

**San José State University**  
**Department of Art & Art History**  
**Art 47, Introduction to Metalsmithing, Section 01, Spring 2018**

**Course and Contact Information**

<b>Instructor:</b>	Yvonne Escalante
<b>Office Location:</b>	Art, Room 321
<b>Telephone:</b>	(408) 924-4390 Messages will be checked Fridays, 3:30pm - 5:30pm
<b>Email:</b>	<a href="mailto:Yvonne.escalante@sjsu.edu">Yvonne.escalante@sjsu.edu</a> , preferred contact
<b>Office Hours:</b>	Fridays, 3:30pm - 5:30pm or by appointment
<b>Class Days/Time:</b>	Tuesday/Thursday, 12:00 – 2:50 pm
<b>Classroom:</b>	Art, Room 210
<b>Department Office:</b>	ART 116
<b>Department Contact:</b>	Website: <a href="http://www.sjsu.edu/art">www.sjsu.edu/art</a> Email: <a href="mailto:art@sjsu.edu">art@sjsu.edu</a>

**Course Format**

**Faculty Web Page and MYSJSU Messaging**

Course materials such as syllabus, handouts, notes, assignment instructions, etc. can be found on [Canvas Learning Management System course login website](#) at <http://sjsu.instructure.com>. You are responsible for regularly checking with the messaging system through [MySJSU](#) at <http://my.sjsu.edu> (or other communication system as indicated by the instructor) to learn of any updates.

**Course Description**

Introduction to tools, materials, and techniques for small-scale metal work. Primer course for metalsmithing and jewelry.

Three units

**Course Learning Outcomes (CLO) (Required)**

Upon successful completion of this course, students will be able to:

- CLO1: Identify and safely use tools and equipment through the successful completion of Exercise 1.
- CLO2: Saw, drill, polish, rivet, and form metal to complete Project 1.
- CLO3: Forge, alloy, and solder silver and set stones through the successful completion of Project 2.
- CLO4: Cast utilizing the lost wax process to complete Exercise 2.
- CLO5: Participate in and contribute to the critical evaluation of finished work through active involvement in instructor-led class critiques.
- CLO6: Apply the content described in course readings and individual research to the projects completed

in the class.

## **Required Texts/Readings**

### **Textbook (purchase not required)**

The Complete Metalsmith: An Illustrated Handbook by Tim McCreight

ISBN-10: 0871922401

ISBN-13: 978-0871922403

A class copy is available for reference in Art 210 during class and lab hours.

Students may purchase a copy at [www.Amazon.com](http://www.Amazon.com) or at other book retailers.

Practical Casting: A Studio Reference, Revised Edition by Tim McCreight

ISBN-10: 096159845X

ISBN-13: 978-0961598457

A class copy is available for reference in Art 210 during class and lab hours.

Students may purchase a copy at [www.Amazon.com](http://www.Amazon.com) or at other book retailers.

### **Other readings**

Required readings will be uploaded to Canvas as needed.

### **Other equipment and material**

A dedicated sketchbook for notes and design sketches is required. A small toolbox or tackle box is strongly recommended. Students are required to purchase silver and any materials or supplies that exceed the class allotment such as saw blades, sandpaper, and metal as needed for the completion of projects. Cost will vary from student to student depending on individual needs and current market prices. Students will be given fair warning when outside materials are needed as projects are assigned. Students can expect to spend \$30-\$100 during the course of the semester. A list of vendors will be provided in class.

Students in Art 47 will be required to purchase 1 troy ounce of fine silver. Although market prices fluctuate on a daily basis, expect to pay around \$20.

### **Hazardous Materials (HAZMAT)**

All students enrolled in a studio art class are required to take a hazardous materials test. This test will include safe handling, storage, and disposal of hazardous materials commonly used in the Jewelry and Small Metals Lab (Jlab) Art Rm, 210 & 210A. The test will be held during the third week of instruction with a review session held in the class prior to the exam. Participation in the review and test are mandatory; failure to pass the test will result in loss or limited lab access.

- Hazardous materials and safety test review – February 27, 12:15pm
- Hazardous materials and safety test – March 1, 12:15pm

### **Department Advising**

For information about majors and minors in Art & Art History, for change of major/minor forms and a list of

advisors: <http://www.sjsu.edu/art/> or the Art & Art History department office in ART 116, 408-924-4320, [art@sjsu.edu](mailto:art@sjsu.edu)

### **Library Liaison**

Aliza Elkin

email: [aliza.elkin@sjsu.edu](mailto:aliza.elkin@sjsu.edu)

phone: (408) 808-2043

Dr. Martin Luther King, Jr. Library

4th Floor Administration Offices

Website: <http://libguides.sjsu.edu/collectiondevelopment/CDhumanities>

### **Course Requirements and Assignments**

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in [University Policy S12-3](#) at <http://www.sjsu.edu/senate/docs/S12-3.pdf>.

### **Assignment outline**

#### **Exercise 1: Process samples**

Will serve as an introduction to basic tools and safety protocol for the jeweler's saw, torch, and drill press.

Upon completion you will know how to anneal, pierce, cut, finish, and apply pattern and polish to sheet metal.

**CLO 1, Due: 2/20/18 - 10%**

#### **Project 1: Layered design**

Building on the skills learned during Exercise 1, you will create a layered piece of jewelry or wearable sculpture.

**CLO 2, Due: 3/15/18 - 20%**

#### **Project 2: Raw to Refined – creating a 3-part ring from a silver coin**

Starting with an ounce of fine silver, you will learn how to forge and alloy silver to create a three-part ring with a cabochon stone setting. This project will also introduce you to basic and advanced silver soldering techniques and stone setting.

**CLO 3, Due: 5/10/18 - 20%**

#### **Exercise 2: Introduction to casting**

This assignment will introduce you to basic casting and wax working. You will create a cast bronze or silver piece utilizing the lost wax process. Demos will cover pattern-making in wax, investing, and centrifugal casting, as well as build on skills acquired thus far.

**CLO 4, Due: 5/10/18 - 10%**

### **Class participation**

Participation is assessed as follows:

- Active participation in the critical evaluation of projects through class critiques
- Active participation in class discussions

- Active participation in daily and weekly cleaning duties
- Participation in the end of the semester cleanup to be held on the scheduled final day

Participation points may be made up through extracurricular activities related to Jewelry and Metalsmithing classes as cleared by instructor.

**CLO 5, 15%**

### **Ring a day challenge**

Each week scheduled students will create a ring a day for 5 days. The results will be displayed and voted on.

**CLO 6, 10%**

### **Writing Assignment**

**CLO 6, 10%**

### **Hazardous material and safety test**

**3/1/18, 5%**

NOTE that [University policy F69-24](http://www.sjsu.edu/senate/docs/F69-24.pdf) at <http://www.sjsu.edu/senate/docs/F69-24.pdf> states that “Students should attend all meetings of their classes, not only because they are responsible for material discussed therein, but because active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading.”

### **Final Examination or Evaluation**

Final critique – The final critique will be held on the final day of instruction during the regularly scheduled time. All students are expected to participate in the critical discussion of the final project for participation points. This is the final day late and extra credit work will be accepted for credit.

Final date & time: \_\_\_\_\_

Final cleanup and art pickup – The mandatory class cleanup will be held during the scheduled final exam date and time according to the University’s final exam schedule. Participation is required to earn final participation points. During this time the lab will receive a deep and thorough cleaning. Arrangements must be made with instructor ahead of time to attend an alternate cleanup if necessary. Please dress in appropriate clothing, including close-toed shoes: you will get dirty.

Final cleanup date & time: \_\_\_\_\_

### **Grading Information**

Rubrics are included with each assignment outline. Grades can be accessed on Canvas within 2 weeks of turn-in date. Any questions regarding grades can be emailed to me at [yvonne.escalante@sjsu.edu](mailto:yvonne.escalante@sjsu.edu) or through the class Canvas page. Additionally, we can discuss any questions or concerns in my office during office hours or by appointment.

Each project will be assessed on the following:

- Student’s active participation in in-class demonstrations, class discussions, and critiques associated with the assignment.

- Student’s ability to complete the techniques covered for each assignment.
- Evidence of independent thinking and creative problem solving in the design and creation of each assignment.

