DH-135 Projection Quick Start Guide

Press the “Projector On” button on the SmartPanel Control ONCE.

(Wait 90 sec for the warm-up.)

Press the “Projector Off” button on the SmartPanel Control before you leave the room.

Make sure the Audio Amp controls for “Master” & “VCR” are set to the straight up position.

If you have problems with this system, Dial “0” or 4-2867 from the classroom phone.

A: Computer Projection
1: Connect the 15-pin VGA/Audio cable located on the side of this bench to the external video monitor and audio ports on your computer.
2: Press the button marked “Computer” on the SmartPanel control panel.
3: Set your computer’s display resolution to a maximum of 1024x768.
4: Adjust your laptop for either dual or external monitor support.
5: Connect your Ethernet cable to the jack on the SmartPanel.
6: Use the volume “UP” and “Down” buttons on the SmartPanel to control the sound in the room.
7: When finished, replace VGA/Audio cable on the hook provided below the connection panel.
   (See your desktop support technician for more information on setting up items 3, 4 & 5.)

B: DVD or VCR Projection  (Turn the player “off” when finished)
1: Press the “Power” button on the DVD/VCR machine to turn on the unit. (left side)
2: Press the “DVD” or “VCR” button on the SmartPanel control panel.
3: Insert a DVD or a VHS tape into the unit.
4: Press the “Drive Select” button on the attached remote control to enable the appropriate function buttons.
5: Or, press the “Play” “REW” “FF” “Stop” buttons on the front of the DVD/VCR machine as needed.
6: Use the volume “UP” and “Down” buttons on the SmartPanel to control the sound in the room.
   Note: For more advanced features (Menu buttons) use the attached remote control.

C: Campus Cable TV Projection  (Turn the player “off” when finished)
1: Press the “Power” button on the DVD/VCR machine to turn on the unit (left side).
2: Press the “DVD” or “VCR” button on the SmartPanel control panel.
3: Press the “Drive Select” button on the attached remote control to select “VHS”.
4: Using the remote control, select the appropriate campus cable channel by pressing the numbers on the number pad, (for example: 0 and 4 for channel 4,) or by pressing the up/down channel buttons. You can also use the up/down buttons on the Player to select a channel.
5: Use the volume “UP” and “Down” buttons on the SmartPanel to control the sound in the room.

D: Auxiliary Video Projection
1: Press the “Auxiliary Video” button on the SmartPanel control panel.
2: Connect a video camera, or other video device to the inputs located below the VGA cable on the panel on the side of the front bench.

E: Audio Only Playback  (Do Not Turn On Projector)
1: Press the “Power” button (left side) on the DVD/VCR machine to turn on the unit.
2: Load a CD into the DVD Player.
3: Press the Volume “up” button until the desired sound level is reached.
4: Turn the player “off” when finished and press the “projector off” button to turn off the system.
