

# Master of Public Health

## Department of Health Science

Dear Colleagues

On December 13, 2007, the Council of Accredited MPH Programs (<http://www.mphprograms.org/>) presented a web cast in which Dr. Bernard Goldstein, chair of the National Board of Public Health Examiners, (BPHE) discussed the CPH exam. Doctor Goldstein provided a PowerPoint overview of the rationale and purpose for the exam that you may find very interesting. A short question and answer period followed his presentation.

The presentation was hosted on the *Illuminate Live* online platform that is used by the San Jose State University Master of Public Health Distance Education Program. Dr. Edward Mamary, the overall SJSU MPH Program Director and a member of the BPHE, was the host for this presentation.

A recording of this presentation is available online through the URL link below.

**Instructions:** Once you click on the URL and get into the Elluminate live Manager, click on the Council of Accredited MPH Programs link. Allow your browser to download the JNLP file – its a Java script file necessary for Elluminate to open the recording. It will not harm your computer.
