GE/SJSU Studies Category: GE A3 / Critical Thinking and Writing

GE A3 Course Description
In critical thinking courses, students will understand logic and its relationship to language. Courses include a series of integrated reading, writing, oral, and research assignments that engage students in complex issues requiring critical thinking and effective argumentation. Students will develop language that distinguishes fact and judgment; articulates elementary inductive and deductive processes; parses fact, assumption and conclusion; integrates rebuttal and qualification as appropriate. Students will develop the ability to analyze, criticize, and advocate complex ideas, reason inductively and deductively, research and rebut information and arguments, and reach well-supported factual conclusions and judgments.

ENGL 1B Course Description
English 1B focuses on the relationship between language and logic in composing arguments. Students develop strategies that incorporate critical reading and thinking skills into the writing process. Drawing on systems of analysis from rhetorical theorists and logicians (for instance, Aristotle, Rogers, and Toulmin, among others), students learn systematic reasoning so that they can lay out premises clearly, provide evidence, and draw valid conclusions. Reading a variety of texts, students study conventions of formal writing as well as textual cues that control the development of logical inferences.
ENGL 1B Section Description  “A discovery is said to be an accident meeting a prepared mind.”

~Szent-Gyorgyi

Our class theme for this semester will be Innovation for Global Change. We are going to focus on new solutions to world problems. We will research both practical and conceptual solutions to problems in the areas of health, education, economic and environmental issues.

ENGL 1B Learning Outcomes and Course Content

GE A3 Learning Outcomes (GELO)
Students will demonstrate, orally and in writing, proficiency in the Area of A3 Learning Objectives. Students will be able to

1. locate and evaluate sources, through library research, and integrate research through appropriate citation and quotation.

2. present effective arguments that use a full range of legitimate rhetorical and logical strategies to articulate and explain their positions on complex issues in dialogue with other points of view.

3. effectively locate, interpret, evaluate, and synthesize evidence in a comprehensive way in support of one’s ideas.

4. identify and critically evaluate the assumptions in and the context of an argument.

5. effectively distinguish and convey inductive and deductive patterns as appropriate, sequencing arguments and evidence logically to draw valid conclusions and articulate related outcomes (implications and consequences).

ENGL 1B Course Learning Goals (CLO)
Upon successful completion of the course, students will be able to

1. discuss complex ideas clearly, logically, persuasively.

2. state a clear position while taking into account other points of view, integrating both qualification and rebuttal as appropriate.

3. identify the different kinds of argument and the kinds of evidence appropriate to each one.

4. integrate research logically and ethically; analyzing, interpreting, synthesizing, and documenting information and ideas gleaned from reliable sources.

5. use appropriate paragraph and essay conventions to organize arguments into clear, readable logical sequences that are both coherent and persuasive.

6. control syntax, grammar, and punctuation to develop prose that is readable, logical, and clear.

7. identify formal argumentative structures (warrants, evidence, qualification, rebuttal, enthymemes and syllogisms) and distinguish common logical fallacies.

8. draw and assess inferences and recognize distinctions among assumptions, facts, inferences, and opinions.

ENGL 1B Course Content
**Diversity:** SJSU studies include an emphasis on diversity. Students will engage in integrated reading, writing, and oral assignments to construct their own arguments on complex issues (such as diversity and ethnicity, class and social equity) that generate meaningful public debate. Readings for the course will include writers from different ethnicities, gender, and class.

**Writing:** Students will write a series of essays informed by research and articulating fully developed arguments about complex issues. Assignments emphasize those skills and activities in writing and thinking that produce the persuasive argument and the critical essay, each of which demands analysis, interpretation, and evaluation. Writing assignments give students repeated practice in prewriting, organizing, writing, revising, and editing. This class requires a minimum of 6000 words, at least 4000 of which must be in revised final draft form. Assignments include both in-class writing as well as revised out-of-class essays.

Students will receive frequent evaluations of their writing from the instructor. In keeping with the core goal of A3—understanding the relationship between language and logic—evaluative comments will be substantive, addressing both the logic of the argument and the quality and form of the writing. Comments will encourage and acknowledge student success as well as note problems and suggest ways to improve.

**Logic:** Students will learn methods of argument analysis, both rhetorical and logical, that will allow them to:
- distinguish denotation from connotation, abstract from concrete, literal from inferential.
- identify logical structures (such as warrants, evidence, qualification, rebuttal; enthymemes and syllogisms) and distinguish common logical fallacies.
- recognize and evaluate assumptions underlying an argument.
- draw and assess inferences and recognize distinctions among assumptions, facts, inferences and opinions.
- distinguish the role of audience, context, and purpose in shaping argumentation strategies.
- evaluate rhetorical appeals to understand the role of emotion and ethos in relation to logic as part of effective argumentation.

**Oral:** Students will also complete oral communication assignments. These assignments may include individual presentations; group presentations; group, team, or dyadic discussions; debates; and similar speaking events. Evaluative comments for these assignments, addressing issues of both content and presentation, will substantively remark on the logic of the argument as well as the presentation’s delivery.

**Reading:** In addition to being an intensive writing course, ENGL 1B is also a reading course. Readings include useful models of writing for academic, general, and specific audiences; readings are used consistently with the course goal of enhancing ability in written communication and reading. The majority of the reading is devoted to analytical, critical, and argumentative texts. Instructors will help students develop and refine strategies for reading challenging, college-level material.

**Research:** A3 courses will include a library orientation conducted or approved by a trained librarian to introduce the library and basic research strategies that students will need to complete upper-division coursework, including locating materials, using them effectively (e.g., quoting, paraphrasing, summarizing), and citing them properly. A traditional research paper or a series of short essays informed by library research is required.

**Required Texts/Readings**

**Other Readings:** *The Everyday Writer* 5th ed. by Lunsford ISBN: 978-1-4576-0004-3

**Grading Policy**

Requirements for particular assignments will vary, but in all cases essay grades will reflect the paper’s effectiveness, which I have broken down into three major areas: content (this includes maturity and sophistication of thought), organization, and expression. All assignments, quizzes, and exams are graded on a traditional A-F scale.

The following are the criteria by which essays are typically evaluated in first-year writing courses:

An “A” essay is organized and well-developed, demonstrating a clear understanding and fulfillment of the assignment, written in a unique and compelling voice. It will show the student’s ability to use language effectively with a solid command of grammar, mechanics, and usage.

A “B” essay demonstrates competence in the same categories as an “A” essay, but it may show slight weakness in one of these areas. It will respond to the topic suitably and may contain some grammatical, mechanical or usage errors.

A “C” essay will complete the requirements of the assignment, but it will show weaknesses in fundamentals, such as development. It may show weakness in mastery of grammar, mechanics, usage, or voice.

A “D” essay will neglect to meet all the requirements of the assignment or may be superficial in its treatment of the topic. It may lack development or fail to stay on topic. It may contain grammatical, mechanical, and/or usage errors that interfere with reader comprehension.

An “F” essay does not fulfill the requirements of the assignment.

Total point value for the course is 1000. At the end of the semester, your overall course grade will be calculated as follows:
