Course Requirements and Assignments

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in <u>University Policy S12-3</u> at http://www.sjsu.edu/senate/docs/S12-3.pdf.

That is, expect to work six additional hours outside the classroom each week for a three-unit course.

- Complete the **assigned readings** prior to class.
- Exams and Assignments. See the attached Course Calendar for exam/due dates, and assignment documents posted on Canvas for more specific instructions.
 - In-class assignments (15%): There will be various in-class activities throughout the semester to enhance learning. Participation is graded based on successful, on-time submission of the in-class activities.
 - o **Exams (30%; 15% each):** There will be two exams during the semester to assess various aspects of course materials in small chunks.
 - Final paper: Students will collaborate in groups of 2-3 to write a paper on some aspect of language and literacy development and/or disorders. The paper project includes the following submissions:
 - Paper proposal (15%): 2-page brief proposal in which students will introduce their research topic and summaries of eight studies that relate to their question. Each summary will include the study's topic and key findings.
 - Integration of findings (10%): Each group will choose two studies they reviewed and analyze the way their findings conflict, support, or complement one another. Special focus will be on how this integration of findings contributes to the paper's topic.
 - In-class presentation (10%): Students will present their work during class time, including introduction of their research topic, findings from the relevant studies, and their conclusion based on the integration of the findings. Discussion among students is encouraged.
 - Written submission (20%): Following the in-class discussions, each group will write up a final paper, including a general introduction of the research topic, summaries and integration of the findings of the relevant studies, and a concluding section with directions for further research.

NOTE that <u>University policy F69-24</u> at http://www.sjsu.edu/senate/docs/F69-24.pdf states that "Students should attend all meetings of their classes, not only because they are responsible for material discussed therein, but because active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading."
