Moss Landing Marine Laboratories (MLML) and San José State University (SJSU) are seeking a marine scientist with broad interests in marine invertebrate zoology, ideally with a strong field component to their research, and possible expertise in molecular techniques, bioinformatics, and quantitative analyses. The successful applicant must have a strong commitment to quality instruction and pursue a vigorous research program involving MS students. A Ph.D. is required. Applicant materials should demonstrate an awareness of and sensitivity to the educational goals of a multicultural population as might have been gained through cross-cultural study, teaching, training and other comparable experiences.

**Responsibilities:**

Instructional duties will include teaching Marine Invertebrate Biology, possibly Marine Ecology (team taught) and/or Population Biology, and other courses in the applicant’s area of expertise. The successful candidate will be a SJSU faculty member but will located at the MLML facility, with all or most of their teaching/research conducted at MLML. Due to the remote location of MLML from the consortium campuses, the candidate will serve on a limited number of College or University level committees. We expect the candidate to attend and contribute to MLML faculty meetings that serve as the main institutional-decision making body. These include MLML committees (e.g. space committee, curriculum committee, and the RTP committee) and MLML Board of Governors meetings. Additionally, candidates are expected to attend and assist with laboratory-sponsored events, and lend support during promotional events (Open House, fundraising, etc.). Faculty members represent the institution and are expected to conduct themselves professionally in all external interactions and be collegial and supportive of other faculty members, staff, and students. The candidate must address the needs of a student population of great diversity in age, cultural background, ethnicity, primary language and academic preparation, through course materials, teaching strategies and advisement.

**Salary Range:**
Commensurate with qualifications and experience.

**Starting Date:** August 17, 2018

**Eligibility:**
Employment is contingent upon proof of eligibility to work in the United States.

**Application Procedure:**
For full consideration, send a letter of application, curriculum vitae, statement of teaching interests/philosophy, research plans, and at least three original letters of reference with contact information by **August 23, 2017** to

[apply.interfolio.com/42879](apply.interfolio.com/42879).

Please address any questions to:

Please include Job Opening ID (JOID) on all correspondence.

Moss Landing Marine Labs, a consortium of seven California State University Campuses and administered by San José State University, is located on Monterey Bay. The faculty emphasis is on integration of mentoring, teaching, and research; and the excellent facilities and staff contribute to make this an renowned program for a Master’s degree in marine science. Since its establishment in 1966, MLML and its leading scientists have contributed significantly to the advancement of the field of marine science, both in Monterey Bay and worldwide. MLML offers undergraduate courses but is primarily a graduate institution for Consortia students seeking a Master of Science degree in marine science. MLML/SJSU is an Equal Opportunity/Affirmative Action/Title IX Employer. Visit MLML’s website for further information: www.mlml.calstate.edu

San José State University is California’s oldest institution of public higher learning. The campus is located on the southern end of San Francisco Bay in downtown San José (Pop. 1,000,000), hub of the world-famous Silicon Valley high-technology research and development center. Many of California’s most popular national, recreational, and cultural attractions are conveniently close. A member of the 23-campus CSU system, San José State University enrolls approximately 30,000 students, a significant percentage of whom are members of minority groups. The University is committed to increasing the diversity of its faculty so our disciplines, students and the community can benefit from multiple ethnic and gender perspectives.

San José State University is an Affirmative Action/Equal Opportunity Employer. We consider qualified applicants for employment without regard to race, color, religion, national origin, age, gender, gender identity/expression, sexual orientation, genetic information, medical condition, marital status, veteran status, or disability. This policy applies to all San José State University students, faculty, and staff as well as University programs and activities. Reasonable accommodations are made for applicants with disabilities who self-disclose. Note that all San José State University employees are considered mandated reporters under the California Child Abuse and Neglect Reporting Act and are required to comply with the requirements set forth in CSU Executive Order 1083 as a condition of employment.

A background check (including a criminal records check) must be completed satisfactorily before any candidate can be offered a position with the CSU. Failure to satisfactorily complete the background check may affect the application status of applicants or continued employment of current CSU employees who apply for the position.

The latest San José State University Safety 101 Uniform Campus Crime and Security Report is available. You may request a copy of San José State University’s annual safety report by contacting the University Police Department at (408) 924-2222 or by visiting the University Police Department website at (http://www.sjsu.edu/police.)
