Course Description

This course provides a thematic and, within each theme, a chronological introduction to major types of design around the globe from prehistory to the present. It will consider the cultural role of design in finding creative solutions to basic human needs, such as shelter, clothing, useful objects, visual communications, transportation and built environments in a variety of social contexts. Works by designers from many diverse cultures will be studied within their historical and cultural context. As cost of materials and amount of labor varies in producing different objects, even objects of the same type, issues of economic and social class are also critical in understanding designs. This section of "Design in Society" also addresses issues of sustainability in lectures and one assignment.

Course Goals

This is a lecture class however discussion is often an important component of the classroom experience. This class requires a minimum of 1500 written words and the culminating project includes a presentation.

GE Learning Outcomes (GELO)

Design in Society will enable students to:

- Learn the design characteristics of the examples studied. This will include an understanding of both of the aesthetics and processes particular to the cultures and of the historical periods from which they come;
- Learn to respond to works of design both analytically and affectively in writing and in class discussion, and to take these skills into the world outside the classroom;
- Learn to recognize how significant works illuminate enduring human concerns by studying examples of designs that meet basic human needs in creative ways;
- Learn to do research in the area of design;
- Recognize issues related to and accomplishments of diverse cultures as reflected in examples of design;
- Develop an understanding of how design is affected by cultural and historical context; and
- Write clearly, effectively, and critically using terminology appropriate to the history of design. Note: As in any university course, ARTH 72 does not give you these competencies, but creates an opportunity for you to work toward achieving them.

Upon successful completion of this course, students will be able to:

GELO1 - translate visual perceptions into verbal and written communication;

GELO2 - write clearly, effectively, and critically using terminology appropriate to the field of design. GELO3 - recognize basic issues inherent to designed objects in general;

GELO4 - interpret designed objects from multiple points of view;

GELO5 - research, analyze and apply theoretical concepts in the field of design;

Course Learning Outcomes (CLO)

Upon successful completion of this course, students will be able to:

CLO1 – will have learned the design characteristics of the examples studied. This will include an understanding both of the aesthetics of the objects and processes particular to the social contexts from which they come;

CLO2 - knowledge of the aesthetic qualities and functional processes that characterize works of the human intellect and imagination;

CLO2 - knowledge of the issues related to and accomplishments of diverse cultures as reflected in examples of design;

CLO4 - an understanding of how design is affected by its cultural and historical contexts;

CLO5 - an understanding of basic themes and problems in design, particularly as these have emerged industrialized cultures of the past 250 years;

CLO6 - experienced significant works of design in the classroom and/or in performances/on site.

Required Texts/Readings

Textbook

David Raizman. *History of Modern Design*, 2nd ed. (2011) This textbook is available at the SJSU Bookstore. ISBN 978-0205728503

Other Readings

ARTH 72 non-textbook readings are available through Canvas Course Page.

There are optional books that are recommended guides that will help you with writing. Strunk and White, *The Elements of Style*, Kate Turabian, *A Manual for Writers* and a good dictionary like Webster's New World Dictionary.

Other **technology requirements** / equipment / material

We will use Canvas for the first two assignment submissions and for a portion of the group assignment components in addition to non-textbook readings. It is essential that you use a computer or mobile device to complete some class activities. Please watch announcements for when computers are needed for class work.

Library Liaison

Aliza Elkin

email: aliza.elkin@sjsu.edu

phone: (408) 808-2043

Dr. Martin Luther King, Jr. Library
4th Floor Administration Offices

Peggy Cabrera, Associate Librarian, Liaison for Environmental Studies and Humanities, is our library liaison for the Sustainability Module (peggy.cabrera@sjsu.edu). Both librarians are excellent resources for research information for your individual and group papers

Course Requirements and Evaluation (Assignments)

