Course Requirements and Assignments

• **Complete the assigned readings prior to class.** Graduate level courses typically require massive reading to provide enough background information, so that class time is primarily devoted to critical thinking, in-depth discussions and applications. *Tip:* Organize reading clubs to facilitate reading.

• **Assignments.** See the attached Course Calendar for exam/due dates and Assignment Description for specific instructions/rubrics.
  
  o **In-class Assignments (10%):** There will be various in-class activities throughout the semester to enhance learning. Participation is graded based on successful, on-time submission of the in-class activities. [CLO 1-8]

  o **CITI training (5%):** Each student will *individually* complete the online CITI training on basic ethical issues for student researchers. [CLO 1]

  o **Literature review (20%):** Each student will write a thorough literature review based on a PICO question related to the student’s selected clinical case. [CLO 2-5, 7]

  o **Peer review (5%):** Each student will critique a research proposal and provide constructive feedback. Discussion among students is encouraged. [CLO 4]

  o **Case study Project (30% ; presentation 10%, paper 20%):**
    - In-class presentation: Each student will present a case study of the student’s selected clinical case in class. [CLO 8]
    - Written paper: Each student will write up the case study, including general introduction, method, results and discussion. [CLO 6, 7] The paper satisfies the Graduate Writing Assessment Requirement for a graduate degree from SJSU, it will be at least 3000 words (approximately 12 pages) and formatted according to the American Psychological Association, APA format (6th edition).

  o **Exams (30%; 15% each):** There will be two exams during the semester to assess various aspects of research methods in small chunks. [CLO 1-7]

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction,
preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.
