Course Description: Continued expansion of your knowledge, understanding and skills with yoga practices and techniques. Asanas will be at a more advanced level. We will be practicing more per class, hold them longer, more variations and more individual choices. The style that I teach emphasizes the inner deeper qualities of yoga practice as well as practicing the asanas with open aware alignment and mindfulness.

Prior experience is required.
If you have any injuries or medical conditions that will prevent full participation check with professional to determine if it is advisable for you to take this class.
You should feel prepared for this level of class.
We will start out for the first few weeks at a pace that may seem slow, so everyone can have correct technique, style and alignment. Then we will move into asanas that are at a level that you may be expecting for this class. By the end of the semester there will be some asanas that will be optional for most people.
