Course Description: This is an integrated writing and research course designed to develop advanced communication skills, which will be valuable for a career in criminal justice. Effective written and oral communication skills are vital to success in any career, but are particularly important to the criminal justice professional. The best method for improving these skills is through extensive practice, critical feedback, revision, and examination of models of excellence in communication. Upon successful completion of this course, students will be skilled at communicating information to criminal justice professionals and to general audiences in a variety of formats.

The students of AJ 100W will develop:
- a clear, concise, and effective writing style, exhibiting the mastery of the mechanics of writing;
- proficiency in research strategies and methodologies necessary to communicate complex ideas effectively and appropriately to both general and specific audiences
- the ability to read, interpret, and critically analyze scholarly literature within the field, and to respond critically both orally and in writing
- the ability to gather diverse supporting evidence from a variety of sources and appropriately cite these sources using APA Style format
- the ability effectively and cogently to express a position, using organized, clear and concise wording in a variety of formats to target different audiences

Prerequisites: English 1A and 1B or equivalent, and passing score on the Writing Skills Test.

Merriam-Webster’s Collegiate Dictionary (10th edition or newer). Recommended

Course Requirements: To satisfy the University’s Written Communication II requirement, students will be required to write a minimum of 8000 words with an overall grade of “C” or better. Students will also make at least two oral presentations, and will evaluate classmates' writing on a variety of assignments. Assignments in AJ100W will include: expository responses to problem statements, a review of scholarly literature, an argumentative research paper, interviews of professionals in the criminal justice field, a brief of and response to an appellate court decision, an oral presentation in the form of a debate, various correspondence, a professional resume, and a final examination. All of these assignments are designed to provide practice in critical reading, thinking, and writing strategies necessary to plan and execute purposeful writing. Purposeful writing includes analyzing research, generating ideas, developing a thesis, organizing and writing a first draft, revising for form and content, editing for grammar, punctuation, spelling and usage, and evaluating, using, and documenting supporting materials. There will also be vocabulary and grammar quizzes.

Important: If you need course adaptation or accommodations because of a disability, or if you have emergency medical information to share with me, or if you need to make special arrangements in case the building must be evacuated, please see me during office hours.
**Course Grade:** All writing workshops are graded ABC/NC. Performance that merits a grade lower than a "C" will receive a "No Credit". Please note that University and Departmental guidelines require a serious and compelling reason to drop a course. A course cannot be dropped because of grades alone.
