Office: Room MH529
Office Hours: Tuesdays/Thursdays 9:30-10:30am and 3 – 5pm
Office Telephone: no phone (do not leave messages on the listed number)
Email: alamedagroup@mindspring.com (Use email as primary contact medium.)
Class Meeting Days/Hours: Tuesdays and Thursdays, 10:30-11:45am, Room MH520

Course Description:
This course covers the history, missions, organization and practices of international intelligence agencies, with special emphasis on the relationship of the intelligence community to the justice system. The historical backdrop will be the Cold War between the former Soviet Union and the US/UK. Current issues will center on the recent 9/11 Commission reports and the reports of various other committees on the performance of the FBI and CIA in collecting, analyzing and disseminating intelligence.

Required Text:

Course Format:
The primary mode of delivery of this course is lecture. Students should augment their lecture notes with outside sources, as indicated in lectures and in the text. There will be one mid-term exam, two quizzes, and a final exam. There will also be a required research paper on a topic relevant to intelligence. Oral reports to the class will be assigned to student groups, and will be evaluated to satisfy the class participation grade.

Class Participation: Students are responsible for keeping up with the assigned reading, and being prepared to discuss it in class. Students will be divided into teams to research and report orally to the class on current events or special interest topics that are relevant to intelligence. Each team will have at least two weeks to prepare. All team members must participate to receive credit.

Quizzes and Exams: Examinations and quizzes will cover material from the lectures, the assigned readings, and from the oral reports. In addition to the text readings, individual articles of special interest may be chosen from time to time for reading assignments. The student’s grade will be determined by the results of one mid-term exam, two quizzes, one paper, and class participation (oral reports), as follows:

</table>
A SCANTRON form (Form 882-L) will be needed for all quizzes and exams. A BLUE BOOK will be needed, as well, for the mid-term and final exams.

**Research Paper**
The student may choose the topic (subject to instructor approval), or select a topic from a list supplied by the instructor. The research assignment will be submitted in two installments as follows:

- **Due March 3:** A one-page statement of the topic, beginning with a one-sentence thesis statement, followed by a short summary of research data in support of the thesis, and, on a second page, a references list (in APA style). Sources need not be cited in the summary text, as this is similar to an abstract. (References must number at least five, two of which must be scholarly or expert professional sources, and none anonymous.)

- **Due April 7:** Final paper, including thesis statement, data, one-page conclusion, (with evaluation of data in light of your thesis), and references list. (Length: 4 full pages, not including cover page and references list.) The previously submitted one-page topic statement must be attached. The final paper must be in hard copy. (Details on grading will be furnished in class.)

The one-page topic statement, (with references list), and final version must be submitted on the dates indicated, or penalties of 5 points for each class day late will be assessed. Both must be in 12 point “Times” font, with one inch margins.

For APA style citations see internet APA sites (for example, <www2.sjsu.edu/orgs/pkp/resources.htm>. Then click on "APA Citation Style – Cornell University").

---

**Papers submitted after April 26 will not be accepted.**

---

*In accordance with University policy, any student caught cheating or plagiarizing can be given a score of “0” for that exam or paper, and, at minimum, will be reported to the Office of Academic Affairs with appropriate recommendations for disciplinary action.*

**Extra Credit Work**
After the mid-term exam, extra credit work may be done to improve your grade on that exam only, up to 20 points. The work will be selected and assigned by the instructor, and will be graded for quality. Further details will be announced at mid-semester.

**Missed exams and quizzes:**
Missing an exam or quiz is a serious matter. Taking an exam after others have taken it may give one an undue advantage. If a student misses an exam or quiz, a make-up exam or quiz will be afforded. There will be a five-point deduction from the exam or quiz grade, unless the student has a medical doctor’s note explaining the absence on the scheduled exam day, or documentation of the student’s participation in a University-sponsored activity, or documentation of a serious family emergency.

Failure to complete any of the exams, quizzes or the paper will result in a score of “0” for that assignment, or an “F” for the course, at the instructor’s discretion (depending upon the circumstances). Extra credit points cannot be used in lieu of any of the required assignments.
