The NVivo work area

The NVivo work area provides easy access to all your project material. Most NVivo commands are available on the menu or the ribbon.

Navigation View lets you organize your material into folders.

See the contents of a folder in List View.

Move between currently open items.

Work with your sources, nodes or other project items in Detail View.
Work with the ribbon or the menus

You can work with NVivo using the menu commands or the ribbon. On the ribbon, commands are organized into logical groups, collected together under tabs. Each tab relates to a type of activity, such as creating new project items or analyzing your source materials.

The ribbon provides easy access to most commands

The File menu gives you access to project-related commands

Most NVivo commands are available on the menu or the ribbon

Navigation View

Navigation View helps you to organize and easily access all of the items in NVivo:

NVivo provides folders for your research materials. You can add folders under them to organize project items

Click to close all items that are currently open

Click to close an individual item

This area shows all the items that are currently open
List View

When you select a folder in Navigation View, its contents are displayed in List View. In this view, you can add new items, open existing items and edit item properties. This List View displays the contents of a folder:

Detail View

When you open an item from List View it is displayed in Detail View. This is an example of an interview opened in Detail View:

Q.2. Connection to Down East natural environment

Henry
What do you value about the environment Down East?

Barbara
I enjoy the weather. It’s so nice and mild. And I like hot summers. I like hot, humid summer on the water. I think it’s a beautiful environment and beautiful landscape. It’s not dramatic. I also love the Utah deserts and California. But I like this subtle, sublime sort of beauty here – the environment here.

I particularly enjoy being out on the water Down East. And my – he’s not really my uncle, but a friend who I call an uncle – I just help him set his flounder nets and things like that. He does fishing, commercial fishing, but actually he’s not commercial, just for his own freezer. And he knows everything about the water and just living off of the land – the seafood here.

Q.3. Professional perspective on Down East

Henry
So how did you end up doing the work that you do? I’m particularly interested in – since this is an interview focused on sort of environmental issues, the work that you do in relationship
