General Education Annual Course Assessment Form

Course Number/Title __ Phys 123 / Physics of Animation _______ GE Area _______R__________

Results reported for AY __13/14______ # of sections __2________ # of instructors __1________

Course Coordinator: _____Alejandro Garcia_______ E-mail: ___algarcia@algarcia.org________

Department Chair: _____Michael Kaufman__________ College: ____Science______________

Instructions: Each year, the department will prepare a brief (two page maximum) report that documents the assessment of the course during the year. This report will be electronically submitted, by the department chair, to the Office of Undergraduate Studies, with an electronic copy to the home college by September 1 of the following academic year.

Part 1

To be completed by the course coordinator:

(1) What SLO(s) were assessed for the course during the AY?

SLO 2: Distinguish science from pseudo-science.

(2) What were the results of the assessment of this course? What were the lessons learned from the assessment?

This learning objective was assessed by the second term paper in the course. In Fall 2013 92% of the students met this objective and in Spring 2014 89% of the students met this objective, based on their receiving a passing grade on the paper.

(3) What modifications to the course, or its assessment activities or schedule, are planned for the upcoming year? (If no modifications are planned, the course coordinator should indicate this.)

We hope to implement the Canvas assessment tools for learning objectives over winter break.

Part 2

To be completed by the department chair (with input from course coordinator as appropriate):

(4) Are all sections of the course still aligned with the area Goals, Student Learning Objectives (SLOs), Content, Support, and Assessment? If they are not, what actions are planned? All sections of the course still aligned with the area Goals, Student Learning Objectives (SLOs), Content, Support, and Assessment.
