COURSE DESCRIPTION

As environmental scientists and the communities they work with are predominantly concerned with developing an understanding of environmental problems and solutions, this course will provide a pragmatic approach to understanding social and environmental issues while unpacking methods for addressing such issues in context. Environmental research traditionally focuses on the study of the physical aspects of environmental systems. However, this course integrates an understanding of people and the environment in an examination of the social and environmental context of issues concerning individuals, organizations, communities, and environments. Some of the issues that may be considered include population growth, food production, air pollution, etc. All students are expected to select an issue of concern and participate in a collaborative examination of the issue through the lens of environmental studies. All project-based work will be discussed in the beginning weeks of the semester.

Learning Objectives
This course is designed to address a range of learning goals. These include 1) developing and refining an understanding of environmental issues; 2) understanding how environmental issues relate to social, economic, and political systems; and 3) identifying social, political, technological, and community-based mechanisms for promoting socially and environmentally resilient communities. The course also fulfills the following General Education (GE) learning objectives:

- Identifying and analyzing the social dimensions of society as a context for human life, processes of social change and continuity, the role of human agency in those social processes, and the forces that engender social cohesion and fragmentation. (LO#1);
• Placing contemporary developments in cultural, historical, environmental, and special contexts (LO#2);
• Identifying and understanding the dynamics of different populations and sub-populations (e.g. according to ethnicities, cultures, gender, age, or economic class) (LO#3);
• Evaluating social science information, drawing on multiple perspectives, and formulating applications appropriate to contemporary issues (LO#4);
• Recognizing the interaction of social institutions, culture, and environment with the behavior of individuals; and,
• Applying multi-disciplinary material to a topic relevant to social action at the local, national, or international level (LO#5).

REQUIRED BOOK
Hardcopy and electronic versions available for purchase though Spartan Bookstore and Cengage publishing website.

CLASSROOM PROTOCOL

Classroom Format
This is a face-to-face course that includes lectures and class discussions. Students are expected to attend all classes and be prepared for in-class discussion. Reading all assigned materials before class time will help to advance our discussions. Furthermore, class discussions will be extended through out-of-class interaction on Canvas, our interactive learning management system (LMS). All original Canvas posts are due Mondays. Replies to classmates are due Wednesdays. Finally, all students will be expected to present the results of a collaborative project in class.

Student Responsibilities
The keys to success in this class include (1) reading all assigned materials, (2) doing all assignments, and (3) participating in class and online discussions. All course activities are designed to engage students in a robust learning experience. All students should be prepared to devote up to six (6) hours of out-of-class time to course assignments and online discussions.

Office Visits
Come visit me! One of my favorite things to do is talk to students about environmental issues and research. We can chat about the course, address any questions you have about readings and/or assignments, or just talk about your interests more broadly.

Assignments and Examinations
The assignments provide a mechanism to learn a variety of materials, connect issues, gain skills and to express knowledge and research through class discussion, writing, and examinations. The information below indicates the value of each course requirement.

• Online Discussion/Film Analysis: 20% 
• Class participation: 20%
• Collaborative Field Investigation/In-class Proposal and Presentation: 30%
• Examinations (2 examinations, 15% each): 30%

Assignment Due Dates and Late Assignment Policy
All assignments are due at the time specified in the assignment description. Due to the interactive nature of this course, late assignments will not be accepted.

Course Grading
All examinations, presentations, class participation, and writing assignments will be graded on the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Score Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>98 - 100</td>
</tr>
<tr>
<td>A</td>

READING ASSIGNMENTS/COURSE SCHEDULE
Classroom discussions, exams, and reading assignments and due dates are listed on an accompanying Environmental Studies 001 Schedule.
FALL 2015 ENVIRONMENTAL STUDIES 001 SCHEDULE

PLEASE NOTE: This is a tentative schedule that may change during the course. Course content and assignments may be revised with fair notice. Check the course Canvas site Announcements section several times a week to stay current on assignments and due dates. Unless otherwise noted, all assignments must be uploaded electronically to the course’s Canvas website and all readings refer to textbook chapters in Miller and Spoolman. Please refer to Canvas for all Online Discussion and Online Assignment prompts and due dates.

