San José State University  
Department of Art & Art History  
ARED 365, Art Credential Program, Spring 2019

Course and Contact Information

Instructor: Susan W. Trimingham  
Office Location: Art 321  
Telephone: (408) 924-4391  
Email: susan.trimingham@sjsu.edu  
Office Hours: Tuesday 11:15-12:00, Thursday 11:15-12:00  
Class Days/Time: Tuesdays (alternating) 4-5:30  
Classroom: TBD  
Prerequisites: Teacher Candidate

Course Format

Faculty Web Page and MYSJSU Messaging (Optional)

Course materials such as syllabus, handouts, notes, assignment instructions, etc. can be found on Canvas Learning Management System course login website at http://sjsu.instructure.com. You are responsible for regularly checking with the messaging system through MySJSU at http://my.sjsu.edu (or other communication system as indicated by the instructor) to learn of any updates.

Course Description

These seven seminars present topics in Art Education for middle and high school Art teachers. In addition as described below, the seminars provide the framework for the intensive experience in supervised student teaching, student teaching under contract, or intern teaching. Students repeating ARED 184YZ and permitted to do PACT, rather than CalTPA in Spring 2018 will have a different schedule.

A. Traditional student teachers will work with one resident/master teacher at the middle or high school level and with a university supervisor, assuming full responsibility for two classes involving two preparations for 184YZ, or for one class for anyone taking only 184Y or 184Z.

The Teacher Candidate should try to assume her or his duties quickly. The exact schedule for the student teacher’s taking over the classes will be worked out with the resident/master teacher(s). Generally, the student teacher will observe for one week before assuming full responsibility for the first class, and by the end of the second week the student will assume full responsibility for the second class. As soon as possible, Teacher Candidates must have complete responsibility for creating unit and daily lesson plans, for handling classroom procedures, for managing classroom behavior issues, for assessing student work, and for completing grade documents, and so forth. Teacher Candidates rely on the guidance of resident teachers. They need to debrief with resident teachers regularly to discuss observations and concerns. “His/her” students should recognize the Teacher Candidate as the teacher in charge at the earliest possible convenience.
Teacher Candidates must be on campus one prep period for each class taught (normally a total of four periods per day). According to state requirements, the traditional student teacher must teach full-time for two weeks of the Phase II/III semester. Thus, to accommodate this requirement, Teacher Candidates should start discussing and planning when and how they will assume three additional sections for a two-week period during the semester.

**B. Teacher Candidates teaching under contract** will take responsibility at once for their classes (one to five classes, depending on their contract). They will be evaluated by a university supervisor and by a designated on-site evaluator at the school site. Each candidate who is completing Phase II/III student teaching under contract will need to have an administrator at the school site complete the agreement form developed by the English Education Program for an employed Phase II/III candidate.

**C. Intern teachers** will assume responsibility for their assigned classes for the entire school year. Interns will be supervised in both the fall and spring semesters by both a university supervisor and an on-site evaluator. Each semester interns will have mid-semester formative evaluations and summative evaluations.

**Course Goals**

The purpose of the Single Subject Credential Program is to prepare scholar practitioners as critical thinkers and reflective decision-makers committed to educating youth for life-long learning in a technologically advanced, culturally-diverse democracy.

**Course Learning Outcomes (aligned with the 2016 Teacher Performance Expectations: TPE’s)**

The seminar sessions reinforce the objectives required of Credential candidates during their Phase II/III student teaching experience. Candidates will be able to:

CLO1. Develop a Lesson Plan that reflects the data they gathered, and engages and supports all learners. (TPE 1, TPE 2, TPE 3).

CLO2. Teach and Assess using both informal and formal assessments. (TPE 4, TPE 5)

CLO3. Explain why they changed their instruction in response to their analysis of student achievement, based on multiple informal and formal assessments. (TPE 2, TPE 3, TPE 4)

CLO4. Describe their plan for a re-teaching or connecting activity. (TPE 5, TPE 6)

**PRIMARY TPE’S ADDRESSED IN ARED 365**

**TPE 1 Engaging and Support All Students in Learning**

1. Apply knowledge of students, including their prior experiences, interests, and social-emotional learning needs, as well as their funds of knowledge and cultural, language, and socioeconomic backgrounds, to engage them in learning.

3. Connect subject matter to real-life contexts and provide active learning experiences to engage student interest, support student motivation, and allow students to extend their learning.

5. Promote students’ critical and creative thinking and analysis through activities that provide opportunities for inquiry, problem solving, responding to and framing meaningful questions, and reflection.