- There will be in-class activity points (to be earned at random selection), two quizzes, two papers, one scheduled midterm and a final exam.
- The writing requirement for a GE course is a minimum of 1500 words (a total of six pages, doubled-spaced). For the *first written assignment* each student will submit an individual paper with required citation information (appropriate academic resources), images and bibliography which will be given ample feedback by the instructor. The aim of both papers is to advance the student's writing skills. This assignment fulfills the first part of the GE 1500-word requirement.
- The in-class activity points ensure your class participation. It will be based on activities like discussion questions/responses regarding fundamental readings, responses to film and media assigned during the semester. We don't know exactly when they are coming as they are "unplanned," but they will be worth a total of 10% of your final grade and can only be earned when you come to class. There will be five of these during the semester, I will drop the lowest score.
- The first written assignment on local design requires critical and comparative responses to local design works, thus the assignment will require scholarly research. King Library reference libraries are highly reliable resources for research. See King Library Electronic "Articles and Databases."
- The second written assignment is a group paper and presentation. Each group will submit a paper with individual authors cited, and present their research on the topic. Students will receive individual grades on this carefully documented project. This fulfills the second part of the GE 1500-word requirement. * Both written-assignments fulfill all three GE Learning Outcomes, GELO3 - recognize basic issues inherent to designed objects in general; GELO4 - interpret designed objects from multiple points of view; and GELO5 - research, analyze and apply theoretical concepts in the field of design.
- The local design-and group sustainability papers are to be written with one-inch margins, double-spaced text, with page numbers and in 12-point font. Please put your name, title and assignment with a cover page. Please cite all sources in Chicago Manual Style, and list the Bibliography on a separate page. Illustrations should be on separate pages with captions. *Before handing in your paper, it should be stapled in the upper left-hand corner with a title page. Assignments must be handed in in hard copy.*

“Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally 3 hours per unit per week with 1 of the

hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.”

Final Examination or Evaluation

Final Examination or Exam Evaluation

The material covered on quizzes, midterm and the final exam will come from class lectures, discussions and readings from textbook and online articles. **In other words, it is extremely important to attend lecture because information from lecture only (not found in the readings) will be considered “fair game” for test material.** *These evaluative assignments fulfill both GELO1 - translate visual perceptions into verbal and written communication; and GELO2 - write clearly, effectively, and critically using terminology appropriate to the field of design.

The final examination is a blend of slide identifications, content-driven multiple choice questions, unknown identification and an essay question.

There are no make-up quizzes/exams without a previous agreement with the instructor, or a documented excuse such as a medical note. Otherwise missed exams and late assignments will be given a grade of “0”.

More details can be found in

[University Policy S06-4](http://www.sjsu.edu/senate/docs/S06-4.pdf) (<http://www.sjsu.edu/senate/docs/S06-4.pdf>) which states that

“There shall be an appropriate final examination or evaluation at the scheduled time in every course, unless the course is on the official List of Courses in which a final is optional.”

Grading Information:

Your letter grade in the course is determined by the weighted components: two short response essays (5%); In-class participation activities (5%); two quizzes (10%); midterm (20%); local design paper (20%); group sustainability paper (20%); final exam (20%). All above provide an assessment of your course performance in the form of quizzes, short assignments, midterm exam, final exam and two papers totaling 1500 written words.

There will be one opportunity for Extra Credit to be earned by attending and writing a review of a paper presented at the annual Art History Symposium scheduled for Saturday, April 21, 2018. Watch Canvas for this submission prompt.

Example of Rubric, (also posted on Canvas) assesses the following areas by points: Content-1 20 points which answers, what does the design look like? visual appearance, form and function? Is there a high level of specificity in description, defines main issues? Content-2 Application of theory is worth 15 points. Research (R) worth 20 points. Style (G) (grammar and punctuation) worth 25 points. Organization (O) is this paper organized in a logical way with introduction, support and conclusion, worth 20 points.

Specific grading criteria for all assignments are included in each prompt found on the Canvas Course Page. Letter grades will be determined by the following grade scale. There are +/- grades as shown. *More guidelines on grading information and class attendance can be found from the following two university policies:*

- [University Syllabus Policy S16-9](http://www.sjsu.edu/senate/docs/S16-9.pdf) (<http://www.sjsu.edu/senate/docs/S16-9.pdf>)
- [University Attendance and Participation policy F15-12](http://www.sjsu.edu/senate/docs/F15-12.pdf) (<http://www.sjsu.edu/senate/docs/F15-12.pdf>)

Determination of Grades

Your letter grade in the course is determined by the weighted components: In-class participation activities (10%); two quizzes (10%); midterm (20%); local design paper (20%); group sustainability paper (20%); final exam (20%). All above provide an assessment of your course performance in the form of quizzes, short assignments, midterm exam, final exam and two papers totaling 1500 written words.