| 1      | Aug 20, 2015 | Welcome to Introduction to Environmental Issues            | 1. Introductions  
2. In-class exercise: Geographical imagination                                                |
| 2      | 8/25 and 8/27 | Environmental Problems, Their Causes, and Sustainability. | 1. Read chapter 1 before 8/25  
2. Online Discussion: Your environmental interest  
3. In-class exercise: Select projects and groups                                              |
| 3      | 9/1 and 9/3 | Science, Matter, Energy, and Systems                       | 1. Read chapter 2 before 9/1  
2. Online Discussion: Science and society                                                     |
|        | 9/8 and 9/10 | Ecosystems: What are They and How do They Work?             | 1. Read chapter 3 before 9/8  
2. Online Discussion: An ecological approach                                                  |
| 5      | 9/15 and 9/17 | Human Population and Its Impact                             | 1. Read chapter 6 before 9/15  
2. In-class Activity: SJSU Community Sustainability Tour  
4. Online Assignment: Assignment due 9/14: Post your group field investigation proposal on Canvas |
| 6      | 9/22 and 9/24 | Food Production and the Environment                        | 1. Read chapter 12 before 9/22  
2. In-class Activity: Ending Hunger Now Video  
3. Online Discussion: Food for all                                                            |
| 7      | 9/29 and 10/1 | Water Resources                                             | 1. Read chapter 13 before 9/29  
2. Online Discussion: Watering California                                                      |
| 8      | 10/6 and 10/8 | Water Pollution                                             | 1. Read chapter 20 before 10/6  
2. Online Discussion: Is it safe to drink the water?                                           |
<p>| 9      | 10/13 and 10/15 | Midterm Review and Administration                           | 1. No Assigned Readings                                                                  |</p>
<table>

| 10   | 10/20 and 10/22 | Nonrenewable Energy               | 1. Read chapter 15 before 10/6  
2. Online Discussion: Nonrenewable energy and California |
2. Online Discussion: The energy future |
| 12   | 11/3 and 11/5  | Air Pollution                       | 1. Read chapter 18 before 11/3  
2. In-Class Activity: WeACT Video  
3. Online Discussion: What does air pollution have to do with it? |
| 13   | 11/10 and 11/12 | Solid and Hazardous Waste          | 1. Read chapter 21 before 11/10  
2. Online Discussion: Whose hazardous waste? |
| 14   | 11/17 and 11/19 | Urbanization and Sustainability     | 1. Read chapter 22 before 11/17  
2. In-Class Activity: Greening the Ghetto Video  
3. Online Discussion: Where’s the park? |
| 15   | 11/24 and 11/26 | Politics, Environment, and Sustainability  
No class November 26 | 1. Read chapter 24 before 11/24  
2. Online Discussion: How can we make a change? |
| 16   | 12/1 and 12/3 | In-class Presentations              | 1. No Assigned Readings  
2. In-class presentations |
| 17   | 12/8 and 12/10 | Final Review and Administration     | 1. No Assigned Readings |

UNIVERSITY POLICIES
DROPPING AND ADDING
It is VERY important that you pay attention to these dates. As an SJSU student, you are responsible for understanding the policies and procedures about add and drops, as well as what level of work qualifies for an incomplete. Refer to the current semester’s Catalog Policies section at http://info.sjsu.edu/static/catalog/policies.html. Add/drop deadlines can be found on the current academic calendar web page located at http://www.sjsu.edu/academic_programs/calendars/academic_calendar/. The Late Drop Policy is available at http://www.sjsu.edu/aars/policies/latedrops/policy/. Students should be aware of the current deadlines and penalties for dropping classes. Information about the latest changes and news is available at the Advising Hub at http://www.sjsu.edu/advising/.