7. Provide students with opportunities to access the curriculum by incorporating the visual and performing arts, as appropriate to the content and context of learning.
Monitor student learning and adjust instruction while teaching so that students continue to be actively engaged in learning.

**TPE 2 Creating and Maintaining Effective Environments for Student Learning**

2. Create learning environments that promote productive student learning, encourage positive interactions among students, reflect diversity and multiple perspectives, and are culturally responsive.

4. Know how to access resources to support students, including those who have experienced trauma, homelessness, foster care, incarceration, and/or medically fragile.

**TPE 3 Understanding and Organizing Subject Matter for Student Learning**

1. Demonstrate knowledge of subject matter, including the adopted California State Standards and curriculum frameworks.

3. Plan, design, implement and monitor instruction consistent with current subject-specific pedagogy in the content area of instruction, and design and implement disciplinary and cross-disciplinary learning sequences, including integrating the visual and performing arts as applicable to the discipline.

5. Adapt subject matter curriculum, organization, and planning to support the acquisition and use of academic language within learning activities to promote the subject matter knowledge of all students, including the full range of English learners, Standard English learners, students with disabilities, and students with other learning needs in the least restrictive environment.

**TPE 4 Planning Instruction and Learning Experiences for All Students**

1. Locate and apply information about students’ current academic status, content-and-standards-related learning needs and goals, assessment data, language proficiency status, and cultural background for both short-term and long-term instructional planning purposes.

3. Design and implement instruction and assessment that reflects the interconnectedness of academic content areas and related student skill development in literacy, mathematics, science, and other disciplines across the curriculum, as applicable to the subject area of instruction.

4. Plan, design, implement and monitor instruction, making effective use of instructional time to maximize learning opportunities and provide access to the curriculum for all students by removing barriers and providing access thorough instructional strategies.

**TPE 5 Assessing Student Learning**

1. Apply knowledge of the purposes, characteristics, and appropriate uses of different types of assessments to design and administer classroom assessments, including use of scoring rubrics.

2. Collect and analyze assessment data from multiple measures and sources to plan and modify instruction and document students’ learning over time.

3. Involve all students in self-assessment and reflection on their learning goals and progress and provide students with opportunities to revise or reframe their work based on assessment feedback.

4. Use technology as appropriate to support assessment administration, conduct data analysis, and communicate learning outcomes to students and families.

8. Use assessment data, including information from students’ IEP, ISFP, ITP, and 504 plan, to establish learning goals and to plan, differentiate, make accommodations and/or modify instruction.

**TPE 6 Developing as a Professional Educator**

1. Reflect on their own teaching practice and level of subject matter and pedagogical knowledge to plan and implement instruction that can improve student learning.

5. Demonstrate professional responsibility for all aspects of student learning and classroom management, including responsibility for the learning outcomes of all students, along with appropriate concerns and policies regarding the privacy, health, and safety of students and families. Beginning teachers conduct themselves with integrity and model ethical conduct for themselves and others.

Library Liaison
Our library liaison is Gareth Scott. He can be reached via email at: gareth.scott@sjsu.edu
and by phone at (408) 808-2094. His office is located on the 4th floor of the King Library and he welcomes
students to contact him with research questions. Art and Art History Library Resources are available online at:
libguides.sjsu.edu/Art. All of the University Library Resources can be accessed at: libguides.sjsu.edu/az.php
Art Education Resources: http://libguides.sjsu.edu/arteducation

Course Requirements and Assignments

1. Attend and participate in each of the seven seminar meetings.

2. Complete the 4 Steps for the CalTPA Instructional Cycle 2.

   STEP 1: PLAN

   Using the Learning Segment Template, develop a plan for a content-specific series of lessons that
   support the academic and language development needs of your students, including students’ use of
   educational technology, and describe the assets and learning needs of the class as a whole.

   Planned lessons should encourage students to engage in higher order thinking as they develop a deep
   understanding of the content and academic language. The formal assessment must allow students to
   demonstrate their understanding of the content through the development of a product process or
   performance. You will use a rubric and/pr scoring criteria to assess the qualities of the student work
   (product, process, or performance) and share the results of your analysis with students through detailed
   feedback that they will use to advance their learning. Submit a blank copy of one formal assessment
   instrument and rubric and/or scoring criteria and your completed Learning Segment Template.

   Contextual Information Template-- as described below—This is due at the beginning of the
   seminar, and is to focus on one class that you are teaching. Explain how the factors addressed in your
   paper reflect effective classroom management issues.

