Course Description

This course provides the student with the opportunity to learn and develop the basic individual and team skills, playing rules, offensive and defensive skills of the sport of volleyball.

It is recommended that participants have a complete medical examination. While rigorous physical exercise has many benefits, it may also present hazards for certain groups of individuals. Individuals who choose not to have a medical examination should be aware of the risks and hazards and understand that participation in this class is at your own risk.

Course Goals and Student Learning Objectives

Following activities and assigned reading, students will be able to demonstrate through class activities/assignments, skill tests, and written exams:

- Knowledge of fundamental skills, technique, and rules of volleyball.
- Proficient knowledge of the skills covered and have the ability to execute said skills.
- An understanding of the history, rules, strategies, current research, safety and etiquette associated with volleyball.
- An understanding of the mental and physical health benefits to be derived from volleyball.
- A positive change in personal fitness as it relates to components such as muscular strength and endurance, body composition, balance, coordination, and agility.
Activity Program Learning Outcomes

After completion of the physical activity graduation requirement, students shall be able to:

- Demonstrate proficiency in the execution of the motor/sport skills appropriate to the specific activities completed.
- Identify and/or explain the applicable history, rules, strategies, current research, safety, and etiquette related to the specific activities completed.
- Identify and/or explain the benefits of physical activity as related to physical and mental health.

Text/Readings

Course information will be discussed/distributed in class and or/emailed to the student.

Course Notes

- Students are expected to arrive on time and participate fully in all activities throughout the class period.
- Turn cell phone off and put away for the duration of the class.
- Interactions with classmates and the instructor are expected to be respectful at all times.
- Appropriate athletic clothing and court shoes are required. See KIN policy.
- This is an activity class and by its nature you can only benefit and experience change by physical participation in the activity. For whatever reason, should you be unable to participate in class to the degree that your final grade will be unacceptable, you must drop the class or take an incomplete. Attending classes in a timely manner. Excessive tardiness will not be tolerated and will affect grade accordingly due to missed participation quizzes.
- Written tests, skill assessments cannot be made up except under extenuating circumstances. Assignments received or completed late will receive a deduction of 2 points for each day late. A skill assessment must be taken in class at the time given and cannot be made up. A skill assessment will only be recorded if activity for that class period is also completed.
- Drop requests will not be accepted after the SJSU drop deadline.
- In order to receive an A+ grade you cannot include a make-up performance quiz.
Course Requirements and Grading Policy

| Performance quizzes (10 x 10 points each) | 100 points (50%) |
| Tests (2 X 20 points each)             | 40 points (20%)  |
| Final                                  | 15 points (7.5%) |

| TOTAL points possible                  | 200 points (100%)|

Tests:

- Multiple choice and/or short answer.
- Tests are based on volleyball rules, strategies, court layout and general play, etc.

Final:

- Will consist of items covered in tests, performance quizzes and class lectures, etc.

Assignments/Projects:

- **Paper (15 points)** – Write a 1-2 page paper on the history of a current NCAA top 25 program, either male or female. Paper can be on any division level and within the past 10 years. Point out history, success, conference affiliation, coaching staff and top players.

- **Skill assessments (15 points each)** will be conducted in class, one pre-assessment near the beginning of the semester and one post-assessment near the end. Assessments will test basic skills - passing, setting, serving - and will be graded on rate of success as well as form while performing the skill. **Skill assessments cannot be made-up.**

- **Performance quizzes (10 points each)** – Topic and questions will be announced at the beginning of class and answer sheets will be collected prior to the end of class. Instructions will be given within the first 15 minutes of class. Arrival after instructions have been given will result in a maximum score of 2 points. No performance quizzes will be handed out after 25 minutes past the start of class.

One performance quiz can be made-up by completing one of the following and must be turned in by the last regular day of class of the semester. One performance quiz may be made up if the make up results in the difference in a grade.

1) Watch a live or media broadcast volleyball game high school level or higher. Try and identify which type of offense one team is implementing, and describe one teams defensive alignment. Describe the perceived strengths and weaknesses of one of the team you are observing. In a one to two page typed paper summarize your observations. Then clearly explain how you might implement some of the positive attributes of what you have learned into your own game.

2) Write a one to two page paper on the U.S. Men’s and Women’s National Team history at Olympic Games and World Championships. Examples of what should be included: coaching history, outcomes, notable players, etc.
Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course. This would include preparing for class, participating in course activities, and completing assignments/projects. Generally this will amount to 1 hour a week outside of class.
