Solar Ambassador
(Nationwide Fellowship Program)

RE-volv
San Francisco, CA

Type: Full Time

The Solar Ambassador Program is a year long fellowship for undergraduates offered by RE-volv, a clean energy nonprofit organization. You can access the application and additional information here.

RE-volv’s Solar Ambassador Program is a unique opportunity for college students to develop key project management, outreach and communications skills while tangibly taking action on climate change through solar energy. Student teams will receive in depth training in solar energy policy, financing, crowdfunding and community organizing while working in their community to deploy a solar energy project for a local nonprofit. Applications can be found at re-volv.org/apply-solar-ambassador/. Applications close on April 7th. If you have any questions, please contact Ben Perlman at ben@re-volv.org.

How to Apply

Application available at re-volv.org/apply-solar-ambassador/