   A. Complete Contextual Information Template that addresses the following:
      1. Grade level (s)
2. Content area or course name
3. Topic of content-specific instruction and assessment sequence
4. Number of days/lessons involved in the instruction and assessment sequence
5. Classroom setting (face-to-face, online, combination)
6. Educational technology or appropriate assistive technologies available in the classroom/school
7. Number of students
8. Number of students with an IEP, with a 504 plan, identified for GATE
9. Number of English learners
10. Number of Standard English learners
11. Dual-language setting, if applicable: bilingual, one-way immersion, two-way immersion

B. Description of students’ assets and needs. Focus on key factors that influence your planning and teaching:
1. Academic development. Consider prior student knowledge, key skills, developmental levels, and other special educational needs related to the learning goals and objectives.
2. Language development. Consider aspects of English language proficiency in conversational and academic language as well as in the students’ primary languages.
3. Social development. Consider factors such as the students’ ability and experience in working independently and with others.
4. Cultural and linguistic resources and funds of knowledge. Consider key factors such as cultural context, knowledge acquired outside of school, and home/community resources.
5. Socioeconomic background.
6. Developmental considerations (typical and atypical).
7. Prior experiences and interests.
8. Students’ experience using educational technology, including assistive technologies, inside and outside of the classroom.

STEP 2: TEACH & ASSESS

For this step, you will teach and video-record the entire learning segment, then review the videos to select 3 video clips. Clips may be selected from any part of the multiple day learning segment lessons. You will write annotations for the clips using appropriate Annotation Titles and providing rationales that describe how and why you:

- Approached teaching to specific learning goal(s) and objective(s)
- Provided content-specific feedback to students
- Monitored student content learning and development of academic language
- Selected the assessment strategies to monitor student content learning and use of higher order thinking
- Chose the strategies you used to establish a positive and safe learning environment

1. Select Video Clips
   A. Video Clip 1: Instruction and informal Assessment of Content (up to 8 minutes)
   B. Video Clip 2: Instruction and Student Self-Assessment of Content (up to 6 minutes)
   C. Video Clip 3: Instruction and Academic Language Development (up to 6 minutes)
2. **Annotate the Video Clips using Annotation Titles**
   A. Teaching to Specific Goals
   B. Providing Content-Specific Feedback to Students
   C. Monitoring Student Content Learning and Development of Academic Language
   D. Monitoring Student Content Learning and Use of Higher Order Thinking
   E. Creating a Positive Learning Environment

3. **Analysis of Informal Assessments Template**
   A. How did your “in the moment” informal assessment feedback to students help them understand what they need to do next to continue progress toward and/or beyond meeting the learning goal(s) and/or objectives(s)?
   B. How did you use informal assessment results to learn about and support students’ academic language development? How did you adjust your instruction based on these results?
   C. How did student self-assessment results provide insight about students’ own understanding of the content and their progress toward meeting the learning goal(s) and objective(s)? How did you adjust your instruction based on these results?

**STEP 3: REFLECT**

For the formal assessment, analyze student product, process, or performance using a rubric an/or scoring criteria. Using the table provided, summarize student results on the formal assessment for the whole class. Also submit 3 student formal assessment responses (product, process, or performance) and your feedback, representing a student who exceeded the learning goal(s), one who met the learning goal(s), and one who has not yet met the learning goal(s).

Reflect on what you discovered about student learning and academic progress based on your analysis of informal and formal assessments, including student self-assessment results. Explain how and why you changed or did not change your instruction to respond to your analysis of student achievement based on multiple informal and formal assessments.

**STEP 4: APPLY**

Based on your analysis of all three types of assessment results, determine if you will teach to the whole class or a group from the class:

a. **A re-teaching activity** because students did not demonstrate the content-specific learning goal(s) and/or objective(s) of the instruction.

   **OR**

b. **A connecting activity** to build on the instruction provided because students did demonstrate the content-specific learning goals(s) and/or objective(s) of the instruction.

1. **Describe your plan for the re-teaching or connecting activity.**
2. **Video-record the re-teaching or connecting activity and choose a clip (up to 6 minutes) that demonstrates your follow-up instruction based on your informal, formal and student self-assessment results.**

**Overview of the CalTPA Instructional Cycle 2**

**Assessment–Driven Instruction**

*CalTPA_AssessmentGuide_SS.pdf (SECURED)*

Instructional Cycle 2 represents a complete teaching cycle (plan, teach and assess, reflect, and apply). This cycle emphasizes the interaction between standards, assessment, and instructional decision-making. While standards describe what students are expected to know, understand, and be able to do, assessment is the ongoing process of gathering evidence from multiple sources to determine what each student actually knows, understands, and can demonstrate. Assessment results are then used to improve instruction. Effective assessment will evaluate a student’s academic progress, but also may include measures that look at other aspects of their educational development. It provides valid, reliable, and fair data to support high-quality teaching and learning activities for teachers, parents, and students. Assessments help teachers make informed decisions about which curricular goals or strategies need to be strengthened, how instructional strategies can be modified or expanded depending on what students are understanding or misunderstanding in the course of instruction, and whether or not a particular sequence of instruction has been successful. (For additional information on assessment, refer to the California Department of Education at [http://www.cde.ca.gov/qu/as/](http://www.cde.ca.gov/qu/as/).

