COURSE DESCRIPTION & OBJECTIVES:
This course will systematically cover the basic elements of social science research methodology. We will learn about the necessary components of research methods to understand, critique, design, and carry out sound research. This class will cover: critically reading research on justice issues, conceiving a workable research question, selecting an appropriate method for the research question, designing a research study, ethical issues faced when conducting social science research, and how to make sense of research findings.

COURSE REQUIREMENTS:
In addition to participating in the class discussions and activities on Tuesdays and Thursdays, you need to: complete the required readings prior to the class for which they are assigned; complete a cumulative research project proposal that will be the compilation of several interrelated assignments done throughout the semester, and take 1 in-class quiz and two in-class objective format exams which will cover the readings and lecture materials. The required projects can be on any of a range of topics, depending upon your interests.

REQUIRED TEXTS:

GRADING, MISSED EXAM & LATE ASSIGNMENTS POLICY
Only legitimately excused missed exams can be made up. My policy for what constitutes legitimate excuses generally include the following: your own serious illness or injury (documented by a physician); a documented death in your immediate family; unavoidable, documented, schedule conflict for SCHOOL related purposes (i.e., required by athletic team to be on the road). Only under extreme and unavoidable emergency circumstances will you be able to make up an exam for a legitimate excuse if you have NOT given notice of your
absence before the actual scheduled exam period. You may only make up 1 scheduled test during the semester, so if you are not in attendance for more than 1 scheduled exam or quiz, you will receive zero points for any additional missed exams. Missed quizzes and midterms will be taken on the final scheduled day of class during the class period. The make-up tests may be in a different format than the original exams. The missed final period will be arranged if necessary, and may also be in a different format than the original final.

The assignment deadlines are FIRM deadlines. NO LATE ASSIGNMENTS WILL BE ACCEPTED unless there is a documented emergency which prevents you from turning it in. Computer / printer breakdowns are generally NOT legitimate emergencies. The final project will be graded down 10% for each CALENDAR day late. You are responsible for knowing any schedule changes for exams or assignment due dates that were announced in class, even if you were not in attendance.

Please familiarize yourself with the SJSU policy on academic dishonesty, available in pdf format at: http://www.sjsu.edu/academic.html. It is also published in the SJSU print catalog. Use those rules and definitions to guide your conduct in this class.

Your final grade for the course will be based upon your performances on the in-class exams, the assignments, and the final project, as follows:

Quiz: 50 points maximum
Midterm: 200 points maximum
Final: 200 points maximum
Assignments: 200 points maximum (5 assignments x 40 pts.)
