

# MINOR IN LINGUISTICS

The Minor in Linguistics provides training in the scientific study of language for students whose professional competence would be enhanced by a more thorough knowledge of linguistics than is provided by their majors. Linguistics study the origins of language, the meaning and history of words, what language tells us about the workings of the human mind, and the practical aspects of language, including intercultural and interpersonal communication, language learning and teaching and language as a conveyor of information in profound human arenas such as medicine and law.
