Course Description:

This course will systematically cover the basic elements of social science research methodology. We will learn about the necessary components of research methods to understand, critique, design, and carry out sound research. This class will cover: critically reading research on justice issues, conceiving a workable research question, selecting an appropriate method for the research question, designing a research study, ethical issues faced when conducting social science research, and how to make sense of research findings.

Upon completion of this course, you will be able to: identify, locate, read, and utilize scholarly published research on criminal justice and related social science issues; understand which methods are appropriate for different kinds of research questions; pose a research question, and design an appropriate study to answer that question; and evaluate and critique social science research.

Prerequisites: (1) UPPER DIVISION STANDING, AND (2) COMPLETION OF BUS 90, STAT 95, SocS 15, OR SOCI 102 (OR EQUIVALENT), OR INSTRUCTOR CONSENT

Course Requirements:

In addition to participating in class discussions and activities, you will be required to: (1) complete the assigned reading prior to the class meeting for which they are assigned; (2) complete a cumulative research project proposal that will be the compilation of several interrelated assignments throughout the semester; (4) take a midterm exam; and (5) take a non-cumulative final exam. Students will also be required to register on www.turnitin.com.

Attendance will be taken at the start of every class meeting, and you should always bring your textbook to class.

Course Drop Policy:

Instructors are permitted to drop students who fail to attend the first two scheduled class meetings, and who fail to inform the instructor, prior to the second class meeting, of the reason for any absence and their intention to continue in the class. However, please note that instructors are not required to drop a student from their course.

It is the student's responsibility to make sure classes are dropped. Tuesday, February 3, 2009 is the drop deadline. If you decide that you wish to drop the course, please be sure to do so prior to the drop deadline. Students who remain on the class roster, but discontinue coming to class, will receive either a "Withdrawal Unauthorized – WU" or an "F" for the course depending on the circumstances and timing of departure.

Academic integrity:

Academic integrity is essential to the mission of San Jose State University. As such, students are expected to perform their own work (except when collaboration is expressly permitted by the course instructor) without the use of any outside resources. Students are not permitted to use old tests or quizzes when preparing for exams, nor may they consult with students who have already taken the exam. When practiced, academic integrity ensures that all students are fairly graded. Violations to the Academic Integrity Policy undermine the educational process and will not be tolerated. It also demonstrates a lack of respect for oneself, fellow students and the course instructor, as well as damaging the university's reputation and the value of the degrees it offers. Violators of the Academic Integrity Policy will be subject to failing this course, and being reported to the Office of Student Conduct & Ethical Development for disciplinary action which could result in suspension or expulsion from San Jose State University. Policies and procedures regarding add/drop, academic renewal, withdrawal, and academic integrity can be found at: http://sa.sjsu.edu/student_conduct

Missed Examination Policy:

Missed exams can only be made up if a legitimate absence can be substantiated. Legitimate excuses generally include the following: your own serious illness or injury (documented by a physician); a documented death in your immediate family; unavoidable and documented conflict that is school-related (i.e., required by athletic team to be on the road). Only under extreme and unavoidable emergency circumstances will you be able to make up an exam if you have not provided a legitimate excuse for your absence upon your return to class. Missed exams will be made up on agreed upon date and time, and will be a different format than the original.

Submission of Proposal Assignments and the Final Research Proposal Policy:

E-mail submissions of assignments must include the following in the file name of the document: (1) Your first and last name, (2) the name of the assignment (i.e., Assignment#1), and (3) if it is a revision (i.e., Assignment #1 rev). Due dates for all assignments, including the final project, are firm deadlines unless formally changed by the instructor via e-mail and/or announced in class. Students are responsible for knowing when assignments are due, and for any schedule changes, even if you are absent. Late submissions will only be considered for full credit if credible documentation is provided. The instructor has the discretion to deduct points for each day an assignment is late, or refuse to accept the assignment altogether.

Determination of Grades:

Your final grade for the course will be based upon: weekly participation, performance on the individual proposal assignments, performance the midterm and final exams, and your final research proposal.

The Proposal Assignments (#1 - #4), and the Final Proposal will be graded based on the following criteria: (1) Following directions (proper format, timely submission); (2) College level grammar, punctuation, spelling, and APA in-text citations and references (where applicable); and (3) Content (submission of a complete assignment)