Specific grading criteria for all assignments are included in each prompt found on the Canvas Course Page. Letter grades will be determined by the following grade scale. There are +/- grades as shown

Each written assignment has a grading rubric for assessment and will be posted on Canvas. The rubric explains the differing areas of content and style assessed in your paper, and shows the point breakdown for earning your score.

An automatic deduction of **10 points** will be assessed for late papers up until one week after the deadline. (Papers received one day after the deadline are docked 10 points automatically up until the one-week deadline. Please note this is discouraged and **not** the ideal scenario. Consult with instructor before you make this decision on your own.) Papers not received after one week will receive a grade of "0". If you fail to cite paraphrased or quoted information, the paper will be returned to you for revision.

Exams must be rescheduled **BEFORE** the test date or the instructor notified with documentation that supports medical, or justifiable unforeseen circumstances. No exceptions to this policy. If you miss an assignment, it might still be possible to pass the class, although it is your responsibility to calculate your grade based the information posted on Canvas relative to your performance. It will require you to estimate what you must earn in terms of assignments not yet completed.

Grading Information for GE:

This course must be passed with a **C** or better as an **SJSU** graduation requirement.

A+ = 100-97%	A = 96-93%	A- = 92-90%
B+ = 89-87%	B = 86-83%	B- = 82-80%
C+ = 79-77%	C = 76-73%	C- = 72-70%
D+ = 69-67%	D = 66-63%	D- = 62-60%
F = 59-0%		

Classroom Protocol

Please arrive on time to take your seat before class starts. If you are late, please enter quietly so as to not disturb other students or myself. Once you arrive you **MUST** stay for the duration out of consideration for your colleagues and instructor. **It is highly disruptive to get up and walk out of the classroom for all concerned. Please make sure phone calls, water breaks, and the like happen BEFORE or AFTER class. It is extremely disruptive for all classroom participants.**

Attendance is vital to the successful completion of this course: a great deal of the material covered in class is not in the texts. If you are ill, please check the schedule on Canvas and talk with other students to make sure you get the material you have missed. I will not give any makeups for activities or exams; nor are any assignments accepted late. Please plan accordingly. Discussion will also be a component of this class and will focus on projected images and media, not all of these resources will be accessible in the texts. Also part of your job as a student is to get to know your instructor! Please come to office hours or email me.

*Laptops are NOT allowed for note taking in the classroom unless you have a compelling reason. Please respect your classmates by turning off your cell phone, tablets and laptops before you come to class. If you feel you must take notes on the laptop, come see me to sign a special agreement. (I will require that your class notes be sent to me at random request after class lecture, no exceptions.) **You are also required to sit at the front of the classroom.**

Otherwise, If you are found engaged in non-school business on your device, you will be asked to leave the classroom.

Points can also be deducted for improper classroom behavior. For each time I find you texting during class, and you do not comply, you will have an automatic 5 points taken off of your final grade.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs' [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/) at <http://www.sjsu.edu/gup/syllabusinfo/>

If applicable, include links to department and college-level policies, requirements and services.

Consent for Recording of Class and Public Sharing of Instructor Material

[University Policy S12-7](http://www.sjsu.edu/senate/docs/S12-7.pdf), <http://www.sjsu.edu/senate/docs/S12-7.pdf>, requires students to obtain instructor's permission to record the course and the following items to be included in the syllabus:

"Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor's permission to make audio or video recordings in this class.

Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material."

"Course material developed by the instructor is the intellectual property of the instructor and cannot be shared publicly without his/her approval. You may not publicly share or upload instructor generated material for this course such as exam questions, lecture notes, or homework solutions without instructor consent."