Your final grade will be assessed as follows:

1) Exercise 1	10%
2) Project 1	20%
3) Project 2	20%
4) Exercise 2	10%
5) Class participation	15%
6) Writing Assignment	10%
7) Hazardous material and safety test	5%
8) Ring a day challenge	10%

**Determination of Grades**

A+ = 100+	A = 100-93%	A- = 92-90%
B+ = 89-87%	B = 86-83%	B- = 82-80%
C+ = 79-77%	C = 76-73%	C- = 72-70%
D+ = 69-67%	D = 66-63%	D- = 62-60%
F = 59-0% Fail		

A= Excellent work

B= Above average work

**C= Average work, met the minimum requirements of the assignment.**

D= Below average work

F= Failure to complete or unsatisfactory work

- **Extra Credit** – Extra credit is welcome and encouraged in order for you to further explore any of the techniques covered. I may also offer extra credit in class as unforeseen opportunities arise. You may submit one extra credit piece worth up to 5% of your grade. Extra credit is given a point value based on complexity of the piece and quality of the end product. 5% is not guaranteed and can range from 1-5%.
- **Late work** – Late work will be accepted, however 5% will be deducted from late work for each class meeting it is late and 10% for every week it is late. For classes held once a week, 10% will be deducted for each class meeting it is late.
- **Class participation** – Participation is assessed as follows:
  1. Active participation in the critical evaluation of projects through class critiques
  2. Active participation in class discussions
  3. Arrival to class on time
  4. Active participation in daily and weekly cleaning duties
  5. Participation in the end-of-semester cleanup to be held on the scheduled final day

Participation points may be made up through extracurricular activities related to Jewelry and Metalsmithing classes as cleared by instructor.

- **Making up missed work** – It is YOUR responsibility to make arrangements to make up missed demos, acquire notes from missed lectures, and to contact me with special circumstances regarding attendance and late work.

**Contact your peers** to keep up to date on any information you may have missed due to an absence.

**Peer contacts: Name, phone number, and email**

1. \_\_\_\_\_
2. \_\_\_\_\_

**If you missed a demo or need assistance on equipment:**

- JSM's graduate assistant will hold special session demos and provide individual assistance every week.
  1. \_\_\_\_\_
  2. \_\_\_\_\_
- Email me at [yvonne.escalante@sjsu.edu](mailto:yvonne.escalante@sjsu.edu) to set up an appointment during office hours or to request an appointment outside of office hours. If you cannot make office hours, please **include three times** you are available to meet.
- You may come to my office hours for drop-in visits, however this is first-come first-served and is limited to the time posted.

**Classroom Protocol**

**Students using lab must:**

- Be enrolled in Art 47, 147 or 149, unless otherwise cleared by instructor and granted volunteer status by HR.
- Always abide by general shop safety protocol as outlined in class and posted signs.
- Never operate equipment without being cleared by instructor.
- Never allow a friend or relative not enrolled in one of the classes listed above to use or operate any equipment.
- Never operate any equipment under the influence of medication, illegal substances, or alcohol – none of these substances are allowed in the lab at any time unless I am notified of the medication along with a doctor's note.
- Infraction of this rule will result in loss of lab privileges and possible legal action.
- Always be respectful of lab assistants in charge of open lab hours. If you are asked to stop doing something or asked to leave, do so immediately. Talk to me directly if you feel there was any unfair treatment. You may email me at [yvonne.escalante@sjsu.edu](mailto:yvonne.escalante@sjsu.edu) and/or come by my office, Art 321 during posted office hours.
- Never cast or use equipment while alone.

**Clothing**

- Always wear close-toed shoes during class and lab hours, even if you are not operating equipment.
- Keep long hair securely pulled back and remove any dangling jewelry or accessories (such as earbuds) before operating equipment.
- Remove any loose clothing that could get caught up in equipment prior to operation.
- Always wear safety glasses when operating equipment.

- When casting, you are required to have fire resistant clothing on. Avoid synthetic fabrics such as polyester that can flash at low temperatures, resulting in severe burns. Long cotton or canvas pants such as jeans are required on casting days.
- Failure to comply with the shop clothing protocol will result in loss of lab privileges for the day or until student is appropriately clothed.

**Mandatory 10 minute daily cleanup (graded participation)**

**General cleanup:**

- Turn main gas and air valves off (located under your workstation).
- Clean and return tools to station drawer (jeweler's saw, ring clamp, needle files, dividers, bench pin, soldering kit, and Foredom bits).
- Clean and return glass and/or soldering plate to bench side storage area.
- Clean and return tools and unused supplies to the appropriate storage bin/cabinet.
- Sweep floor and table top under and around your workstation.

**Assigned cleanup duty:**

- Complete assigned duty each class day before the end of class.

