AGENCY DESCRIPTION:
Davis Street Family Resource Center (DSFRC) is a non-profit organization serving the community for over 40 years. Our mission is to help low income people of the Eden area and its surrounding communities improve their quality of life through short and long term assistance. DSFRC recognizes the only way to provide this service is by addressing client’s needs from a holistic perspective. DSFRC provides mental and physical health services, child care assistance, food, clothing, and other supportive services all under one roof. DSFRC provides a unique opportunity for trainees/interns to provide clinical services from a culturally responsive integrated framework. Our outpatient mental health program is comprised of two tracks: Outpatient mental health clinic located within the resource center and School-based services within the San Leandro School District. Interns have an option of combining the two programs.

REQUIRED HOURS/SUPERVISION AND TRAINING:
Individual Supervision arranged with supervisor. Fridays is mandatory trainee/intern day consisting of Group Supervision 9am-11am and Didactic Training 11am-1pm. The school-based program requires two days at the designated school location outside of the Friday training day. The clinic program requires at least 1 evenings a week, 2 preferable as most clients come in the late afternoon and evening. The program is 16-20 hours. The training year begins first week of August and ends last week of August. Elementary School-Based: Individual work with children and/or in certain cases couples or individual parents, group work with children, and family work, as well as teacher/student intervention work. Adolescent School-Based: Individual work with Middle or High School Students and Group work, family work encouraged but rare. Clinic-Based Program: We serve all age groups across life-span beginning at age 3 providing individual, family and couples therapy. In addition, there is some availability of co-leading Domestic Violence, Parenting, or Anger Management groups. The population is very culturally diverse and primarily of lower/middle socio-economic status in all programs.

Application process:
Culturally/ethnically diverse applicants as well as applicants with second language competencies (particularly Spanish) are especially encouraged. Please include a resume/CV, a statement of interest and program preference, and three letters of recommendation. You may email or mail to:
