Department of Environmental Studies at San José State University
FALL 2018 LECTURER POSITION ANNOUNCEMENT

The Department of Environmental Studies at San José State University seeks lecturers for several courses for the Fall 2018 semester. The semester begins August 21 and ends December 21, 2018. Visit the Department website at http://www.sjsu.edu/envs/ to review course descriptions. See the SJSU Fall 2018 Schedule of Classes at: //info.sjsu.edu/home/schedules.html.

General Qualifications: Applicants must have at least an M.S./M.A. (Ph.D. preferred) in Environmental Science/Studies or a related field. University-level teaching experience is preferred. Professional experience, in addition to the master's degree, will also be considered. Applicants must be well-organized, energetic, and able to provide a supportive learning experience to students with a wide variety of personal and professional backgrounds. See specific qualifications for the courses, below.

Life on a Changing Planet (EnvS 010); 1 section (3-unit course)
Specific Qualifications: Applicants must have a degree or strong background in the biological sciences. Demonstrated understanding of environmental issues and expertise in at least one environmental issue are essential.
Course Description: This course introduces students to basic knowledge and theory in the life sciences using the theme of environmental change to illustrate biological principles. This is a General Education B2 (Life Sciences) course and has required assignments and assessment procedures.
Schedule: Monday/Wednesday, 9:00-10:15am

Environmental Economics (EnvS 107), 2 sections (3-unit course)
Specific Qualifications: Applicants must have a relevant degree, substantial course work, as well as academic and/or professional background in environmental economics, its application to environmental issues, and its use in developing sustainable solutions to environmental challenges.
Course Description: This course, required for all EnvS majors, provides a foundation in the basic principles of economics that apply to environmental issues, and connects these principles to environmental policy, science, and public involvement. Students come to this class with one course in Economics (Econ 1B - Microeconomics); therefore, material must be scaled accordingly. Prerequisites: EnvS 001 & Econ 1B or instructor consent.
Schedule: Section 1 - Tuesday/Thursday, 9:00-10:15am; Section 2 - Tuesday/Thursday, 10:30-11:45am.

Environmental Restoration (EnvS 187) 1 section (4-unit course)
Specific Qualifications: Applicants should have a degree or strong background in Environmental Restoration or related field. Professional experience and knowledge of local restoration efforts is considered an asset.
Course Description: Interdisciplinary art and science of restoring lost or degraded habitats. Emphasis on the interplay of ecological principles, policy, public involvement and economics in the planning, implementation and monitoring of restoration plans. Field work and independent research required. Prerequisite: ENVS 001, GE B2 course and any 100W, or instructor consent.
Schedule: Lecture - Monday/Wednesday, 12:00-1:15pm; Field component - Monday, 1:30-4:15pm (or as negotiated with the class).

Field Studies in Water Resource Management (EnvS 270) 1 section (4-unit course)
Specific Qualifications: Applicants must have a Ph.D. in environmental studies, civil engineering, or a water resources-related field; professional or academic experience in field methods for water-related research including but not limited to water quality, drinking water and wastewater treatment, biological assessment, water infrastructure project planning, institutional and
organizational analysis, and public participation in environmental decision-making.

Course Description: An intensive field investigation of water resource agencies and projects to acquaint resource managers, environmental quality specialists and other interested students with projects and philosophies unique to particular geographic areas. Prerequisite: Upper division standing and ENVS 128 or ENVS 129, or instructor consent.

Schedule: Lecture - Thursday, 3:00-5:45pm; Field component - TBD.

Important Notes:
* Lecturers teaching 6 or more units in a semester are eligible for benefits from the University.
* Instructors selected will be provided course materials to help with class design, as available.

Application Procedures: For priority consideration, apply by July 9, 2018. Email a letter of interest, vitae/resume with names of three professional/academic references, and an informal copy of your graduate transcripts to lynne.trulio@sjsu.edu.

If needed, transcripts can be mailed to: Lynne Trulio, Department of Environmental Studies, San José State University, One Washington Square, San José, CA 95192-0115.

For more information, please email Dr. Lynne Trulio, Chair, Department of Environmental Studies, at lynne.trulio@sjsu.edu.

Institutional Information: The Department of Environmental Studies was founded in 1970. We grant B.S., B.A., and M.S. degrees and serve approximately 400 undergraduate majors and minors, and 50 graduate students. There are nine full-time faculty members, complemented by lecturers who teach specialty classes. Visit: http://www.sjsu.edu/envs/ for more information on the Department.

San José State University, California’s oldest institution of public higher learning, is located on the southern end of San Francisco Bay in downtown San Jose. San José State University enrolls approximately 30,000 students, a significant percentage of whom are members of minority groups. The University is committed to increasing the diversity of its faculty so that our disciplines, students, and the community can benefit from multiple ethnic and gender perspectives.

SJSU is an Equal Opportunity/Affirmative Action Employer committed to nondiscrimination on the bases of race, color, religion, national origin, sex, sexual orientation, gender status, marital status, laws. This policy applies to all SJSU students, faculty, and staff as well as University programs and activities. Reasonable accommodations are made for applicants with disabilities who self-disclose.

The latest San José State University Safety 101 Uniform Campus Crime and Security Report is available. You may request a copy of San José State University’s annual safety report by contacting the University Police Department at (408) 924-2222 or by visiting the website at http://www.sjsu.edu/police/crime_reporting/safety_report/.
