

## Preliminary Issues

9/30/08

- Bb Usage
- Box-plotting (concern for accuracy)
- This week

## Bb Usage

- Instructors can track Bb usage
- Reports generated every week
- Analysis reveals too much variability (infrequent and inattentive) in student usage
- Inattentive use  $\Rightarrow$  self-imposed disadvantage

## Part of Bb Tracking Report Sep 22, 2008 to Sep 29, 2008

## Box-plotting

- **Instruction**
  - 9/16 Lecture (slides 20 - 25)
  - Lab 3, item 3
  - Text pp. 75 – 77
  - Bb > Discussion > Chapter4 (HW3) > Seena's posting 9/28
- Instruction useless unless you bring a **concern for accuracy** (great care to understand the facts and relations fully and accurately)

## This Week

- Chapter 7
- Lab 5
- HW5 (due 10/7) – will not be collected but will be tested
- Buckle down for midterm (10/14)
