

Furniture/Equipment Re-Use Program

The Furniture/Equipment Re-Use Program was created in an effort to redeploy furniture and equipment no longer utilized by SJSU departments. With this program, department have the option of transferring unused furniture and equipment to other departments or selling items at a Public Surplus Auction.

This document contains information on the process of surrendering surplus furniture and equipment. It also provides instruction to both SJSU departments and the public for viewing and bidding on San José State University furniture and equipment available for redeployment.

Surrendering Surplus Furniture/Equipment

Departments begin the process of surrendering surplus furniture or equipment by completing a [Property Survey Report form](#) and submitting it to the Property Office. The Property Coordinator will determine the proper course of action in handling of furniture or equipment no longer being used. If the furniture or equipment appears to have value, the Property Coordinator will forward the Property Survey Report to the ReUse Coordinator, who will put the property up for auction.

Public Surplus

Public Surplus is a user-friendly website designed to assist government agencies with the disposal of unused or unneeded furniture and equipment. Here, users can log in to view and bid on items for auction. San José State University is utilizing two types of internet auctions: Internal (Campus) and Public.

Internal (Campus) Auction

If a department would like to outfit their space for a cost savings (compared to buying new) consider purchasing items through the Internal Auction. Unwanted departmental items are posted on the Internal Auction website for 7-14 days.
