Course Requirements and Assignments

This course is designed for the student to have fun, participate, and learn. Active class participation is expected of EVERYBODY. Don't wait for someone to ask you to join the conversation. Become involved, both in class and in your homework, and motivation follows naturally. Most class time will be devoted to discussing, clarifying, applying, and expanding on some aspect of the reading assignments and cases, rather than duplicating everything you should have read. Emphasis is on a variety of instructional methods. Lectures, slide presentations, and other instructional methods are always mixed with questions and answers and provide ample opportunity to share your work experiences with the class. Simulations, class exercises, case analyses, guest speakers, films and videos may be part of the course. Make sure you get the phone numbers of a couple of classmates, in case you need to find out about missed or unclear class material.

1. **Exams**- There will be two exams, a mid-term and a final. They are closed book and closed notes. The final is not cumulative.

2. **Homework**- On the Schedule of Assignments; you will see the notation “Homework.” You are expected to arrive in class with prepared responses to the assigned review questions or cases. The assignments are generally at the end of the chapters. You must complete the assignment in advance of class. All homework assignments should be completed in a word processing program and printed. NO HANDWRITTEN homework is accepted. In every class session, you’ll be expected to be fully prepared to discuss the cases from the assigned reading. Important: To get full credit on your homework, you must participate in the homework review discussion in class and make notations on your assignment. **Homework without notations from the discussion will not get full credit. I do not accept homework via EMAIL and do not accept late or hand-written homework.** If you’re going to miss a class, turn in homework early or have another student bring it for you on the evening of class for partial credit. I do not accept late homework.

3. **Team Projects**- During the first weeks of class you will be assigned to teams to work on two projects. Details regarding the projects will be posted on Canvas. The project grades will be based on two components: a paper and peer evaluations. **Both the paper and peer evaluations must be submitted online in Canvas.**

4. **Personal Development Project**- Changing organizational behaviors on an individual and on a systematic level can be challenging, and it is easy to underestimate these challenges when focusing on others’ behavior. To help you understand some of the challenges that can arise and thought processes that
accompany these challenges, you will choose an important behavior change and attempt to carry it out during the semester. This project will consist of completing two online assignments - one at the beginning of the semester, and another at the end of the semester. Details regarding the project will be discussed in class and posted on Canvas.

5. **Informational Interview** - The purpose of the informational interview is threefold. First, it will give you an opportunity to examine an occupation in depth that is of interest to you. Second, it will give you an opportunity to practice networking, which is a critical career skill. And third, you will get some career advice that may be useful to you. The steps and format of the assignment will be posted on Canvas, and must be submitted online.

**Final Examination or Evaluation**

There will be a final exam covering the second half of the text.

**Grading Information**

Your course grade will be based upon a weighted combination of scores on class participation, class preparation (homework) team and individual assignments, mid-term final.
