Annotated Bibliography: Corrupt Adult Authority in Young Adult Science Fiction and Fantasy

Science Fiction and Fantasy for Young Adults naturally has a focus on young adult characters and often that focus puts them in a world where most adults and people in authority are the enemies. Often, in these stories it is up to the young adults to counter and fight against a corrupt authority that has all of the power. Sometimes the corrupt authority is on a smaller familial scale and sometimes it is on a large government scale.

I chose to do an annotated bibliography because Young Adult Science Fiction and Fantasy is a genre that I really like and feel passionate about and have a lot of familiarity with. I chose this theme because it puts responsibility on a younger generation. In these books it is up to young adults to change the world and save their future.

Annotated Bibliography

“Here lives an orphaned ward named Lyra Belacqua, whose carefree life among the scholars at Oxford’s Jordan College is shattered by the arrival of two powerful visitors. First, her fearsome uncle, Lord Asriel, appears with evidence of mystery and danger in the far North, including photographs of a mysterious celestial phenomenon called Dust and the dim outline of a city suspended in the Aurora Borealis that he suspects is part of an alternate
universe. He leaves Lyra in the care of Mrs. Coulter, an enigmatic scholar and explorer who offers to give Lyra the attention her uncle has long refused her. In this multilayered narrative, however, *nothing* is as it seems. Lyra sets out for the top of the world in search of her kidnapped playmate, Roger, bearing a rare truth-telling instrument, the compass of the title. All around her children are disappearing—victims of so-called "Gobblers"—and being used as subjects in terrible experiments that separate humans from their daemons, creatures that reflect each person’s inner being. And somehow, both Lord Asriel and Mrs. Coulter are involved." (summary from www.goodreads.com)

Together the enlightened pair forge ahead on a perilous journey between worlds teeming with witches, angels, and sorcery--and uncover a deadly secret: an object of extraordinary and devastating power. All the while, Dr. Mary Malone builds a magnificent Amber Spyglass. An assassin hunts her down, and Lord Asriel, with a troop of shining angels, fights his mighty rebellion, in a battle of strange allies—and shocking sacrifice.

As war rages and Dust drains from the sky, the fate of the living—and the dead—finally comes to depend on two children and the simple truth of one simple story.” (summary from www.goodreads.com)

The Second Civil War was fought over reproductive rights. The chilling resolution: Life is inviolable from the moment of conception until age thirteen. Between the ages of thirteen and eighteen, however, parents can have their child "unwound," whereby all of the child’s organs are
transplanted into different donors, so life doesn't technically end. Connor is too difficult for his parents to control. Risa, a ward of the state is not enough to be kept alive. And Lev is a tithe, a child conceived and raised to be unwound. Together, they may have a chance to escape and to survive.

“*Incarceron* -- a futuristic prison, sealed from view, where the descendants of the original prisoners live in a dark world torn by rivalry and savagery. It is a terrifying mix of high technology -- a living building which pervades the novel as an ever-watchful, ever-vengeful character, and a typical medieval
torture chamber -- chains, great halls, dungeons. A young prisoner, Finn, has haunting visions of an earlier life, and cannot believe he was born here and has always been here.