**Clean, sweep, and/or vacuum shared equipment immediately after use.**

**Demos and lectures** – You are required to attend all demos and lectures. You will not be permitted to use tools/equipment until cleared by instructor. If you are going to miss a class, it is your responsibility to schedule a makeup demo with instructor or GA before continuing with the project. This will also affect your participation grade as outlined in the grading rubric. You are required to keep a dedicated notebook for taking notes during these demos and lectures.

**Lab access outside of class** – Because specialized equipment is necessary in the completion of class projects, students must be prepared to work outside of class during posted open lab hours. Open lab hours are times in which no class is in session and a trained lab monitor is in charge of opening and overseeing the lab for safety and compliance. You are encouraged to use this time to perfect techniques covered in class, experiment with techniques learned through independent projects, and create extra credit pieces. Open lab is a privilege that is only sustainable through the cooperation of all lab users. Abuse of lab access or rules will result in limiting or closing lab hours.

**Responsibilities of lab monitors** – Lab monitors do not teach and are not responsible for cleaning up after you. Lab monitors are volunteers that have been trained in classroom safety and protocol. **They are not permitted to train you on equipment.** During lab time the lab monitor is there to monitor the lab to ensure safety and compliance. Lab monitors should be notified of any injury or incident immediately in order to maintain health and safety. Broken or missing equipment should also be reported to the lab monitor immediately. Lab monitors may ask you to verify lab use eligibility and reserve the right to ask you to leave due to an infraction of lab protocol.

**Laptops and cell phones** – Laptops are allowed for class research only but are not required. **Cell phones must remain off during demos and lectures. Failure to do so will be treated as a missed demo.**

**University Policies**

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs' [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/) at <http://www.sjsu.edu/gup/syllabusinfo/>"

**Art 47/ Introduction to Metalsmithing, Spring 2018 Course Schedule**

*The schedule is subject to change with fair notice updates will be emailed or posted to CANVAS*

**Course Schedule**

Week	Date	Topics, Readings, Assignments, Deadlines
1	Jan 25	Introduction: greensheet and mapping the lab
2	Jan 30	<b>Demo: saw, drill press and piercing</b> <b>Homework: bring in a design and texturing material next class</b>
2	Feb 1	<b>Demo: Finishing</b>
3	Feb 6	<b>Demo: Torch 101, annealing and texturing</b>
3	Feb 8	Introduction to Project 1 <b>Demo: preparing for rivets, polishing and patina</b>
4	Feb 13	<b>Demo: rivets 101</b> <b>Homework: work on designs for Project 1</b> <b>Due 2/21 at 11:30 pm uploaded to CANVAS</b>
4	Feb 15	Design check-in
5	Feb 20	<b>Exercise 1 due at the end of class</b> <b>Homework: work on designs</b>
5	Feb 22	<b>Class discussion: Design check-in</b>
6	Feb 27	<b>Hazardous materials and safety test review</b>
6	March 1	<b>Hazardous materials and safety test</b>
7	March 6	<b>Demo: Soldering 101</b>
7	March 8	Work on Project 1
8	March 13	Introduction to Project 2 – bring silver to next class!
8	March 15	<b>Project 1 Due: class critique at 9:30 am</b>
9	March 20	<b>Demo: casting an ingot, forging sheet</b>
9	March 22	<b>Demo: rolling down sheet</b>
10	March 27	<b>Spring Break</b>
10	March 29	<b>Spring Break</b>

11	April 3	Demo: alloying sterling silver, drawing down wire Homework: complete sheet and wire
11	April 5	Demo: soldering shanks and bezels
12	April 10	Demo: making a bezel cup Homework: complete shank and bezel
12	April 12	Demo: assembling your ring
13	April 17	Demo: stone setting
13	April 19	Introduction to Exercise 2 Demo: wax working
14	April 24	Demo: spruing and investing
14	April 26	Demo: casting
15	May 1	Final day to invest
15	May 3	Final casting day
16	May 8	Final work day
16	May 10	<b>Final critique, Project 2 and Exercise 2 due at the beginning of class</b>
Final Exam	May 17	Final cleanup and art pickup! Room 210, 9:45-12:00 Attendance is mandatory!

\*There shall be an appropriate final examination or evaluation at the scheduled time in every course, unless specifically exempted by the college dean who has curricular responsibility for the course.
