester. These will expose the student to the language of critical observation used to analyze and discuss figure painting.

Course Goals and Student Learning Objectives

The primary objective of this course is to create an environment that allows each student to discover his or her own vision within the context of figure painting. Most projects will involve longer poses allowing for greater concentration and thorough development of the subject. Emphasis will be placed on a sustained effort where the initial image is to be worked on and developed over several sessions. This process will be guided by lectures introducing work by past masters of figure painting. These examples will be used to focus attention on the different possibilities this practice affords. Engagement with the potential expressive qualities of oil painting will be encouraged over a linear development of the subject. The broader objective of the class is to introduce an awareness of historical figure painting approaches with an emphasis on 20th century masters.

Upon successful completion of this course, students will be able to:

- Learn critical thinking and creative approaches to the figure
- Paint the figure with greater confidence.
- Identify various traditional painting applications when analyzing a painting. Techniques and terms such as glazing, scumbling, wet into wet, alla prima, fat over lean, dry brush, etc.
- Walk into a museum or gallery and have the ability to verbally describe the elemental technical aspects of a figure painting.

Assignments and Grading Policy

Grades will be assigned on the basis of the painting projects and related homework required of the course. Homework will consist mostly of assembling photographic and other materials related to class projects.

All project grades will be assessed on a scale of 0-100

Grading Percentage Breakdown: A 94% and above, A- 93% - 90%, B+ 89% - 87%, B 86% - 84%, B- 83% - 80%, C+ 79% - 77%, C 76% - 74%, C- 73% - 70%, D+ 69% - 67%, D 66% - 64%, D- 63% - 60%, F below 60%.
