Course: ME 186 – Automotive Engineering

Course Code: 44203 section 1

Semester: Fall 2013

Prerequisites: ME 114, ME 130, ME 154. Students must sign consent & acknowledgement form.

Credit Units: 3 Lecture

Instructor: Kevin A. Sawyer, Ph.D., P.E.

Class Hours: Seminar: Tuesday 6:00-8:45 pm

Class Location: Engineering Building 331

Office Hours: Tuesday: By appointment.
Phone: (408) 741-7051 x101 or (650) 424-2592
Fax: (408) 741-7062

Description: Overview of automotive engineering including powerplant, structures, suspension, steering, brakes, tires, and drive train. Application of engineering principles in automotive design and analysis. Introduction to alternative vehicle technologies. Use of mechanical engineering principles for automobile performance analysis.

Course Goals:
1. Learn automotive specific engineering principles
2. Learn basic automobile operational principles
3. Study alternative vehicle technologies
4. Apply engineering principles to automotive component design
5. Apply engineering principles to analyze automobile stability and handling.

Student Learning Objectives:
1. The ability to identify various components of automotive vehicles
2. The ability to describe various automotive operational principles
3. The ability to calculate basic automotive performance parameters
4. The ability to describe automotive systems in terms of engineering models
5. The ability to apply simple concepts in automotive design processes

Grading:
- Homework: 15%
- Midterm exam: 30%
- Project: 25%
- Final exam: 30%

Final exam date and time: 12/17 at 5:15 (12/11 = dead day)

Classroom Protocol
Regular attendance and active participation are encouraged. Please attend to non-classroom related discussion outside of the classroom.

Dropping and Adding
Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Refer to the current semester’s Catalog Policies section at http://info.sjsu.edu/static/catalog/policies.html. Add/drop deadlines can be found on the current academic calendar web page located at http://www.sjsu.edu/academic_programs/calendars/academic_calendar/. The Late Drop Policy is available at http://www.sjsu.edu/aars/policies/latedrops/policy/. Students should be aware of the current deadlines and penalties for dropping classes.

Information about the latest changes and news is available at the Advising Hub at http://www.sjsu.edu/advising/.

University Policies

Academic integrity
Your commitment as a student to learning is evidenced by your enrollment at San Jose State University. The University’s Academic Integrity policy, located at http://www.sjsu.edu/senate/S07-2.htm, requires you to be honest in all your academic course work. Faculty members are required to report all infractions to the office of Student Conduct and Ethical Development. The Student Conduct and Ethical Development website is available at http://www.sa.sjsu.edu/judicial_affairs/index.html.

Instances of academic dishonesty will not be tolerated. Cheating on exams or plagiarism (presenting the work of another as your own, or the use of another person’s ideas without giving proper credit) will result in a failing grade and sanctions by the University. For this class, all assignments are to be completed by the individual student unless otherwise specified. If you would like to include your assignment or any material you have submitted, or plan to submit for another class, please note that SJSU’s Academic Policy S07-2 requires approval of instructors.

Campus Policy in Compliance with the American Disabilities Act
If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 requires that students with disabilities requesting accommodations must register with the Disability Resource Center (DRC) at http://www.drc.sjsu.edu/ to establish a record of their disability.

“Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.”
