Course Description
Twentieth century architects and planners produced an astonishing variety of schemes for physically ordering modern cities. Driven by technological and social changes as well as by aesthetic ideologies, these schemes often drew on opposing theories of human perception, collective social life, and political ideology. By the end of the 19th century, the modern metropolis had become a primary object for aesthetic reflection, both among the artistic avant-gardes, who sought to represent its subjective effects, and among architects and urban planners, who sought to reform its physical shape and thus represent its utopian alternative. Thus, even as the metropolis has provoked new modes of visually perceiving the architectural environment, it also inspired new paradigms of architectural intervention. Le Corbusier’s city of towers of the 1920s and the Greenbelt cities of the 1930s each constituted a distinct response to the metropolitan form. In the period after World War II, the modernist obsession with decongesting the urban core frequently shifted to an alarm over the destruction and desolation of the core. In this context, early twentieth century debates and images took on new and often conflicting meanings.

This course provides a theoretical introduction to 20th century urban design. As an art form which is not only vast in scale but also vastly expensive to produce, urban design has most often been directed by an elite minority while having visual and physical impacts on the vast majority. It is an art form, not only of visual impressions but also of bodily disciplines, literally enclosing and organizing the spaces of those who inhabit it. This course will explore the relationships between historical developments in urban design theory and wider changes in the social, technological and aesthetic realms. In this sense, the study of urban design will serve as a window into broader aspects of cultural history. As the course progresses, students will be expected to develop visual literacy in the forms and trends of modern urban design. Emphasis will be placed on reading primary texts of planners and architects. The course will investigate, not only the ways in which 20th century urban designers have attempted to shape cities, but also how cities were expected to shape 20th century urban society.

Course Goals and Student Learning Outcomes
This course is introductory, but students should have some familiarity with planning or architectural history. The course seeks to provide students with an introduction to three basic foundations for studying modern urban design: 1) a set of conceptual and visual tools for analyzing cities and urbanistic images in general; 2) a critical overview of issues and problems faced by architects and planners in the last three centuries; and 3) a familiarity with the major theorists of 20th century urban design. In addition, students will be expected to begin to develop research skills through an original investigation into a particular aspect of modern urban design.
Course Skill Learning Outcomes

Upon successful completion of this course, students will be able to:

SLO1 - translate visual perceptions into verbal and written communication;

SLO2 - write clearly, effectively, and critically using terminology appropriate to the history of urban design.

SLO3 - think and communicate persuasively about urban design issues;

SLO4 - apply abstract concepts to concrete examples of city plans, urban spaces, and townscapes;

Course Content Learning Outcomes

Upon successful completion of this course, students will have mastered:

CLO5 - basic terminology, concepts and issues in twentieth century urban design;

CLO6 - knowledge of the work and ideas of major theorists and urbanistic movements;

CLO7 - knowledge of the history and reasons for changes in California architecture in a transnational context;

CLO8 - an understanding and appreciation for the cultural diversity of 20th century urban environments;

CLO9 - an understanding of the political, social, economic and aesthetic problems in key historical contexts of twentieth century urban design;

CLO10 - an understanding of the connections between urban design and other artistic media.

Required Texts/Readings

Course Requirements and Assignments

This course will be a seminar course, with strong workshop component. Discussions of readings will be complemented by student presentations of their own writing. Students will be expected to explore their own goals and desires through the processes of critical reading and writing. Peer discussion and dialog will form a significant component of the course.

This course meets the Graduate Writing Assessment Requirement. It seeks to provide students with essential writing skills in the context of professional practice. It also seeks to sharpen the ability of students to think critically about their own work through the use of writing.

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

Final Examination or Evaluation

The final examination will consist of a 75-minute test, similar in format to the mid-term quizzes.

For the university polity on final examinations, please see: University Policy S06-4.

Grading Information

Assignment Format and Submission: Type all assignments with one-inch margins and a 12-point font. Double-space, use page numbers on all pages, and put your name, title and assignment number on a cover page. Cite all outside sources in the text (Chicago or MLA format preferred) and list in a separate Work Cited page; papers lacking source information will be returned ungraded for revision. Place all illustrations with appropriate caption at the end of the paper. Turn in one hard copy and one electronic copy. Staple pages together at the upper left-hand corner and turn in at the end of class on the date due. Turn in the electronic copy through Canvas. Keep a back-up disk of all your work. Papers must be received in both hardcopy and electronic submission.

All papers must be original to this class (no "recycling"), meet all requirements of the assignment, and provide proper in-text source citations for all sources used (including textbook and Internet sources) for credit. Late papers will not be accepted. Exceptions will be made only in cases of documented emergency (e.g. sudden hospitalization, death in the immediate family).

Relative weight of course requirements:

1) Quizzes, (30%)
2) Library Assignment (5%)
3) Site Visit Assignment (10%)
4) Outline and Proposal (10%)
4) Final Paper Assignment (20%)
5) Final Examination (20%)
6) Class Participation (5%)

**Learning Outcome Alignments:**
LO2 (written communication) is primarily addressed in the proposal and final paper. All of the remaining learning outcomes are addressed, in slightly differing proportions, in all of the required assignments.

All papers must be original to this class (no "recycling"), meet all requirements of the assignment, and provide proper in-text source citations for all sources used (including textbook and Internet sources) for credit. Late papers will not be accepted. Students must be present for all quizzes and exams on the days and at the times for which they are scheduled. Exceptions and make-ups will be allowed only in cases of documented emergency (e.g. sudden hospitalization, death in the immediate family).

**Please note:** Except in cases of documented emergencies, incomplete grades are not given in this course. Make sure in advance that you will have no conflicts with the final exam. Do not book flight tickets, make appointments, or in any other way compromise your ability to be present at the final exam. The final exam may not be taken early and can only be made up in the case of an unforeseen emergency.

“All students have the right, within a reasonable time, to know their academic scores, to review their grade-dependent work, and to be provided with explanations for the determination of their course grades.” See University Policy F13-1 at [http://www.sjsu.edu/senate/docs/F13-1.pdf](http://www.sjsu.edu/senate/docs/F13-1.pdf) for more details.
Department Advising

For information about majors and minors in Art & Art History, for change of major/minor forms and a list of advisors: [http://www.sjsu.edu/art/](http://www.sjsu.edu/art/) or the Art & Art History department office in ART 116, 408-924-4320, art@sjsu.edu

Classroom Protocol

Students are asked to turn off cell phones and to limit laptop use to note-taking while in class. They are also asked to respect their fellow students by maintaining an atmosphere conducive to concentration and learning. This means, in part, arriving to class punctually and, when it is absolutely necessary to arrive late or leave early, to do so as quietly as possible.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs’ [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/)
