**Course Description**

This course will investigate the impact of cultural diversity within the 21<sup>st</sup> century classroom from preschool through high school and provide an opportunity to concentrate on why the arts matter through active learning. The course will focus on strategies for teaching the ideas of diversity through art. We will be using *The Visual and Performing Arts Framework for California Public Schools* and *Celebrating Pluralism* by Graham Chalmers as resource texts. We will survey the basic concepts of art, child growth and development in the field of art education through participatory experiences that reflect cross-cultural connections of the arts through ideas, needs and values found across boundaries of time and place. As crossing cultures is a dynamic, complex process where context is everything, students will deepen their understanding of culture and context in this course by exploring their subjective positioning through active collaboration.

**Course Learning Outcomes**

Upon successful completion of this course, students will be able to:

- CLO 1** Discuss, report and write about crucial aspects of multicultural art education and how cultural values and biases affect teaching and learning.
- CLO 2** Design a lesson plan that creates and maintains effective learning environments for student's learning in art by providing engaging and relevant content.
- CLO 3** Design and implement a class presentation that demonstrates understanding of instructional planning and designing learning experiences for all students in art.
- CLO 4** Identify and describe one or more assessment techniques for looking at art with all students.
- CLO 5** Demonstrate development as a collaborative educator through participation in scheduled group presentations and a Group Lesson Plan.
- CLO 6** Demonstrate understanding of the visual arts in relation to history and culture. (Historical and Cultural Context) by producing lesson plans that include meaningful and inspiring multicultural content, and demonstrate thoughtful relationships and/or connections to the art project.
- CLO 7** Design a lesson plan that engages and supports all students in art learning by including appropriate differentiated activities.
- CLO 8** Write a final reflection paper that demonstrates the ability to reflect on, modify and improve a lesson plan.

### University Credit Hour Requirement

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practice. Other course structures will have equivalent workload expectations as described in the syllabus.

### Final Examination or Evaluation

This course models current education practices and final grades are based on modes of evaluation, as appropriate, other than examination.

### Grading Information (Required)

Grading is based on cumulative work. Students are expected to attend all class meetings as they are responsible for material discussed therein, and active participation is frequently essential to ensure maximum benefit to all class members. In some cases, attendance is fundamental to course objectives; for example, students may be required to interact with others in the class. Attendance is the responsibility of the student.

### Determination of Grades

- Grading is based on cumulative work. See Course Requirements and Assignments for detailed information regarding grading. Rubrics and Scoring Guides are provided for each graded assignment in the Appendix.
- There is one Extra credit option, a museum visit. Information regarding completion of this assignment is in the Appendix of this syllabus on the last page.
- List of the percentage weight assigned to various class assignments is detailed in Course Requirements and Assignments.
- Penalty for late or missed work will be loss of those grade points.

### Classroom Protocol

Teaching Diversity through Art is a participatory course that leads students through a series of art exercises developing skills in a sequential comprehensive manner. Each lesson builds on the previous lesson. For this reason it is very important to attend each class. Arriving on time is essential for the development of the lesson.

You will be expected to complete readings and assignments in advance of class sessions and to attend all class sessions. You will also be expected to practice professional, collegial behaviors—to be collaborative rather than competitive, to develop your skills as an attentive listener to the presentations of others, and, generally, to be respectful and helpful.

### **University Policies (Required)**

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs' [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/) at <http://www.sjsu.edu/gup/syllabusinfo/>"

3. **Imagine:** Who is missing from the narrative? What/whose objects are not represented? Whose perspectives are missing?

## STEP 3 (choose 1):

- Imagine you can create an exhibit. What kinds of objects, resources, artifacts and/or stories might you include in your exhibit? How might you organize them?
- Consider an Art Educational exhibit that is relevant to you.
- If you were curating an exhibit about that educational topic, what kinds of artifacts, stories, and resources might you include? Make a list or set of images that might present your plans for your exhibit.
