Enter the number and text of the SLO in this box (we post reports by SLO) All ChAD BA/MA SLOs

Initial Evidence of Student Learning:
All of our SLO data collected prior to and just following our most recent program review indicated that most students were meeting the learning criteria as measured by signature assignments. In the five years previous leading up to our program review we had made and reported changes to the curriculum with corresponding evidence of subsequent improvements in student learning. It has, however, been some time since we focused on the SLOs, signature assignments, and scoring rubrics.

Change(s) to Curriculum or Pedagogy:
At the end of AY 09/10 the faculty agreed to spend the entire AY 10/11 conducting a thorough review/revision of our SLOs; the content of all ChAD courses required in the major; and the signature assignments and scoring rubrics used for assessment. As our faculty meeting minutes for the year indicate, in AY 10/11 we revised the focus of several SLOs as well as reduced the number of SLOs. Those were sent to UGS for posting with the SJSU assessment materials.

In fall 11 we will complete the course/assignment/rubric review for the BA program and begin the process with the MA SLOs, an activity that we expect to complete much more quickly than was possible with the BA program materials. By the end of fall we will have finished our revision activities for both programs.

Evidence of Student Learning after Change.
Several of the BA/MA SLOs will be assessed in spring 2012. All will be assessed at least once before our next program plan review in spring 2014.