ACADEMIC INTEGRITY POLICY
Academic integrity requires that students do not cheat or steal the ideas or works of others. Please familiarize yourself with the information on this website describing the SJSU Academic Integrity Policy: http://info.sjsu.edu/static/catalog/integrity.html. One serious form of cheating is plagiarism. According to SJSU’s Academic Integrity Policy, “…plagiarism is the act of representing the work of another as one's own without giving appropriate credit, regardless of how that work was obtained, and/or submitting it to fulfill
academic requirements.” Plagiarism in written assignments will result in NO CREDIT for the assignment. But, we’ll take measures together to prevent this from happening, especially by using TurnItIn.com. If you have questions about the official SJSU policy on plagiarism, please read the Academic Integrity Policy referenced above. You might also want to go through the simple plagiarism tutorial, developed by the library staff, found at this link: http://tutorials.sjlibrary.org/tutorial/plagiarism/selector.htm. If you are unsure what constitutes plagiarism, it is your responsibility to educate yourself, or to ask for clarification, before handing in written work.

DISABILITIES POLICY
It is the policy of San Jose State University to provide appropriate accommodations to students who have documented disabilities meeting the eligibility requirements of the Americans With Disabilities Act of 1990. This website provides information on how students need to document disabilities: http://www.drc.sjsu.edu/student_services/document_disability.htm.

PEER CONNECTIONS
The Peer Connections center is located in Room 600 in the Student Services Center. It is designed to assist students in the development of their full academic potential and to inspire them to become independent learners. The Center's tutors are trained and nationally certified by the College Reading and Learning Association (CRLA). They provide content-based tutoring in many lower division courses (some upper division) as well as writing and study skills assistance. Small group, individual, and drop-in tutoring are available. Please visit the Peer Connections website for more information at http://peerconnections.sjsu.edu.

SJSU WRITING CENTER
The SJSU Writing Center is located in Room 126 in Clark Hall. It is staffed by professional instructors and upper-division or graduate-level writing specialists from each of the seven SJSU colleges. Our writing specialists have met a rigorous GPA requirement, and they are well trained to assist all students at all levels within all disciplines to become better writers. The Writing Center website is located at http://www.sjsu.edu/writingcenter/.

Course Access
Some very basic login and navigation information is below, along with instructions on how to contact eCampus for technical assistance.

Logging in:
Login URL: https://sjsu.instructure.com

Please note that it should NOT have the “www” at the start of the URL like many other websites.

Username: SJSU 9-digit ID number.
Password: Self-generated password for your SJSUOne account

Courses:
Once logged into Canvas, you will see your course or courses listed in the Courses Heading on the top of the page. From the dropdown menu, click on the course name, and you will be entered into the course.
Help:
I strongly recommend that you visit the eCampus Canvas website at http://www.sjsu.edu/at/ec/canvas/. This website offers a number of Quick Start Learning Guides to help you navigate Canvas tools. Detailed guides can be found at http://guides.instructure.com/.

Please contact me directly with any questions regarding assignments and course materials.

For technical issues related to Canvas, please contact the eCampus Help Desk—(408) 924-2337. The Help Desk can give technical support for issues encountered in Canvas Courses.

Proficiency Expectations and Technical Support
Students are expected to have basic computer skills including basic proficiency with the operating system of their computer, software used in the course, use and access of the web and SJSU’s Canvas site. You should also know how to use Microsoft Word or a similar word processing software program, as well as be able to properly upload documents to the course website and attach documents to emails. This course does not teach computer and software skills. All questions regarding Canvas or related SJSU web or computer issues should be directed to the SJSU help desk.

Online Discussion and Course Check Ins
Students must participate in our virtual online discussions every week to earn full credit for these assignments. To get the most out of the class, check the site every other day.

Performing Well on Online Discussions
Posting and responding to the posts of other students make up a critical component of this course. A post is a short written composition, about one to two paragraphs in length, that responds to a discussion question put forward by me or your fellow students. We will discuss 13 topics this semester. On average, you will need to leave three (3) Posts for each topic.

For this course, a post is one to two paragraphs or more in length, but it isn’t just graded on length. Your content needs to be of high quality. This means that your post adds something important to the discussion. Just leaving a post that says, “I agree with what Bob said about water pollution” is not significant and won’t help your discussion grade. Generally, you will need three (3) posts per topic to get the majority of points for an online discussion assignment.
