Event Description

Join Susanna Khavul (Lucas College and Graduate School of Business) and a cross-disciplinary panel to explore strategies that will help you be successful publishing your work in academic and professional journals. Learn about different kinds of journals. Hear about do's and don'ts about approaching journal editors, before, during and after the review of a submission; about the review process; and about elements that characterize strong vs. weak submissions. Co-hosted by the Center for Faculty Development and the University Library at San Jose State University.
