Course Description

This course is a workshop and not a lecture designed to improve skills in scientific writing, speaking and data presentation. The emphasis will be to further develop technical writing and oral presentation skills within a chemistry context. Students will develop and improve these skills by writing a substantial review article on a scientific topic. In addition, an oral presentation and a poster presentation of the review topic will also be prepared. Since Chem 100W is not designed as a lecture class, these skills are to be developed by a series of writing and presentation assignments involving individual interaction such as editorial feedback and peer reviews.

Note the following key learning benchmarks:

1. Incorporate information and communicate effectively, via reading/writing and orally.
2. Cite and reference the relevant literature in the field.
3. Think critically and analyze complex and abstract ideas.

Course Learning Outcomes (CLO)

Upon successful completion of this course, students will be able to:

1) Effectively present a scientific paper in a poster session, as per at an American Chemical Society symposium.
2) Effectively present a scientific paper orally, as per at an American Chemical Society symposium.
3) Write a formal scientific laboratory report, using the format and style of an article in a peer-reviewed American Chemical Society journal.

Student Learning Outcomes (SLO) for Chem 100W

Upon successful completion of this course, students will be able to:

SLO 1: Incorporate information and communicate effectively; reading/writing and orally.
SLO 2: Cite and reference the relevant literature in the field.
SLO 3: Think critically and analyze complex and abstract concepts.
SLO 4: Develop the skills necessary to communicate among professionals in the scientific community such as presenting their results in a scientific paper (journal article) or in an oral or poster presentation at a scientific conference.

</tbody>
</table>

Your grades for all the assignments will be posted on canvas. You have only 9 days from the day a grade is posted to ask for a regrade. I will not do regrades after nine days have passed.

*Please note the subjective evaluation grade involves participation and performance in all sessions. This includes scheduled guest and other specified lectures as well as the oral and poster presentations. This also includes the various consultations, specifically those involving Oral and Poster Presentation feedback. Being on time and participation are critical and students are responsible for material missed in any lectures or discussions. Late assignments are not to be accepted without good cause (i.e. medical and family issues), requiring documentation, or involve unforeseen class issues (e.g. instructor sick day).

Plagiarism and any other cheating will not be tolerated, leading to a minimum penalty of an F for the particular assignment and, given the proper circumstances, an F or equivalent for the entire course. See SJSU plagiarism policy, interactive tutorial and the relevant quiz (http://tutorials.sjlibrary.org/tutorial/plagiarism/).

A letter grade will be assigned according to the following percentage scale:

- above 97.0% A+
- 96.9% - 92.0% A
- 91.9% - 89.0% A-
- 88.9% - 85.0% B+
- 84.9% - 80.0% B
- 79.9% - 77.0% B-
- 76.9% - 72.0% C+
- 71.9% - 65.0% C
- 64.9% - 61.0% C-
- 60.9% - 57.0% D+
- 56.9% - 54.0% D
- 52.9% - 50.0% D-
- Below 50.0% F

Incompletes: An incomplete will only be given under the following circumstances: (1) you have completed at least two-thirds of the course work with a grade of C or better, and/or (2) the reason that you cannot complete the course is due to an extreme emergency with appropriate documentation. Students who wish to receive an incomplete and have not fulfilled the above requirements will receive a grade appropriate to their totals. If you decide to quit the class without taking the final exam, you will receive a WU grade, equivalent to an F with the option to repeat the class. Consult with your advisor and/or refer to SJSU Course Catalog for specific details.
Classroom Protocol

Because this class is a workshop, class attendance and participation are essential. You should plan each week to be in class for the entire 2.5 hour workshop time period, to maximize use of the lab, to work on your assignments. Any assignment not completed or turned in will result in a zero grade. If the student misses class it is their responsibility to obtain notes, handouts and other materials or communications provided in class. All class participants are expected to interact in a professional manner in all matters pertaining to this course.

We hope that the classroom and laboratory will serve as an environment that will promote learning and the development of new ideas, as well as be a safe and respectful community. Behavior that interferes with the normal academic function in a classroom or lab is unacceptable. Students exhibiting this behavior will be asked to leave the class. Examples of such behavior include:

a) Persistent interruptions or using disrespectful adjectives in response to the comments of others.
b) The use of obscene or profane language.
c) Persistent and disruptive late arrival to or early departure from class without permission.
d) Physical threats, harassing behavior, or personal insults (even when stated in a joking manner).
e) Other inappropriate behavior e.g. yelling directed at classmates and/or faculty.
f) Use of personal electronic devices such as pagers, cell phones, PDAs in class, unless it is part of the instructional activity.
