San José State University  
Department of Art and Art History  
Art 132, Section 1: Topics in Intermediate Ceramics  
FALL Semester 2019

Course and Contact Information

Instructor: Adam Shiverdecker  
Office Location: Industrial Studies 124C  
Telephone: (408) 924-4316  
Email: adam.shiverdecker@sjsu.edu  
Office Hours: MW, 11:00AM – 12:00PM  
Class Days/Time: MW, 3:00PM – 5:50PM  
Classroom: IS 124  
Prerequisites: Art 46 or Instructor Consent  
Units: 3

Additional Contact Information

* E-mail is generally the best method of contact during non-office hours.  
* Please allow 48-hours for an e-mail response.  
* Emergency: 911  
* Campus Escort: 42222  
* Individuals with disabilities may contact the Disability Resource Center (DRC), Administrative Building 110, 408/924-6000, for a variety of formats such as Braille, large print, sign interpreters, assistive listening devices, audio tape and accommodations for physical accessibility.

Course Format: Activity

Course Description

This course focuses on continuing, advancing, and furthering your wheel-throwing skills in regards to functional/utilitarian ceramic wares while also introducing wheel-thrown sculpture. Having gained a foundation in both of these arenas in the beginning ceramics course, students will be challenged to develop strong and provocative solutions that move beyond the object and into the space of the surrounding environment. Students will be introduced to various methods of realizing three-dimensional wheel-derived forms, including additive and reductive form, construction and deconstruction, positive and negative space. We will also explore printing ceramics with the 3D Potterbot.

Course Goals
Clay is the basic material we will use in this class although surface treatments, appendages, installation components, etc. will vary between traditional and unconventional methods. Students are expected to gain an
understanding of the making of clay and firing of kilns, and acquire some general knowledge about the maintenance of a ceramic studio.

**Course Learning Outcomes (CLO)**

**Course Skill Learning Outcomes**

Upon successful completion of this course, students will be able to:

1. the language of ceramic vessels and forms
2. the nature and experience of ceramic vessels and forms
3. objects in relation to the spaces they occupy
4. vessels in relation to the body and user
5. the relationship between technology and conceptualization in clay
6. the possibilities and limitations of materials in relation to form and concept
7. additive and subtractive processes for generating form and space
8. equipment, safety, and certain fabrication methods
9. Craft vs. craft, and its position in fine arts
10. highly refined craftsmanship

**Course Content Learning Outcomes**

Upon successful completion of this course, students will have mastered:

1. a rapport with certain materials, tools, and processes fundamental to the understanding of ceramic form and space
2. an understanding of the role of materiality and tactility in visual experience
3. a vocabulary based in the fundamental principles of the potter’s wheel
4. an understanding of criticism as an essential component of artistic development
5. a strong sense of craft and the ability to execute well-crafted work
6. facility thinking and working with the elements and principles of art/design

**Required Texts/Readings**

**Textbook**

There is no required textbook for this course; however, several texts will be read and discussed.

**Other Readings**

*Mastering the Potter’s Wheel* by Ben Carter
*The Ceramics Process* by Anton Reijnders
*The Ceramic Glaze Handbook* by Mark Burleson
*Postmodern Ceramics* by Mark Del Vecchio
*How to Read Greek Vases* by Joan Mertens
*Lucie Rie & Hans Coper: Potters in Parallel* edited by Margot Coatts
*The Arts of Fire: Islamic Influences on Glass and Ceramics of the Italian Renaissance* edited by Catherine Hess
*Ceramics: Contemporary Artists Working in Clay* by Kate Singleton
*Italian Art Ceramics: 1900-1950* by Valerio Terraroli
*Thinking Through Craft* by Glenn Adamson
Syllabus: Topics in Intermediate Ceramics

The Arts and Crafts Movement by Rosalind Blakesley
CFileOnline.org
Ceramics Monthly magazine
Ceramics: Art & Perception magazine
“The Handle” essay by Georg Simmel (pdf distributed to class)

Required Materials
There is no textbook required for this course, but you are required to purchase your own tools and clay. You’ll need an assortment of tools (water bucket, needle tool, trimming tools, ribs, fettling kife, small sponge, cutting wire, etc.). Normally sold as a kit, these items are available through the SJSU Ceramics Guild, the Student Union, or Clay Planet (Clay Planet is a local supplier located at 1774 Russell Ave., Santa Clara. Hours are M-F 9-5 and Sat 10-3, 408-295-3352, clay-planet.com.) Additional carving tools will be helpful and can be purchased at most craft stores or Clay Planet. You will also need to provide a lock for your locker, a water bucket (2.5-quart pale found in the painting section of your local hardware store/Home Depot), a metal fork (this will get gnarly, so don’t bring in the good silver), lightweight trash bags (tall kitchen bags work well), small plastic containers (quart size or a little larger), cheap paint brushes of various sizes. You have the options of purchasing clay as needed through the SJSU Ceramics Guild ($10 per bag) or mixing up free recycled clay. Consult me before bringing in other types of clay as it may or may not be suitable for the project and/or the studio and/or the firing technique for the project. A sketchbook is a must (nothing smaller than 5”x7” and you will need approximately 20-30 pages for this class).