For this instructional cycle, you will develop a learning segment that includes several purposefully connected lessons that occur over multiple days to develop student knowledge and understanding within a particular content area. This sequence of lessons may be part of a longer unit of instruction, and should have a clear starting point and ending point related to a particular learning goal. Your lesson sequence should introduce one or more interconnected concepts within the content area that build students’ content knowledge and understanding over time. You will use several types of assessment and student results to support and promote deep learning or content, development of academic language, and engagement of students in the use of higher order thinking. For one class, you will use what you know about your students’ assets and needs and learning context to plan and teach a learning segment based on California state standards using the content-specific pedagogy of your discipline. Throughout the content-specific learning segment, you will provide feedback to students about their academic performance(s) based on informal assessment(s), student self-assessment, and formal assessment results, and support students to use assessment feedback to advance their understanding.

**Assessment of your Teaching Event**

*Your Teaching Event should clearly demonstrate how your practice meets the California Teaching Performance Expectations (TPEs). A list of the TPEs appears at the end of this Handbook. Scoring rubrics have been developed to align with these professional expectations for classroom teachers.*

Student teachers, interns, and contract teachers are graded in ARED 365 and 184Y/Z with CR (Credit) or NC (No Credit). **The candidate must fulfill all course requirements. The candidate must also provide evidence of good teaching and potential for continued growth to meet the criteria for the grade of “CR.”**
Your university supervisor and your on-site evaluator(s) will fill out **Formative Evaluations** *(subject to change with advance notice made in class)*. You will be advised about areas of your teaching that you will need to improve in order to receive credit for the course. You should have ample opportunity to improve in those areas before the end of the semester. Formative Evaluations from both the university supervisor and on-site evaluators **must be** on file in the English Credential Office.

**Academic Integrity Policy:** The University emphasizes responsible citizenship and an understanding of ethical choices inherent in human development. Academic honesty and fairness foster ethical standards for all those who depend upon the integrity of the university, its courses, and its degrees. This policy sets standards for such integrity. The public is defrauded if faculty and/or students knowingly or unwittingly allow dishonest acts to be rewarded academically and the university’s degrees are compromised.

**Plagiarism:** At SJSU plagiarism is the act of representing the work of another as one’s own without giving appropriate credit, regardless of how that work was obtained, and/or submitting it to full academic requirements. Plagiarism includes, but is not limited to:

1. The act of incorporating the ideas, words, sentences, paragraphs, or parts of, and/or the specific substance of another’s work, without giving appropriate credit, and/or representing the product as one’s own work;
2. Representing another’s artistic/scholarly works such as musical compositions, computer programs, photographs, paintings, drawing, sculptures, or similar works as one’s own.

(Adapted from the SJSU Academic Senate Policy, S07-2; please check this web site for the full policy: http://www.sa.sjsu.edu/judicial_affairs/index.html)

According to the SJSU policy, the minimum penalty for plagiarism is failure of the assignment/paper/exam. It is your responsibility to become informed about the Academic Integrity Policy.

**Disability Resources:** If you need course adaptations or accommodations because of a disability, if you have emergency medical information to share with me, or if you need special arrangements in case the building must be evacuated, please make an appointment to see me as soon as possible. “Presidential Directive 97-03 requires that students with disabilities requesting accommodations must register with DRC to establish a record of their disability.” URL for Disability Resources: http://www.drc.sjsu.edu/

**University Credit Hour Requirement**
Success in this course if based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practice. Other course structures will have equivalent workload expectations as described in the syllabus.
Grading Information

Determination of Grades

Grades are Credit of No Credit and will be based on participation and attendance for the seven seminars.

Classroom Protocol

Attend and participate in each of the seven seminar meetings.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs’ Syllabus Information web page at http://www.sjsu.edu/gup/syllabusinfo/’’

Candidates will have access to video recording equipment (cameras, tripods, wireless mikes) and editing software in CalTPA Resource Room (SH 446)
