

# Fires, Floods, and Faults - II

May 14, 2001

8:00 am - 4:30 pm

**SAN JOSE CONVENTION CENTER**  
Downtown San Jose

*Invited...*

*Congressman, Mike Honda*  
*Assemblywoman, Elaine Alquist*  
*SJSU Provost, Marshall Goodman*

## **NEW TECHNOLOGIES**

Recent events in California, and worldwide, remind us again of the fragility of our advanced industrial society to natural disasters and power outages, which almost always follow natural disasters. Mitigation is the key to reducing the human and economic consequences. The symposium will explore the use of new technologies for mitigation and disaster planning. Invited speakers will present new technologies that have become available relatively recently. Symposium participants are expected to take an active role in breakout sessions, identifying technology requirements for hazard mitigation and emergency preparedness. Please bring along questions and issues that need solutions. Participants will be e-mailed a participant roster and breakout session summaries after the symposium.

## **SPEAKERS**

- ◆ **Carl Guardino**, State ISO Board Member; President & CEO, Silicon Valley Manufacturing Group  
*"California's Energy Crisis"*
- ◆ **Paul Jacks**, State Office of Emergency Services, Disaster Assistance Division