Estimated Cost: $70

Hazardous Materials (HAZMAT)
Many materials for use in this course require special handling. A HAZMAT tutorial and training will be conducted by instructor and staff. More information, including recognition and procedure for following a healthy and clean lab (studio) can be found at the following link:
http://www.sjsu.edu/fdo/docs/hazmatandlabsafetyguidance.pdf

Library Liaison
Gareth Scott, email: gareth.scott@sjsu.edu
King Library 4th Floor
Phone: (408) 808-2094
Art and Art History Resources: https://libguides.sjsu.edu/Art

Department Advising
For information about majors and minors in Art & Art History, for a change of major/minor forms and a list of advisors: http://www.sjsu.edu/art/ or the Art & Art History department office in ART 116, 408-924-4320, art@sjsu.edu

Course Requirements and Assignments
Students are expected to use the potter’s wheel to derive the following coursework:
Cylinders (10 pts.) – 5 - 6” cylinder (1# each)
Cups (10 pts.) – 6 total
Mugs (10 pts.) – 6 total
Bowls (10 pts.) – 5 total
Tall Forms (10 pts.) – 3 total
Lidded Vessels (10 pts.) – 3 total
Teapot OR Negative Space (10 pts.)
3D Printed object (10 pts.)
Essay Review (5 pts.)
Participation (10 pts.)
Lab safety test (5 pts.)

“Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.”

Final Examination or Evaluation
Tuesday, Dec. 17, 12:15PM – 2:30PM

Grading Information

Assignment Format and Submission: Grading in this course will be determined by a point system. There are a total of 100 possible points that can be earned. At the end of the semester these points will be totaled, and your final grade will then be impacted by participation as outlined above. You will receive a grade upon completion of each project. At midterm I will let you know where you stand in terms of class participation.

Determination of Grades
Grades for each project will be determined by the following criteria:
- Willingness to explore, experiment and take risks
- Creative thought process and problem solving
- Understanding of materials and process and their relationship to your finished work
- Your ability to evaluate yourself and others
- Fulfillment and understanding of the assignment’s criteria and objectives
- Deadline- please note missed deadlines will result in a loss of 2 points per day. You will have to work outside of class time to meet deadlines, be prepared.
- Projects may be reworked for a higher grade at my sole discretion and will be determined on a case by case basis. Please be aware this is a privilege, not a right; this option may not be available to you.

Numeric grade equivalents:

98-100 = A+
94-97  = A
90-93  = A-
87-89  = B+
83-86  = B
80-82  = B-
77-79  = C+
73-76  = C
70-72  = C-
67-69  = D+
63-66  = D
60-62  = D-
59 and below = F
A= Excellent work
B= Above average work
C= Average work
D= Below average work
F= Unsatisfactory work

Please note: Except in cases of documented emergencies, incomplete grades are not given in this course.

“All students have the right, within a reasonable time, to know their academic scores, to review their grade-dependent work, and to be provided with explanations for the determination of their course grades.” See University Policy F13-1 at http://www.sjsu.edu/senate/docs/F13-1.pdf for more details.

Additional Note:
This syllabus is subject to change, in the event of unforeseen circumstances, or in the case that changes will significantly enhance the quality of the course. Students will collectively have the opportunity to shape the ways in which the course unfolds.

Classroom Protocol

Critiques
Critical inquiry is vital in the studio arts process, which is why we hold group critiques for each finished project. Occasionally we will hold impromptu mid-project critiques. The purpose of the critique is to engage in constructive evaluation and is not synonymous with “judgment day.” That is to say that we are all responsible for removing ourselves from our work and look at it critically from the outside. We will address formal and craftsmanship concerns while investigating concept, content, context, meaning and interpretation. Everyone’s opinion is valuable in this process so it is essential for your participation in group critiques.

It is very important to me that everyone can come to class and participate to their fullest level of comfort and ability. Making ceramic wares and ceramic art requires a degree of questioning what you know, taking risks and embracing challenges. I will do my utmost to promote an environment where mutual respect, constructive criticism, and creative exploration are valued, and I expect the same from everyone who comes in the door. Since active critique of work is a vital part of this class, disrespect towards peers (or yourself) is not acceptable. I ask that you have the courage to speak your ideas and respect the ideas of others.

Attendance/Lateness
You are expected to come to class awake, fed, and ready to make, think and talk. Your timely and engaged presence is expected at every class meeting. Several topics will receive only one day of attention and by missing class you run the risk of coming out of the class with an incomplete set of skills.

Arriving late or leaving early disrupts the flow of class and undermines your own success. Please make every effort to arrive on time and prepared for class. Please let me know before class if you will need to leave early.

If you arrive after I have already taken roll, please let me know of your presence so you will be marked as late and not absent.

Room Care
Please be courteous. If we establish a common courtesy in the studio, everything else will take care of itself. At the end of each day, the studio should be in as good, if not better condition than when we started. Everyone
has responsibility for cleaning up their workspace and putting away or removing their work at the end of each
day. At the end of the semester, all work must be removed from the room. Work that remains into the next
semester will be thrown away. This is a messy business; failure to clean your workspace is not acceptable and
will negatively affect your grade. **CLEAN UP** begins 20 minutes before the end of class. All areas you have
used must be cleaned before you leave the studio. Per a healthy studio, cleaning up clay is best done with a
wet sponge (it helps keep dust from dispersing throughout the studio). **A clean studio is a happy studio!**

No Cell Zone
Cell phones are wonderful devices that must be put away when you walk in the door. You can rejoin them later
over break or at the end of class.

University Policies
Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic
integrity, accommodations, etc. will be available on the Office of Graduate and Undergraduate Programs’
Syllabus Information web page at http://www.sjsu.edu/gup/syllabusinfo/.”
