Course Requirements and Textbooks
3. A current and fast Internet connection like DSL, Cable, or FIOS in order to access websites and Canvas
4. An activated SJSU library account

Instructional Delivery Format
The Canvas learning management system provides a set of instructional tools to facilitate learning, communication, and collaboration between an instructor and students that will most often be asynchronous in nature. Regarding Canvas-related problems, you may get assistance by contacting the Canvas help desk by email or by phone (924-2377) during normal working hours.

Student Responsibilities
1. Dropping and Adding: Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Refer to the current semester’s Catalog Policies section at http://info.sjsu.edu/static/catalog/policies.html. Add/drop deadlines can be found on the current academic calendar web page located at http://www.sjsu.edu/academic_programs/calendars/academic_calendar/. The Late Drop Policy is available at http://www.sjsu.edu/aars/policies/latedrops/policy/. Students should be aware of the current deadlines and penalties for dropping classes.

Information about the latest changes and news is available at the Advising Hub at http://www.sjsu.edu/advising/.

2. Online Participation Policy: Online participation is required throughout the course. Read the assigned texts (readings and exercises/practices at the end of each chapter) each week. Login to the course at least twice a week, and complete scheduled assignments (reading, discussions, written assignments, and assessments). Students should observe conventions of online netiquette when communicating online. Check your Canvas e-mails regularly, a minimum of twice a week for handouts, assignments, announcements, and changes to the class schedule.

3. Assignments: Complete all written assignments in professional standards that prevail in the working world, such as promptness, neat appearance, and correct mechanics.

Promptness: You will be given exact due dates and times to submit your homework assignments. I will not accept excuses for turning in late assignments because of technical problems. While technical problems do occur, they are usually not valid reasons for failing to submit work on time. Students are responsible for allocating enough time to complete homework and are responsible to get up to speed on computer technologies and applications that are unfamiliar to you.

Failure to turn in assignments by the due date, or timely participation in online discussions may result
in the student failing the course. Emergencies should be communicated and documented to the instructor as soon as possible, and before the due date.

All assignments must be submitted through Canvas. A class week is defined as the period of time between Sunday and Sunday. For all assignments, the due date is Sunday night at 11:59PM (see Canvas for exact due dates). Homework feedback will be given electronically through Canvas. Late submissions are not accepted without a doctors not or proof of emergency.

**Format:** All work should be typed, using appropriate format – standard margins and spacing. In general, letters and memos should be single-spaced with a blank line between paragraphs in 11 or 12-point Times New Roman. Your assignment should be saved in MS Word (.doc, .docx) other formats (e.g., .pages) are not accepted.

**Citing Sources:** All sources used in your formal research writing assignments should be cited using APA citation.

**Mechanics:** Errors in spelling or grammar will affect the effectiveness of communications. My grading will reflect the seriousness with which these matters are often viewed in the working world. Students are assumed to have a good understanding of basic business English grammar rules. These will not be covered extensively in class. Students who need special assistance with any of these skills should seek extra help. See Tutoring Resources information below.

**Back-up Copies:** Save backup copies of your work on your hard drive. Technological reasons, such as computer crashes, or problems with Internet access, are unacceptable reasons for late work. Keep in mind, this is an online class and you must have a reliable Internet access.

**Feedback for Assignments:** After completing your assignments, **be sure to read my feedback.** This will help you perform better on your future assignments.

4. **Study Procedures:** Unlike an on-campus course, an online course obviously offers you more flexibility, but you should approach such a course in a systematic well-organized fashion. The key is to establish a regular work schedule and guard it, if possible, and treat your schedule just as you would treat the regularly scheduled classroom hours in the usual on-campus course. You’re advised to:
   - Read the assigned materials before you begin work on specific assignments (e.g., assessments, discussions, and writing assignments)
   - After reading a chapter, review the key concepts and test yourself to see if you understand the concepts by doing some exercises at the end of the chapter.
   - Begin work on your writing assignments only after you have read all the assigned readings. You may need to consult other chapters/Appendices in addition to the assigned chapter.

5. **Conferences:** Students who have difficulties in the course are encouraged to contact me as early in the semester as possible for discussion. Take the initiative to see me when you have questions about an assignment or writing problems, want to resolve differences about grades, or suggest ways to improve the course.

**Evaluation System**
Students will be evaluated on class preparation and participation, assignments, tests and the final. The final grade is determined by the number of points earned from these areas. The total points earned will be divided by the total points possible for a final percentage. This class is not graded on a curve.

**University Policies**

1. **Academic integrity statement**
   
   Your commitment as a student to learning is evidenced by your enrollment at San Jose State University.
   
   The [University’s Academic Integrity policy](http://www.sjsu.edu/senate/S07-2.htm), located at http://www.sjsu.edu/senate/S07-2.htm, requires you to be honest in all your academic course work. Faculty members are required to report all infractions to the office of Student Conduct and Ethical Development. The [Student Conduct and Ethical Development website](http://www.sjsu.edu/studentconduct/) is available at http://www.sjsu.edu/studentconduct/.

   Instances of academic dishonesty will not be tolerated. Cheating on exams or plagiarism (presenting the work of another as your own, or the use of another person’s ideas without giving proper credit) will result in a failing grade and sanctions by the University. For this class, all assignments are to be completed by the individual student unless otherwise specified. If you would like to include your assignment or any material you have submitted, or plan to submit for another class, please note that SJSU’s Academic Policy S07-2 requires approval of instructors.

2. **Campus policy in compliance with the Americans with Disabilities Act**

   If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 requires that students with disabilities requesting accommodations must register with the [Disability Resource Center](http://www.drc.sjsu.edu/) (DRC) at http://www.drc.sjsu.edu/ to establish a record of their disability.

3. **Credit hours**

   Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours per the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

**Evaluating Written Assignments**

In general, assignments will be evaluated on their effectiveness. In addition to the checklists provided in the textbook, the following guidelines will also be used to evaluate your assignments.

- Are the purpose and main idea of the document clear?
- Has the document been organized to be compatible with the purpose and audience?
- Is the “you” attitude—courtesy and consideration for the audience—consistently present?
- Has all the necessary information—and only the necessary information—been included?
- Are grammar, punctuation, mechanics, and vocabulary correct?
- Is the format attractive and appropriate?
- Was the document submitted on time, as expected in the business world?
