IDENTIFYING THE RIGHT GRADUATE SCHOOL PROGRAMS FOR YOU
AND APPROACHING POTENTIAL MENTORS

WEDNESDAY, MARCH 6, 2019
5-7PM @ THE CLSSC
STUDENT UNION 1340

This workshop will help students understand all the questions that they should ask as they consider which graduate schools to apply to. Graduate schools are looking for students with the training and skillsets that so many SJSU students have, but many first-generation college students don’t realize that they can and should carefully evaluate graduate programs for what they have to offer. Students will learn this process and the strategies for finding the perfect graduate program for you. If graduate school sounds intimidating, you have to come to this workshop!

*Light refreshments will be provided*
