Frequently Asked Questions

Who is selected for EOP Summer Bridge?
Summer Bridge eligibility is determined by a student’s Enrollment Category in Math and English. Only students in both M-IV (Math category 4) and W-IV (Writing category 4) are invited to participate in Summer Bridge.

To learn about the Enrollment Categories visit: www.sjsu.edu/supportedinstruction

Is the EOP Summer Bridge program required?
Yes. Students are selected to participate based on Enrollment Category or as a Special Admit (If you are a Special Admit, your admission to SJSU is conditional upon completion of Summer Bridge). Students selected for Summer Bridge are expected to participate.

What are the dates of the program?
Check-in for Summer Bridge Residential Students will be held on Saturday, July 7th, 2018, 10:30am-1:30pm in Washburn Hall. Check-out will be held on Friday, August 3rd, 10:30am-12:00pm.

Will I live on campus during the program? Commuter / Residential?
It depends on where you currently live. If you are from the local area (based on your zip code at the time of admission to SJSU) then you will be asked to participate as a Summer Bridge Commuter and you will not live on campus. If you are from outside of the local area then you will be required to live on campus as a Summer Bridge Residential student.

Can I work or maintain outside commitments during EOP Summer Bridge?
No. You must commit your time to the program. The majority of your time during the program will be spent in supervised activities, between the hours of 8am – 9pm (8am - 6pm for commuters). The EOP Summer Bridge schedule is very full and will not allow you enough time to work or have large outside commitments.

How much does the EOP Summer Bridge program cost?
There is no charge to you. All costs, including housing (for residential students), meals, summer tuition, textbooks, school supplies, programming, etc. are covered by the EOP Summer Bridge scholarship.

What should I expect?
+ Community Building and Service
+ Academic Skill Development
+ Personal and Leadership Growth
+ SJSU University College Credit
+ Completion of GE Area-E and Early Start
+ Major and Career Exploration
+ Become Familiar with Campus Resources and Community
+ Make a Smooth Transition from High School to SJSU!
