Welcome to the Circle!

In order to make your first day as seamless as possible—here are a few simple guidelines to follow while on campus.

- Make sure that your new Circle Portal is installed and open on your device...
  - Make sure that WiFi and Bluetooth are enabled.
  - Make sure that you have created your profile and uploaded your picture on TruYou!

- Keep your eyes on your device—you never know when you might get an important Zing!
  - Make sure you keep your device on vibrate, though... we don’t want to add noise pollution to the workspace.
  - Please only use your device for work related activities! ...We try to keep things “Inner Circle” as much as possible around here.

- We want you to be excited about being able to work here!
  - You’re going to be given a lot of new information today and we don’t want you to get overwhelmed!
  - In order for you to absorb everything in the most efficient manner, we ask that you try to reserve all your questions, and only speak to answer direct questions; you’ll have plenty of opportunities to share—we promise!

- We’re here to help.
  - If you ever need assistance (in any form) ask an employee wearing a Circle Shirt—we’ll get you on the right course right away!

- Remember:
  - There is no one right way to enjoy your time here at the Circle...
  - Be brave! Explore! Take risks!
  - And, most importantly, your participation is always valued.
THE CIRCLE’S SAN JOSÉ STATE UNIVERSITY
SATELLITE CAMPUS MAP

Please feel free to make full use of this list of rooms and areas on your first day at the Circle. Some rooms are still under construction, but here is a quick rundown of each space and what you can find there.

The Great Hall - Room 103
This is where the Circle announces our new technology and makes our major announcements; you can always find a new innovation that’s about to hit the market here.

The Gilded Age - Room 114
This is the main meeting location for fun business meetings and the location of our famous Plankton Meetings!

The Industrial Age - Room 137F
A smaller room for more serious business, walking by you might hear Stenton interviewing interns or Circlers planning their state-of-the-art projects.

The Renaissance - Rooms 136C and 136F
The Circle’s Customer Experience Department, you’ll see fellow Circlers hard at work and loving it!

The Health Clinic - Room 113
If you’re feeling a little under the weather, stop by the Health Clinic and our world class doctors will take care of you, absolutely free through your company insurance!

The Dorms - Rooms 136D and 136E
These rooms are the Circle’s famous on campus housing, available to all employees. Just make sure to book ahead, they’re notorious for filling up fast.

The Romantic Era - Outside Between MLK Library and the Circle’s campus
If you walk down the halls past the Renaissance and turn right you’ll come across where we hold our all inclusive parties! You never know what fun activities are going on out there, but you’ll always find Circlers there playing as hard as they work.

The Bay - Room 137
If you want to take a stroll next to the Bay, or maybe even go for a fun kayak ride, this soothing area was made for you.

Sasquatch Den - Outside in the trees
If you enjoy camping take a left at the Romantic Era when you get there, but just be warned, the people there don’t always agree with the Circle’s ideals.

Home - Room 137A
If for some reason you need to leave the Circle, make your way here, just remember that we will miss you while you’re visiting mom and dad!

Stewart’s Basement - In between the Renaissance
Where all the data of the first person to go transparent, Stewart, lives! Still under partial construction, but it is mostly available to us Circlers.

The Circle

A NOTE FROM THE DIRECTORS

From the Director of Creative Endeavors and Performative Research:
Here at The Circle, we believe the smartest person in the world...is the world. By following our own passions and interests through inquiry-driven research, we came to co-develop the universe that is The Circle. The scenarios and characters you encounter here have developed from each Circler’s empowered personal process of knowing. This co-constructed environment stands in stark contrast with other workplaces, where one might expect only to take orders from above. At The Circle, we value each and every individual’s contribution to the community. Through devising works collectively, we are able to see, hear, say and know more than might be known in the hands of one creator. We are ever grateful for our “founding father” Dave Eggers, the author of the blueprint from which our world was sprung. Our vision of an equitable performance landscape is almost complete… now all we need is YOU.

Zing,
Jessa Brie Moreno

From Director of Employee Experience:
Immersive theatre is a name people use to define an exciting growing phenomenon that presents storytelling in an entirely reimagined method. By casting each audience member as the main character in their own story, you can provide the opportunity for enriched engagement, immediacy, agency, and meaningful, individualized journeys.

“The Circle” is a first-of-its-kind endeavor that elaborates the world of Dave Eggers’ novel into an explorable reality. By providing a multiplicity of simultaneous and interweaving scenes, what you experience in totality is for you alone; it is special and unique.

This production also introduces and integrates innovative technologies that facilitate the “immersive” sensation. By using iBeacons to track audience movement and behavior through their smart devices, we can custom create a narrative that responds to the individual’s behavior. This shifting structure can forge environments that be engaged with on entirely new level and bring a new understanding to what theatre can represent and provide.

We ask that you enjoy this new type of theatre. Be bold and explore. Dare yourself to live within this world, and find new meaning in “The Circle.”

Cheers,
Joshua Marx

SJSU THEATRE ARTS

The SJSU Theatre Major emphasizes a strong foundation in acting, directing, writing, design, and entertainment technologies. Theatre Arts students study the history and practices of theatre with a particular focus on the interrelationship between theatre and contemporary performance culture. Theatre Arts’ production program gives students a wide range of performance opportunities from professionally-oriented main stage productions, to experimental and new-play production workshops, feature length film, broadcasting, web, and site-specific performances.

The Theatre Major prepares students to be analytical, imaginative, collegial problem-solvers, able to accommodate difference and work together to achieve common goals. It also provides strong pre-professional preparation for students specifically seeking careers in theatre and the many related fields of the entertainment and communications industry. We train performers, directors, writers, producers, designers, technicians, and managers who may apply their academic knowledge and practical training to a variety of professional opportunities.

For more information on SJSU Theatre and Film visit: sjsu.edu/trft
