Justice Studies Department Reading and Writing Philosophy

The Department of Justice Studies is committed to scholarly excellence. Therefore, the Department promotes academic, critical, and creative engagement with language (i.e., reading and writing) throughout its curriculum. A sustained and intensive exploration of language prepares students to think critically and to act meaningfully in interrelated areas of their lives—personal, professional, economic, social, political, ethical, and cultural. Graduates of the Department of Justice Studies leave San José State University prepared to enter a range of careers and for advanced study in a variety of fields; they are prepared to more effectively identify and ameliorate injustice in their personal, professional and civic lives. Indeed, the impact of literacy is evident not only within the span of a specific course, semester, or academic program but also over the span of a lifetime.

Required Texts/Readings

Course Requirements and Assignments

Online Discussion (20%): Each week there will be an online discussion, through Canvas, on specific readings and key issues or current events related to that week’s overall topic. Students will be expected to provide their viewpoint and critically discuss the implications of the issue or event to our understanding of cybercrime and how it is addressed by societies. This assignment will specifically address CLO’s 1 and 3.

Online Quizzes (10%): Each week there will be short quiz, through Canvas, on the readings for that week’s topic. The quizzes will be comprised primarily of multiple choice and true/false questions. Students will have a week to complete the quiz. This assignment will specifically address CLO’s 1 and 3.

Writing Assignment #1 –Ethics in Research (20%): Ethics is an important component of conducting research. While we have made advancements in how to conduct ethical research, there are several studies from the past century that have had a profound impact on ethical standards. Students will write a 6 to 8-page paper investigating one of these studies, discussing what the purpose of the study was, what ethical considerations needed to be considered, and the important results that came from this study despite the questionable ethics. This assignment will specifically address CLO’s 2 and 3.

Writing Assignment #2 –Research Proposal (30%): Prior to conducting any research, it is important to have a game plan for how the research will be carried out. The culminating assignment for this course will be an 8 to 10-page paper where students will propose a research project, outline how the study would be conducted, and what issues would need to be addressed. More details about the requirements of this assignment will be provided in-class. This assignment will specifically address CLO’s 1, 2, and 3.

Final Examination (20%): Students will be administered a final examination, worth 20% of their final grade. The final exam will occur during the scheduled exam period in December. It will be closed book and will cover material from lectures (including all media presented) and assigned readings. It will be comprised of multiple choice, true and false, and short answer questions. This examination will specifically address CLO’s 1 and 3.
Grading Policy

In order to receive a grade for this course, all course requirements must be met and every assignment must be completed. Failure to complete any one assignment may result in a failing grade for the course. Deadlines are firm. Late assignments/papers will not be accepted for full credit (without extenuating personal circumstances due to own or family health; or other university recognized excuse). In such cases, appropriate documentation must be shown to the instructor. Late assignments/papers will lose 10% for every calendar day that they are late, including weekend days.
