How to Earn a MS Degree in Chemical Engineering at SJSU?

**GETTING STARTED**

**Program Details**
- 30 units for degree
- 4 core ChE courses*
- 4-5 elective courses
- 2-3 research project courses
- Graduate classes are in the evening for convenience of working students

*Students without a BS in Chemical Engineering need several additional undergraduate courses

**APPLICATION DETAILS**

**Prerequisites**
- BS Degree in Chemical Engineering
  or closely related engineering (Materials, Mechanical, Biomedical)
  OR science (Chemistry, Physics, Biology)
- G.P.A. of 2.7 or above
  in last 60 units of BS Degree
- International BS Degrees require an English Test, such as TOEFL

**Average Program Length**
- 2 years, full-time
  with BS Chemical Engineering Degree

Working students can use approved project at their company for their research project

**DEADLINE**

Domestic applicant:
- May 1, 2020 for Fall 2020

International applicant:
- April 1, 2020 for Fall 2020
