

**Collaborative for
Disaster
Mitigation**

One Washington Square, San Jose, CA 95192-0082

The Collaborative for Disaster Mitigation presents...

*Changes in Disaster Recovery and Mitigation
in the Wake of Sept. 11th*

FIRES, FLOODS, and FAULTS - III *and fanatics* Conference

MONDAY, APRIL 29, 2002

San Jose Convention Center

Downtown San Jose

Compared to a year ago, when the Fires, Floods & Faults - II Conference was convened, we find ourselves in a world that is significantly different. To say that “the world has changed” is an understatement. This is indeed the appropriate time to critically evaluate the changes that are occurring around us, reflect upon our *modus operandi* thus far, and chart new courses that will build upon the solid foundations we have laid so far. Fires, Floods & Faults - III is intended to provide this opportunity. The invited speakers have been carefully selected to provide us with the necessary food for thought that we can take back with us. The training workshops are designed to provide practical skills that can be utilized. The ultimate success of this conference can be measured only in terms of your participation (not just attendance) in the proceedings of the day.
