Course Description
This course examines abusive relationships, community response, justice system policy
and preventive interventions. Topics include child abuse and neglect, gangs, hate crimes,
rape, marital violence and elder & dependent adult abuse.

The Learning Objectives are for students to:
1. define and differentiate the abuse of power and the use of violence based upon
gender, ethnicity, race, religion, class, sexual orientation, disability and age
2. identify how historical, social, psychological, economic and political factors have
influenced the recognition of and response to each type of abusive relationship,
3. review current knowledge about the consequences of violence and effects on victims
from diverse backgrounds,
4. develop self-awareness about their own prejudicial attitudes and behaviors that
tolerate and promote abusive relationships,
5. explore and evaluate ways that individuals from diverse backgrounds and
communities can prevent and intervene in each type of abusive and violent
relationship,
6. Critique the current justice system response and propose ways in which greater
equality and justice can be achieved in each type of abusive relationship. This
involves reviewing
   (a) statutory laws,
   (b) role of law enforcement,
   (c) proceedings within criminal, family and juvenile courts and
   (d) auxiliary services offered by child protective, victim’s advocates and family
court agencies.

Course Content:
The topic is divided into five parts that range over the life span:
• infants and children’s neglect and psychological maltreatment, physical and sexual
  abuse
• neighborhood gang violence and hate crimes motivated by religious, racial and sexual
  orientation discrimination and prejudice during adolescence and young adulthood;
• date rape and sexual violence between intimate partners;

* Preferred contact number. I seldom, if ever, check the University voicemail.

Violence And Hate In The Family & Community

- violence, stalking and psychological terrorizing in dating, cohabiting and marital partnerships;
- Abuse of the elderly and handicapped in the family and care institutions.

Reoccurring themes are social discrimination on the basis of gender, religious, racial and ethnic background, socioeconomic status, disability, age and sexual orientation. The dynamics of power and control in relationships and the social and historical processes and institutions that legitimate the abuse of power provides the basic framework for the analysis of all violence and abuse. An understanding of how infants and children’s development is compromised by witnessing abuse and being the objects of abuse provides a complementary developmental understanding (or mechanism) to help explain the intergenerational cycle of abusive relationships.

3. Prerequisites. Students should have passed the Writing Skills Test (WST), have upper division standing (56 units), and have completed their CORE GE classes.

4. Advanced GE Course. JS136 has been approved for Area S. of Advanced General Education.

Required Reading:

Recommended Readings will be excerpts from the following books. These are available on reserve in the instructor’s office.

Course Requirements and Grading:
Two take-home written assignments are required during the semester. Each assignment involves viewing a movie or reading a book about family violence, undertaking library and internet research, and writing a six-page summary and analysis based on the information covered in the course. Papers are graded on a 45 point rubric. Late papers will be docked 5 points for each day late. *See separate handouts for instructions on these papers.*

Students are expected to participate in small-group discussions (during class time) on social policy issues, including an in-class mock hearing/trial and may be asked to give a brief oral report to the whole class. Ungraded, writing exercises will also be included in
class after viewing video segments from documentary films or as part of small group discussions.

A mid-term and a final exam will be a combination of multiple choice, true/false, fill-ins and short essays. This will be based on assigned readings and lecture material. Grades will be made up of 30% for each exam, and 20% for each report. (The academic standards for each grade is included.)

**Extra Credit**

Students can improve their grade up to a half letter grade by ONE of the following:
- Attending a hearing in juvenile dependency court
- Attending court proceedings in cases of intimate partner violence in Family or Criminal Courts
- Participation in approved University programs relating to topics covered in the course.

*A letter of introduction will be provided for those students wishing to observe court proceedings and course of conduct discussed. Notify the instructor if interested.*

Extra credit is available for articles that are summarized in a three page paper on how the article or court proceeding reflects the issue of and social response to violence in the family and community. Papers must be submitted on or before the last day of class.

**Teaching Philosophy:** This class combines reading, lectures and video segments to present the conceptual material. Regular small group discussion and group exercises during class time are used for students to critique the readings, lectures and videos. These small group activities and individually written assignments also enable students to examine their own attitudes, and cultural and family beliefs about abusive relationships. The focus of these small group discussions is on developing practical, creative and effective community and justice system responses for preventing and intervening in violence that is respectful of diversity and achieves greater justice and equality.

In accord with departmental policy, make-up exams and acceptance of late reports after the due date will be provided only in extreme cases and only where appropriate documentation is provided. Make-up or re-takes of the mid-term exam can only be done at the time of the final exam.

**Academic Honesty:** In accordance with University policy this course strives to uphold academic honesty. Page 40 of the University catalogue clearly details University policies regarding cheating and plagiarism. Cheating includes copying, submitting work previously graded in another course or submitting work simultaneously in two courses (unless otherwise approved), altering or interfering with grades, and use of surrogates for examinations. Plagiarism involves “representing the work of another as one's own without appropriate credit.” (S98-1, p2). If a student is suspected of academic dishonesty, the student will be instructed to meet for a mandatory conference with the instructor. Further academic and administrative sanctions will be considered based on the infraction.
